JOHN BEDFORD,

PHILADELPHIA, Respectfully informs the public in general, and Store-keepers in particular, that he is now

prepared to supply them with the, above valuable goods, wholesale and retail, on moderte Shoemakers, also, may be supplied with patent-rights, on easy terms, which they will find it highly their interest to obtain, as they can, by this improvement, make four times the quantity of shoes, with their usual number of hands : for example, the usual work of three men,

only three pair of common shoes per day whereas, in the improved way, three men with the assistance of a boy, can make from twelve to afteen pair per day. Thus the advantages resulting from this improvement are evidently of the most essential importance: in the first place, three-fourths of the labour is saved; in the second place, half the leather is saved (for one pair of shoes, made in this way will wear as long as two pair, made in the usual way) and in the third place, there is a savier of flax (at the rate of one pound, to twenty-four pair of shoes) they are also much more water-proof than the others, and easier mended.

These are well ascertained facts, proved by actual experience. The patentee therefore hopes, that an improvement, fraught with such important public utility, will not only engage the attention, but the encouragement of every friend to the infant manufactures of this country It may not be amiss to remark that the country Shoemaker, in particular, may derive incasculable advantages from the time he has usually devoted to that purpose, and have the other three-fourths for the cultivation of his farm, or other avocations.

Planters will find it much to their advantage to purchase a right for the use of their slaves which they can obtain for the very low price of fifty dollars.

Price of patent rights, for the country, 100 dollars. For states, districts, or towns, in proportion

Stop the Thief.

One Hundred Dollars Reward, FOR apprehending and securing in Baltimore jail, my apprentice boy, named JACOB ANFREISWACK, aged 18 or 19 years, about 5 feet 3 inches high; very stout and strong for his age; fair complexion, and good features; short thick brown hair, inclined to curl; his hands very large. He is a native of Holland, and was bound an apprentice to me on board of the brig George, of Baltimore, in the year 1800, at Rotterdam, from thence he made a voyage with me to Bakimore, and from thence to Amsterdam, and back to Baltimore in 1803. He was at school with Mr. Hargrove, where he remained for several months. He was always a thief, and finally stole a gold ring, and knowing that he would be floged, he ran away from school, and entered in the United States navy, where he remained 2 or 3 years, and afterwards sailed 1 or 2 voyages out of New York, to Antigua, where he was impressed; and in a few days after, run tage. away from the British man of war. About the 20th of August, 1807, after being gone about 3 years, he returned, expressing much concern for his past conduct, and begged that I would forgive him and take him under my protection again; i consented, and bearded him with Mr. Hagen, on Dugan's whart; and for 12 days he served as a porter in the store—And on the 2d Sept. whilst I was at breakfast, leaving the store in his charge, he availed himself of the opportunity, broke open my desk, stole 104 dollars, several silver table and tea Spoons, marked S. and a small brass pocket pistol, makers name, Ryan and Watson, London. Jacob can read a little, and sometimes attempts to write, but cannot make his letters plain enough to be understood; when he first came to this country, in 1802, I boarded him with Captain Geese on the Point; and he went to school a few months to Mr. Gardner. He speaks the English language very plain, and has but little of the Dutch dialect : I think that he has forgot the most of his mother tongue. If taken in this state and lodged in Baltimore jail, 50 dollars will be paid; but if taken out of the state and lodged in Baltimore jail, 100 dollars will be paid.

september 7 The Old Line.

The proprietors of the New Line in Baltimore, or some of them, having advertised that they have beaten the new sloop Sarib, ought to have noticed other particulars which I suppose uid not occur to them. The President had got over to the glass-house before the Sarah started. The Sarah stopped at the Point to take in a passenger and when she standed aggun, the P. had got nearly to the Fort, at terwards the win i increasing, the ladies on board induced captain Parker to shorten sail, though except to assuage their fears there was no occasion to do so. Every man who has the least knowledge of

such matters, knows that the manner in which a new ressel ought to be trimmed is not dis covered at once. I will suppose that in siz weeks one may discover the trim of the Sarali. and as soon after, as there occurs a wind with northing and easting, or northing and westing in it (those winds being commonly general & uniform, or rather increasing) we will run with any boat on the new line on this bay. The result of this competition shall be made public with impartiality and my opponents shall not want an inducement to try the contest. C. CHAMBERS

P. S. The Sarah beat the Pinkney, going up the bay five hours. Captain Thomas in the Cecil beat the Superb one mile.

Capt. Rawlings in the Jesserson was about 15 miles ahead of the Pinkney when captain Thomas met them his last trip.

SPOTTEE, Has just arrived, who (from the great progress he has made in arithmetic and the art of boxing,) may justly be entitled, The Real Horse of Knowlegde.

me ill be exhibited every day (Sundays excepted) at Mr. Cook's Tavern, Market space, Baltimore.

This beautiful animal was caught on the Coast of Africa; and from the beauty and pecultarity of his colours and shape, was imported to this country, and exhibited as a natural curiosity. He is variegated with four very rich and distinst colours, which are formed into circular spots, similar to those of the Leopard, and his tail resembles that of the Elephant. Exclusive of these peculiarities, he will add, subtract, m Itiply and divide; tell the hour of the day by a watch; the number of buttons on a gentleman's coat, and the number of persons present; with many other pleasing manœuvres and marks of sagacity, which excite great admiration.

No danger need be apprehended during the performance, as the apartment is rendered very convenient.
