French Evening School, THE School is divided into two classes, which meet alternately every other day. Gentlemen who cannot attend regularly either class, may come occasionally, when their engagements will allow. METHOD OF TEACHING, To lessen as much as can be done the pains attending the study of an unknown tongue, every beginner is assisted in reading and writing, until he can translate freely to himself, and to facilitate the knowledge of the grammar, a selection of useful terms and sentences is printed and read to the scholars, and the principal rules of the language are explained by the teacher, and the scholars are encouraged to calculate the attainment of the language.
