Lee's Genuine, Patent,
AND
Family Medicine,

Prepared by
RICHARD LEE & SON,
SOLE PROPRIETORS;

And sold (by appointment) at the Bookstores of Messrs Warner & Hanna, corner of Gay and Market-streets; John Vance & Co. No. 178, Market-street, three doors below Charles-street; and Nathaniel Night, No. 23, Fell's-street, Fell's Point.

Each article has on the outside wrapper, the signature of

RICHARD LEE & SON,

Without which, none are genuine!

Persons not attending to the above instructions, are liable to be imposed upon.

LEE's
Worm Destroying Lozenges.

This medicine is superior to any ever offered to the public, being innocent and mild, certain and efficacious in its operations. Should no worms exist in the body it will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders.

From the many cases of cures that daily come to our knowledge, we have selected the following:

Messrs. Richard Lee & Son,

Having observed in the newspaper, an advertisement of yours describing the good qualities of your Worm Lozenges, induced me to call at the store of Warner and Hanna, and to make a trial of some of them on a female child of my friend's, who was in my care, which from her symptoms of disease, viz. sickness, a picking at the nose, offensive breath and other like circumstances, authorised myself and Mrs. M'Cormick to determine that worms was the complaint, accordingly a few days since, I made a trial of the medicine, agreeable to the directions, and I am happy to say, that on the third day afterwards the child evacuated large worms, and other offensive matter, such as to me was astonishing that any human being could have contained—particularly at so early an age as two and a half years old—for the good of society I have much pleasure in mentioning the case, and to observe that the child is now perfectly well, and assumes a healthy appearance. Any other information I shall give with pleasure on application to me at my house in Frederick-street, near Messrs. Van Wyck and Dorsey's auction-room.

WM. M'CORMICK.

Baltimore, January 21, 1807.

Messrs. Richard Lee and Son,

It is my desire for you to make known to my fellow-citizens the good effects your Worm Lozenges has produced on my son ten years old, who has been long affected with violent pains in his head, loss of appetite, &c. which reduced him so low that he was unable to walk, having used several different medicines, but to no effect; at length I had recourse to your Worm Lozenges, the first dose expelled upwards of twenty large worms, the second dose seven, the third none—and now the boy enjoys a good state of health.

Valuable Lands, &c. for Sale,
ON THE 19th JUNE NEXT.

IN compliance with the will of Engelhard Yeiser, esq. lately deceased, will be sold at public auction, on the premises, at 12 o'clock, on the 19th June next,

ALL that valuable PLANTATION whereon the deceased lately resided, containing about 331 1-2 acres, distant about 4 1-2 miles from the city of Baltimore, and adjoining the lands of Gen. Smith, Daniel Bowly, esq. and others. On this land are erected a comfortable Dwelling-House; a convenient stone Barn, 33 feet in width and 75 feet long; a Still-House, with two Stills; and a Spring-House, the lower part stone, the upper part brick; exclusive of several other tenements, and every other necessary out-house; good Apple and Peach Orchards, of excellent fruit; also, good kitchen gardens. About half the land is clear—the other half is young thriving wood; a considerable quantity of meadow, a constant stream of water running through it. The upland is kind for all sorts of grain. This property is a healthy, handsome, and pleasant situation.

Also, at the same time and place will be sold at auction, as aforesaid,

All that well known valuable FARM, late the property of the deceased, called Grace's Quarter; situated in Middle-river Neck, at the conflux of Gunpowder river and Salpetre creek, by which two waters it is almost surrounded. It contains about 424 acres of arable wood and meadow land. For fertility of soil, this place is equalled by few. To point out the number of natural advantages attending it, would far exceed the bounds of an advertisement. There is on it a good comfortable House, almost new, with Kitchen, Negro Quarter, Spring-House, with necessary outhouses, and a large frame Barn (erected in the summer of 1804) with stables, cow-houses, &c. underneath it. Likewise, two apple-orchards, two peach ditto, of the best of fruit, with cherry and plumb-trees, and about 20 remarkably fine pear trees, from the fruit of which alone considerable sums have been made. In fact, no place in the country can be better situated, either for the grazier or planter, for nearly the whole of the farm can be put into meadow at a small expence. The fishery on this place, in the season, is extremely profitable; and the shores are lined with wild fowl of all kinds. It has the advantage of an elegant prospect of the river and adjacent country, and good water. The distance to Baltimore by land is 16 miles, and by water 4 or 5 hours sail.

Persons disposed to purchase, are invited to view the above property.

Both the said farms will be laid off and divided into smaller farms, to suit purchasers. Plats of the same will in a few days be left at the auction room of Mr. Thomas Chase.

P. WILLIAMSON'S
Celebrated Elastic Three Slit
METALLIC PEN,

WHICH has been pronounced, by many of the most eminent penmen, to be far superior to any metallic Pen that has ever been made heretofore, either in Europe or America; it is well known, that all the Pens upon the former principle have been wanting in that pliability which all Pens should have, in order to write with smoothness and rapidity, which in this is happily effected by the two additional side slits.

Also,

RECOMMENDATIONS.

We, the subscribers, having examined a Treatise on the "Means of preserving Health and preventing Diseases," composed by Doctor Shadrack Ricketson of this city, embrace, with pleasure, the present opportunity of giving it our decided and public approbation. The style of the work is performed in so plain and intelligible a manner that it may be readily comprehended by every person of ordinary information; the principles inculcated are uniformly supported by well adapted quotations from the best authors on the subject, forming in the whole a collection of facts and opinions well worthy the attention of every class of society.

New York, September 1st, 1806.

SIR,

I have perused the work you have put into my hands, relative to the "Means of preserving Health and of preventing Diseases"

It appears to me to be arranged in a perspicuous manner, and to contain principles which will receive general approbation.

You have also very judiciously availed yourself of the observations of some of the ablest writers of the present day, which will give an additional value to your work, especially with those who may not have access to the originals.

Accept, sir, my best wishes for the success of your undertaking.

Your humble servant,
DAVID HOSACK.

Dr. Ricketson.

New-York, September 1st, 1806.

"We hope this publication will have the good effect of carrying the valuable cautions and precepts which it contains into many places and recommending them to the attention of many families and persons whom otherwise they might never have reached.

"This benefit, together with that of recalling to the minds of many who are too apt to forget the salutary advice it offers, will, we are confident, afford to the benevolent and judicious author, a compensation for all the labor he has bestowed in preparing it for the use of the public."

Med. Repository and Review of American publications on Med. Surgery, and the auxiliary branches of science, for August, September, and October 1806.—By Doctors Mitchell and Miller.

Similar recommendations highly approbating the foregoing publication, have been received from Dr. Ramsey, of Charleston, and Dr. B Waterhouse, of Cambridge.

We, the subscribers, having been favored with the perusal of a book composed by Doctor Ricketson, of New-York, entitled "Means of preserving Health and preventing Diseases," do, with much pleasure, give it the sanction of our approbation, and cheerfully co-operate with our respectable brethren of the Faculty in other places, in recommending it as a valuable and useful guide to health, and containing directions well calculated to prevent or mitigate diseases; and therefore worthy the attention of every family and individual.

We confidently hope that the merit of this little American work will be duly appreciated, and that thereby its benevolent and judicious author will be amply compensated for his labor and good intentions.
