 A Valuable TREATISE, entitled  
**"Means of preserving Health AND PREVENTING DISEASES,"**  
 Founded principally on an attention to Air and Climate, Drink, Food, Sleep, Exercise, Clothing, Passions of the Mind, and Retention and Excretions.—By SHADRACK RICKETSON, Physician in New-York.

**RECOMMENDATIONS.**  
 We, the subscribers, having examined a Treatise on the "Means of preserving Health and preventing Diseases," composed by Doctor Shadrack Ricketson of this city, embrace, with pleasure, the present opportunity of giving it our decided and public approbation. The style of the work is performed in so plain and intelligible a manner that it may be readily comprehended by every person of ordinary information; the principles inculcated are uniformly supported by well adapted quotations from the best authors on the subject, forming in the whole a collection of facts and opinions well worthy the attention of every class of society.

 SIR,  
 I have perused the work you have put into my hands, relative to the "Means of preserving Health and of preventing Diseases."  
 It appears to me to be arranged in a perspicuous manner, and to contain principles which will receive general approbation.  
 You have also very judiciously availed yourself of the observations of some of the ablest writers of the present day, which will give an additional value to your work, especially with those who may not have access to the originals.  
 Accept, sir, my best wishes for the success of your undertaking.  
 Your humble servant,  
 DAVID HOSACK

**Dr. Ricketson.**  
 New-York, September 1st, 1866.  
 We hope this publication will have the good effect of carrying the valuable cautions and precepts which it contains into many places, and recommending them to the attention of many families and persons whom otherwise they might never have reached.  
 This benefit, together with that of calling to the minds of many who are too apt to forget the salutary advice it offers, will, we are confident, afford to the benevolent and judicious author, a compensation for all the labor he has bestowed in preparing it for the use of the public.

Med. Repository and Review of American publications on the surgery, and the auxiliary branches of science, for August, September, and October 1866.—By Doctors Mitchell and Miller.  
 Similar recommendations highly approving the foregoing publication, have been received from Dr. Ramsay, of Charleston, and Dr. B. Waterhouse, of Cambridge.

We, the subscribers, having been favored with the perusal of a book composed by Doctor Ricketson, of New-York, entitled "Means of preserving Health and preventing Diseases," do, with much pleasure, give it the sanction of our approbation, and respectfully request our respectable brethren of the Faculty in other places, to recommend it as a valuable and useful guide to health, and containing directions well calculated to prevent or mitigate diseases; and to direct the attention of every family and individual.  
 We confidently hope that the merit of this little American work will be duly appreciated, and that thereby its benevolent and judicious author will be amply compensated for his labor and good intentions.

**Loan Office,**  
 Maryland, June 8th, 1867.  
**NOTICE IS HEREBY GIVEN,**  
 THAT, in conformity with the provisions of the act supplementary to the act, intitled "An act making provision for the redemption of the whole of the public debt of the United States," books will be opened at the office of the commissioner of loans for Maryland, on the first day of July next, to continue open until the seventeenth day of March, 1868, inclusively, for the purpose of receiving subscriptions for such parts of the old six per cent. deferred six per cent. and three per cent. stocks, as may, on the day of subscription, stand on the books of the said commissioner of loans.  
 Those proprietors of the old six per cent. and deferred stocks, who may subscribe, will receive in lieu thereof a new six per cent. stock, equal to the unredeemed amount of the stock surrendered, redeemable at the pleasure of the United States, under a proviso however, that no reimbursement shall be made except for the whole amount of any such new certificate of stock, nor till after six months previous notice: and the proprietors of the three per cent. stock who may subscribe, will receive in lieu thereof, a six per cent. stock, equal to sixty-five per cent. of the amount of three per cent. stock surrendered, redeemable in the same manner as the new six per cent. above-mentioned, but not reimbursable however, without the assent of the holders, until after the whole of the new six per cent. (given in exchange for old six or deferred as above-mentioned,) as well as the whole of the eight per cent. stock of the United States, shall have been reimbursed. It is also provided that in every reimbursement which may take place, a preference will be given to these creditors who may notify their wish to be reimbursed; and that if the applications to that effect shall at any time either exceed or fall short of the sum then applicable to that purpose, the priority of payment shall, so far as may be necessary, be determined by lot.  
 The present stockholders who reside in any part of Europe, and may assent to that modification, may, at their option, receive the interest accruing on the new stock, either in the United States as heretofore, or in London, or Amsterdam, at par: in which last case, the interest will be paid there by the bankers of the United States, six months subsequent to the day on which the same would be payable in the United States and subject to no variation; nor to any other deduction than a commission to the bankers, of one half per cent. on the interest thus paid.

 ABOUT 380 acres of Woodland, from nine to ten miles from Baltimore, on the main road to Ellicott's upper Mills; there is a large quantity of timber and wood on this tract; it is allowed by good judges that it will average considerably more cords of wood per acre, than will pay the price I ask for it, as it stands, without any expense or trouble in cutting. The price of fire wood the last winter, with the increasing scarcity of that article on the tide waters, and near Baltimore, it is thought will make this property of great value in a few years, to one that has the money to spare. The whole may be sold together or had in lots, as may best suit purchasers. One half the money will be required in hand, for the other half two or three years credit will be given. **Land for Sale.**  
 ABOUT 380 acres of Woodland, from nine to ten miles from Baltimore, on the main road to Ellicott's upper Mills; there is a large quantity of timber and wood on this tract; it is allowed by good judges that it will average considerably more cords of wood per acre, than will pay the price I ask for it, as it stands, without any expense or trouble in cutting. The price of fire wood the last winter, with the increasing scarcity of that article on the tide waters, and near Baltimore, it is thought will make this property of great value in a few years, to one that has the money to spare. The whole may be sold together or had in lots, as may best suit purchasers. One half the money will be required in hand, for the other half two or three years credit will be given. Nathan Ely, living near the premises, will show the Land; and the terms made known on application to Joseph Townsend, Baltimore, or to ENNON WILLIAMS.
