"Means of preserving Health

PREVENTING DISEASES;" Founded principally on an attention to Air and Climate, Drink, Food, Sleep, Exercise, Ctoathing, Passions of the Mind, and Retentions and Excretions-By SHADRAOK RICKETson, Physician in New-York.

RECOMMENDATIONS. We, the subscribers, having examined a Treatise on the "Means of preserving Health and preventing Diseases," composed by Doctor Shadrack Ricketson of this city, embrace, with pleasure, the present opportunity of giving it our decided and public approbation. The style of the work is performed in so plain and intelligible a manner that it may be readily comprehended by every person of ordinary information; the principles inculcated are uniformly supported by well adapted quotations from the best authors on the subject, forming in the whole a collection of facts and opinions well worthy the attention of every class of soci-

my hands, relative to the " Means of preserving Health and of preventing Diseases" It appears to me to be arranged in a perspi-Quous manner, and to contain principles which will receive general approbation.

You have also very judiciously availed yourself of the observations of some of the ablest writers of the present day, which will give an additional value to your work, especially with those who may not have access to the originals. Accept, sir, my best wishes for the success of your undertaking.

Your humble servant, DAVID HOSACK.

" We hope this publication will have the good effect of carrying the valuable cautions and precepts which it contains into many places, and recommending them to the attention of many families and persons whom otherwise

they might never have reached. "This benefit, together with that of recalling to the minds of many who are to apt to forget the salutary advice it offers, will, we are confident, afford to the benevolent and judicious author, a compensation for all the labor he has bestowed in preparing it for the use of the

Med. Repository and Review of American publications on Med Surgery, and the suxiliary branches of science, for August, September, and Ostober 1806 .- By Doctors Mitchell and

Similar recommendations highly approbating the foregoing publication, have been received from Dr Ramsey, of Charleston, and Dr. B Waterhouse, of Cambridge.

We, the subscribers, having been favored with the perusal of a book composed by Ductor Ricketson, of New-York, entitled " Means of preserving Health and preventing Diseases," do, with much pleasure, give it the sanction of our approbation, and cheerfully co-operate with our respectable brethren of the Faculty in other places, in recommending it as a valuable and useful guide to health, and containing directions well calculated to prevent or mitigate diseases; and therefore worthy the attention of every family and individual.

We confidently hope that the merit of this little American work will be duly appreciated, and that thereby its benevolent and judicious author will be amply compensated for his labor and good intentions.

To our Fellow-Citizens.

WHEREAS it has been represented and generally understood in various parts of this city, that we are concerned in a Periodical Print, called " Speciacles " and that we are also endeavouring to establish a Daily Paper, entitled " THE HERALD," of which a Prospectus is now distributing through Baltimore; twe deem it a duty which we owe ourselves to explicitly declare, that we are in no wise, directly or indirectly, interested in either of the aforesaid publications.

Werm Destroying Lozenges. This medicine is superior to any ever offered to the public, being innocent and mild, certain and esticacious in its operations. Should no worms exist in the body it will, without pain or griping, cleanse the stomach and bowels or whatever is foul or offensive, and thereby pre vent the production of worms and many fata'

disorders. From the many cases of cures that daily come to our knowledge, we have selected the following:

Messrs. Richard Lee & Son, Having observed in the newspaper, an advertisement of yours describing the good qualities of your Worm Lozenges, induced me to call at the store of Warner and Hanna, and to make a trial of some of them on a semale child of my friend's, who was in my care, which from her symptoms of disease, viz. sickness, a picking at the nose, offensive breath and other like circumstances, authorised myself and Mrs. M'Cormick to determine that worms was the complaint, accordingly a few days since, I made a trial of the m dicine, agreeable to the directions, and I am happy to say, that on the third day afterwards the child evacuated large worms, and other offensive matter, such as to me was astonishing that any human being could have contained—particularly at so early an age as two and a half years old-for the good of society I have much pleasure in mentioning the case, and to observe that the child is now perfectly well, and assumes a healthy appearance. Any other information I shall give with pleasure on application to me at my house in Frederick-street, near Messrs. Van Wyck and Dorsey's auction-room.

WM. M'CORMICK Baltimore, January 21, 1807.

Messrs, Richard Lee and Son, It is my desire for you to make known to my fellow-citizens the good effects your Worm Lozenges has produced on my son ten years, old, who has been long affected with violent pains in his head, loss of appetite, &c. which reduced him so low that he was unable to walk, having " ed several different medicines, but to no eff ct; at length I had recourse, to your Worm Lozenges, the first dose expelled apwards of twenty large worms, the second duse seven, the third none-and now the boy enjoys a good state of health.
