JOHN BEDFORD,

PHILADELPHIA, Respectfully informs the public in general, and Store-keepers in particular, that he is now prepared to supply them with the acove valueble goods, wholesale and retail, on moderte

Shoemake's, also, may be supplied with patent-rights, on easy terms, which they will find it highly their interest to obtain, as they can, by this improvement, make four times the quantity of shoes, with their usual number of hands: for example, the usual work of three men, is only three pair of common shoes per day; whereas, in the improved way, three men with the assistance of a boy, can make from twelve to fifteen pair per day. Thus the advantages resulting from this improvement are evidently of the most essential importance : in the first place, three-fourths of the labour is saved; in the second place, half the leather is saved (for one pair of shoes, made in this way will wear as long as two pair, made in the usual way) and in the tiurd place, there is a saving of flax (at the rate of one pound, to twenty four pair of shoes) they are also much more water-proof then the others, and easier mended.

These are well ascertained facts, proved by actual experience. The patentee therefore hopes, that an improvement, fraught with such important public utility, will not only engage the attention, but the encouragement of every friend to the infant manufactures of this country. It may not be amiss to remark that the country Shoemaker, in particular, may derive incalculable advantages from the time he has usually devoted to that purpose, and have the other three-fourths for the cultivation of his farm, or other avocations.

Planters will find it much to their advantage to purchase a right for the use of their slaves which they can obtain for the very low price of fifty dollars.

Price of patent-rights, for the country, 100 dollars. For states, districts, or towns, in proportion.

Fashion:ble Complaint.

The public were advertised a few weeks ago, that the Fashionavie Complaint, or Venereal, could be removed, and radically cured, without any use whatever of MERCURY.

I would now respectfully inform the public, that I have attended to this affair, for three or four months; and have seen the effect of this new, and, as I conceive, happier method of

Cases of every description I have seen, to all appearance, radically nealed. Many old complaints, which had been treated by mercumal prescriptions, but which, for some reason or other, did not prove effectual, have, by this new merrod, been entirely henied quite readily. Out of the number of thirty persons, who take applied for aid, from this new method, some in every stage of the disease, have been, I reary believe, thoroughly cured. I leer the greatest assurance, that all those who have appued, and who pay faithful attenuon to their directions, either have, or will be safely restured, by Doct - Herschel's Cordial, and other mild prescriptions, to meir former state of heatth. And I have such confidence in the candom and integrity or the gentieman who manages tens business in benait of Dr. H. that I do not believe he makes use of mercury in any shape or form. Not pretending to account for these things, I only state these faces which have occurred within my own knowledge, that those who may have occasion, might make what use of them they thank proper.

N. B. Any person who may have the curiosity to enquire of this affair, any more particuiarly, will be referred to me, by calling at Dr. Herschel's Di pensary Office, intectly offe posite St. Peter's Gauron in German Lanc. TESTAMONIOUS.

100 Dollass Reward.

On the 25th of last month, my negro man GERARD, ran away from my mansion plantation, in King George county, Virginia. He is about five feet and a half nigh, stout made, when standing appears to bend backwards in the knee joints, has thick lips, a pimpled tace, a yellowish complexion, and a scar in the form of an M about an inch long on his right cheek. He is unwards of thirty years of age, and a blacksmith by trade. I will give a reward of one hundred dollars for apprehending, bringing said negro home and delivering him to me, provident he shall be apprehended in another state-twenty dollars, provided he shall be apprehended any where in this state, prought home and delivered to me-and ten dollars in case he shall be apprehended and committed to jail, and information thereof given to me. A boat having been, shortly alt. r his absconsion, taken away in the night from the shore of Potowmac river on the Virginia side, nearly opposite Nanjemoy, and found afterwards on the Maryland shore, I strongly suspect that he has crossed that river, and gone on towards Baltimore, where he may attempt to get on board some vessel, as he has heretofore been somewhat accustomed to going by water. Under that belief I hereby forewarn all masters of ve sels from harboring, or in any wise employing him. It is pro able also that he may be provided with a forged pass or letter to which, if that be the case, I hope no regard will be paid. I would advise the apprehender to watch him carefully while he is in his custody, as he is a subtle and deceitful fellow, and might without strict attention flect his escape MICHAEL WALLACE.

On the negro being secured in jail the reward will be paid. Apoly to the printer here-

Stop the Thief.

One Hundred Dollars Reward, FOR apprehending and securing in Baltimore jail, my apprentice boy, named JACOB VANFREISWACK, aged 18 or 19 years, about 5 feet 3 inches high; very stout and strong for his age; fair complexion, and good features; short thick brown hair, inclined to curl; his hands very large. He is a native of Holland, and was bound an apprentice to me on board of the brig George, of Baltimore, in the year 1800, at Rotterdam, from thence he made a voyage with me to Baltimore, and from thence to Amsterdam, and back to Baltimore in 1803. He was at school with Mr. Hargrove, where he remained for several months. He was always a thief, and finally stole a gold ring, and knowing that he would be floged, he ran away from school, and entered in the United States navy, where he remained 2 or 3 years, and afterwards sailed 1 or 2 voyages out ef New York, to Antigua, where he was impressed; and in a few days after, run away from the British man of war. About the 20th of August, 1807, after being gone about 3 years, he returned, expressing much concern for his past conduct, and begged that I would forgive him and take him under my protection again; I consented, and bearded him with Mr. Hagen, on Dugan's whart; and for 12 days he served as a porter in the store—And on the 2d Sept. whilst I was at breakfast, leaving the store in his charge, he availed himself of the opportunity, broke open my desk, stele 164 dollars, several silver table and tea Spoons, marked S. and a small brass pocket pistoi, makers name, Ryan and Watson, London. Jacob can read a little, and sometimes attempts to write, but cannot make his letters plain enough to be understood; when he first came to this country, in 1802, I boarded him with Captain Geese on the Point; and he went to school a few months to Mr. Gardner. He speaks the English language very plain, and has but little of the Dutch dialect: I think that he has forgot the most of his mother tengue. It taken in this state an' todged in Baltimore jail, 50 dollars will be paid; but if taken out of the state and lodged in Baltimore
