Mr. Pechin,

Permit me, through the medium of your useful paper, to propose to the public, Mr. ROBERT STEWART, as a candidate for a seat in the Legislature of this State. If revolutionary services and a steadfast attention to public duty, as evinced by this gentleman during the last session, is entitled to any share of merit, then has Mr. Stewart strong claims on the voters of this city.

The Evening Post and Federal Gazette will please copy.

### TO THE VOTERS OF BALTIMORE COUNTY.

We know from our acquaintance with Beale Kandel, that he is competent to the task of acting as a representative for Baltimore County; which joined with his being a farmer, induces us to propose him as a candidate at the ensuing Election of Delegates, to the General Assembly of Maryland: Confident, if elected, that every exertion will be made by him, to render satisfaction to his constituents.

A NUMBER OF VOTERS.  
Sept. 14.

Married—At Philadelphia, on Thursday evening last, by the rev. Mr. Greer, Mr. Richard, of Baltimore, to the amiable Miss Mary Vanson, of Alton township, Delaware county.

The friends of GEORGE SALMON, Esq. are invited to attend his funeral This Afternoon, at four o'clock, from his late dwelling in Calvert-street.

*Barge Amelia, off Fort M. Henry, September 13.*

Mr. PECHIN,

The barque Amelia, just arrived, in 32 days from Kingston, in the island of Jamaica, was taken possession of, off the river Romaine, on the coast of St. Domingo, by his Britannic Majesty's frigate Deadless, Frederick Warren, commander; being one third loaded I was going to take the remainder of the cargo in the said river, which would consist of mahogany and dye woods—they put an officer and eight men on board, and sent me to Jamaica. On my arrival there, the agent for the captors gave the ship up on my paying costs, or else would proceed against her. The first lieutenant of the frigate, by the name of Hyley, that boarded me, acted in the most scandalous manner, and abused me very grossly. The brig Helen, Captain Cobb, to sail in 2 days for Alexandria. American producer high. September 5, in lat. 35, 34, long. 75, West, spoke the schooner Thatcher, 4 days from Baltimore, for Barbadoes, all well. In Jamaica they stand in great dread of an embargo in the United States.

WALTER C. HAYES,  
Master of Barque Amelia.

New York, September 11.

The ship *Bordeaux*, Church, 65 days from Bordeaux. On the 8th of July, sailed from Bordeaux River, and the 22d, in lat. 43, 30, long. 23, spoke the brig *Minerva*, from New York to Bordeaux. Aug. 3, at 45, 34, long. 35, 30, spoke sch'r *Aurora*, Hooper, from Cadix to Marblehead. 7th, lat. 38, 29, long. 39, 20, spoke ship *Mary*, Bembury, from Baltimore, to Trieste. 24th, lat. 41, 31, long. 55, spoke the brig *Clinton*, of and for New York to Lisbon; ship *George* and *Albert*, from Derry to Baltimore. 28th, lat. 41, 41, long. 60, brig *Perseverance*, Starr, from Bordeaux, to Providence. On the 29th of August, in lat. 41, 30, long. 65, at 1 o'clock, A. M. the wind cast in at South East, the weather began to look very bad—we commenced shortening sail as fast as possible, got all our light sails in, fore and main topsail closely reefed, mizen topsail hauled, the gale increasing very rapidly, at 2 o'clock got all our sails clued up, by this time the wind increased to a tempest attended with a deluge of rain, the ship came too against the helm with several of our sails loose; we succeeded in handling the fore sail and maintop sail; at half past two it blew a hurricane, the ship lying too with her lower yards nearly touching the water to the leeward, in this situation it was impossible to do any thing but hold on and see sails, mast and yards blow away; for the space of 6 hours I expected at every surge that our masts would go by the board; our sails that were hauled met with the same fate of those that were loose, blew from the yards and were shaken to atoms. Our gib boom, gib, spritsail yard and all the rigging went together. Main top mast, topsail yard, top-gallant mast, yards, sails, rigging, &c. went over the side, our spanker and gaff, and stern boat met the same fate, by 8 o'clock A. M. the ship was a complete wreck, had but two sails that we could set, the foresail and mizen topsail, which were considerably injured. For the space of 8 hours this tempest far exceeded any I ever experienced, not only for the violence of the wind, but over head as well as under foot, exhibited in appearance, but one entire sheet of water. 30th, lay too all day, clearing the wreck; at 6 P. M. bore away to the westward under fore sail and mizen top sail, being all the sails we had set. 31st, passed a ship's spar, which I judged to be a ship of about 300 tons or upwards, by the size of her masts. I think that ships must have suffered greatly that came within the reach of this tempest, and I doubt many would not have it, for no ship could be in a better

situation to stand bad weather than ours, both sails and rigging were in the best order, still in the short space of 6 hours it made a wreck of her.

### The Fashionable Complaint.

The public were advertised a few weeks ago, that the *Fashionable Complaint*, or *Ventreal*, could be removed, and radically cured, without any use whatever of MERCURY.  
I would now respectfully inform the public, that I have attended to this affair, for three or four weeks; and have seen the effect of this new, and, as I conceive, *happier method of cure*.  
Cases of every description I have seen, to all appearance, radically healed. Many old complaints, which had been treated by mercurial prescriptions, but which, for some reason or other, did not prove effectual, have, by this new method, been entirely healed quite readily. Out of the number of thirty persons, who have applied for aid, from this new method, some in every stage of the disease, have been, I really believe, thoroughly cured. I feel the greatest assurance, that all those who have applied, and who pay faithful attention to their directions, either here, or will be safely restored; by *Doctor Herchel's Cordial*, and other mild prescriptions, to their former state of health. And I have such confidence in the candour and integrity of the gentleman who manages this business in behalf of Dr. H. that I do not believe he makes use of mercury in any shape or form. Not pretending to account for these things, I only state those facts which have occurred within my own knowledge, that those who may have occasion, might make use of them if they think proper.  
N. B. Any person who may have the curiosity to enquire of this affair, say more particularly, will be referred to me, by calling at Dr. Herchel's Dispensary Office, directly opposite St. Peter's Church, in German Lane.

### The Subscriber

Respectfully begs leave to recommend the following proposals of the London Phoenix Fire Company. The season of the year approaches, when danger from that element is most to be apprehended. The rates of Premiums, will in all cases, be made low, as the nature and situation of property will permit. For the accommodation of Merchants, specific Goods, identified by marks and numbers, may be insured for a less time than the year. Orders left at the office in Second-street, any time between the hours of nine A. M. and 5 P. M. will be duly attended to, and policies issued the same day.  
DAVID STEWART, Agent.

Insurances can be made on Buildings, Stores, &c. &c. in all parts of Maryland, the district of Columbia, including Alexandria & its neighborhood. Letters on the subject, post paid, addressed to the Agent, shall have immediate attention.

### PROPOSALS

From the Phoenix Company of London  
For insuring houses, buildings, stores, ships in harbor, goods, wares and merchandise, FROM LOSS OR DAMAGE BY FIRE.  
Insurances from loss or damage by Fire hath been found a measure of great importance to the happiness of families, and has given additional security to commercial transactions. The distinguished approbations with which the public throughout Great-Britain received the improved system of this office, occasioned frequent application for the insurance of property in the principal cities and towns in Europe and America, and increased their plans to the continent of Europe and America, and to the West-India Islands.

The Phoenix Company can refer to the character of its experience to ascertain their hazard; and, gratified by the unbounded confidence they have obtained, and for the purpose of facilitating to the inhabitants the means of effecting insurance on their property, the directors have been accustomed to insure in any single risk, and have arranged rates of premium upon the various descriptions of property, which they trust, will be found moderate, just and equitable. The promptitude with which this office has adjusted the claims of sufferers, and the solidity of its funds, are so well known, that it is unnecessary to offer more on the subject, than to refer those who desire information, to the merchants of London, with whom they correspond.

In this office, no insured person is liable to any call to make good the losses of others; but in case of fire, the sufferer will be fully indemnified by the company. The company also make good losses on property burnt by lightning.

### RATES OF ANNUAL PREMIUMS

### Fire Insurance.

The subscriber having received powers and instructions from the

**PHENIX COMPANY OF LONDON,**  
Is fully authorized to effect insurance on Houses, Buildings, Stores, Ships in Harbor, Goods Wares and Merchandise, in any part of the state of Maryland.

**FROM LOSS OR DAMAGE BY FIRE,**  
On terms so moderate, as will, it is presumed, make it the interest of all to resort to a measure so well calculated to give additional security to commercial transactions, and to afford protection from the injuries which Fires have so often occasioned.

In this Office, no insured person is liable to any call to make good the losses of others, but in case of Fire, the sufferer will be fully indemnified with that liberality and promptness which have always distinguished this company; requiring no other delay (even where presumption of fraud appears) than is necessary to distinguish the honest sufferer from the fraudulent incendiary.

As a proof of the usefulness of this institution and the benefit that individuals have derived from it, it is only necessary to state, that since the commencement of the Office, in 1782, near SEVEN MILLIONS OF DOLLARS have been paid to claimants upon their policies.

The following is published for the information of those who reside at a distance.

### CONDITIONS OF INSURANCE.

I. PERSONS desirous to make Insurance on BUILDINGS, are to deliver in to the agent the following particulars, viz. Of what materials the walls and roof of each building are constructed, as well as the construction of the buildings contiguous thereto—whether the same are occupied as private dwellings, or how otherwise—where situated—also, the name or names of the present occupiers. Each building must be separately valued, and a specified sum insured thereon—and in like manner a separate sum insured on the property contained therein.

All manufactories which contain furnaces, kilns, stores, coals, ovens or otherwise use fire-heat, are chargeable at additional rates.  
In the Insurance of GOODS, WARES, or MERCHANTISE, the building or place in which the same are deposited, is to be described; also, whether such goods are of the kind denominated hazardous, and whether any manufactory is carried on in the premises. And if any person or persons shall insure his or their buildings or goods, and shall cause the same to be described in the policy otherwise than as they really are, so as the same be charged at a lower premium than would be

demanded if the true situation or quality of the buildings or goods were made known, such insurance shall be of no force.

II. Goods held in trust, or on commission, are to be insured as such, otherwise the policy will not extend to cover such property.

III. No loss or damage to be paid on fire happening by an invasion, foreign enemy, civil commotion, riot, or any military or usurped power whatever; nor for damage done by fire occasioned by earthquakes or hurricanes; but this company will make good the losses on property burnt by lightning.

IV. Books of accounts, written securities, bills, bonds, tallies, and ready money cannot be insured.

V. Jewels, plate, medals, or other curiosities, paintings and sculptures, are not included in any insurance, unless such articles are specified in the policy.

VI. Persons insuring property at this office must give notice of any other insurance made elsewhere on their behalf on the same, and cause each other insurance to be indorsed on their policies; in which case each of fire shall be liable to the payment only of a ratable proportion of any loss or damage which may be sustained; and unless such notice is given, the insured will not be entitled to recover in case of loss.

VII. No order for insurance will be of any force, unless the premium is paid to the agent or unless a sum has been advanced, and the agent has delivered his receipt on account of the office; and all persons desirous to continue their insurances, must make their future payments annually within fifteen days after the day limited by their respective policies, or the same will be void.

VIII. All persons assured by this company, sustaining any loss or damage by fire are forthwith to give notice to the company's agent and as soon as possible after, to deliver in as particular an account of their loss or damage signed with their own hands, as the nature of the case will admit of, and make proof of the same by their oath or affirmation, and by their books of accounts or other proper vouchers as shall be reasonably required; and shall procure a certificate, under the hand of a magistrate or sworn notary of the city or district in which the fire happened, not concerned in such loss, importing that they are acquainted with the character and circumstances of the person or persons insured, and do know or verily believe, that he, she, or they, really, and by mistake, without any kind of fraud or evil practice, have sustained by such fire, loss and damage to the amount therein mentioned, and until such affidavits and certificates are produced, the loss money shall not be payable; also, if there appears any fraud or false swearing, the claimant shall forfeit his claim to restitution or payment by virtue of his policy.

IX. In case any difference or dispute shall arise between the assured and the company, touching any loss or damage, such difference may be submitted to the judgment and determination of arbitrators, indifferently chosen, whose award in writing shall be conclusive and binding to all parties. And when any loss or damage shall have been duly proved, the insured shall receive satisfaction to the full amount thereof, without allowance of any discount, fees or other deduction whatever.

X. Persons choosing to insure for seven years, will be charged for six years only; also for a less number of years than seven, will be allowed a reasonable discount.

Pitch, Tar, Turpentine, Saltpetre, Flax, Hemp, Oils, and Tallow, are deemed hazardous goods; Tallow melters, Soap makers, Brewers, Dealers in Spirituous Liquors, Vinegar, and Sweet makers, Hemp and Flax dressers, Printing-houses, Coopers, Carpenters, Cabinet-makers, Coach-makers, Mill houses, Bakers, Ship-chandlers, Boat-builders, Rope-makers, Sugar-refiners, Distillers, Chemists, Varnish-makers, Turpentine-works, Theatres, and all Mills and Machinery, are deemed extra hazardous, and the rate upon such risks will be proportionably increased.

Ships in port, and their cargoes; ship building or repairing; also, barges, and other small craft, with goods on board, may be insured against fire, at 75 cents for one year; 45 cents for six months, and 37 1-2 cents for three months per 100 dollars.

Barns, Stables, Hay and Grain contained in them, or in stacks, or ricks and Live Stock will be insured at such premiums as may be agreed on.

In cases requiring a surveyor's report upon the buildings, where there are several shewing their situation with respect to each other and to other buildings, such survey or plan must be furnished by the assured, or at his expense; but where a clear description of the property can be given, of which the agent must be the judge, they may be dispensed with. The assured is subject to no charge or expense in this office, except 50 cents for the policy.

In stating the sum for which insurance may be requested on any property, it should be recollected, that *intensity* only is the object of insurance against fire, and that benefit or expected profit or advantage, beyond a just estimate of the value of the property destroyed, is against the principles of the contract.

Orders left at the office of the Company in Second-street, will be attended to, by

DAVID STEWART,  
Agent for the Phoenix Assurance Company of London.

The Phoenix Company having Agents at Philadelphia, New-York, Charleston, Savannah, and New-Orleans, persons having property in those places, are referred to the respective agents.
