" We hope this publication will have the good effect of arrying the valuable cautions and precepts which it contains into many places, and recommending them to the attention of many families and persons whom otherwise they might never have reached. " This benefit, together with that of callinging

to the minds of many who are too apt to refore the salutary advice it offers, will, we are confident, afford to the benevolent and judicious auther, a compensation for all the labor he has bestowed in preparing it for the use of the

Med Repository and Review of American publications on Med. Surgery, and the auxiliary branches of science, for August. September, and October 1806 .- By Doct rs Mitchell and

Similar recommendations highly approbating the foregring publication, have been received from Dr Ramsey, of Charleston, and Dr. B Waterhouse, of Cambridge.

We, the subscribers, having been favored with the perusal of a book composed by Doctor Ricketson, of New-York, entitled " Mouns of preserving Health and preventing Diseases," do, with much pleasure, give it the sanction of our approbation, and cheerfully co-operate with our respectable brethren of the Faculty in other places, in recommending it as a valuable and useful guide to health, and containing direc tions well calculated to prevent or mitigate diseases; and therefore worthy the attention of every family and individual.

We considertly hope that the merit of this little American work will be duly appreciated, and that thereby its benevolent and judicious author will be amply compensated for his labor and good intentions.
