" BOSTON, November 12. LATEST FROM FRANCE.

By the Sally-Backer-Windson, arrived on Tuc-day, in a short passage from B :deaux, we have French pap rs o the 5th October. Their contents, excepting the affir of Copenhagen, are not interesting.

From a gentleman, however, v no came passenger in the above vessel, and throng a the channel of private letters, we are emabled to present our read rs with the following interesting intelligence.

MORE UNIVELLOME NEWS. Extract of a littur from a house of the first remeriability in Autwerp, to another in Bordeaux, dated September 28, and received at Bordeaux, by express, just before the Sally-Barker-Windsor left the latter place.

" We understand an order has been given our by the emp. ror, to capture every vessel bound to or form England, and if with cargoes, are to be considered as good prizes. This is a mortal blow to the American counteres, and we fear will had to a suprime between America and

" It is reported that Lir. Munroe has left London, but not on account of the exindian differences between the two countries, but by reas not ill health. Mr. Pinchary is said to be charged with the public eusiners."

The liest paragraph of the above letter was corroborated at Bordeaux by letters direct from Paris, of a late date.

A gent eman who came passenger in the Saliv-Ba ker-Wardsor, informs us, "That two circs of capture, [American] made since and unde the dec ee of the 215 of Nov 18 6, were brought before the Prize-Court at Hord oux a short time before ne lest that city; but the court had refused to give an opicion until fresh instructions should be received from the E aperon.-These in armations were called for by the court, and a question demanued was to be put it full firee against the Americans? His answer was, That in effect, the law must operate against them as with all other neutrals."

We were yesterday favored with the following article from a source which may be relied on.

" Answers were given by the emperor to the Council of Prizes, on the 23d of September last to the following questions.

1st. Whether there should be any exseptions to the decree of November 21, 1806, in favor of such nations az, by their treaties, were allowed a free trade, or the privilege of neutralizing enemies property. Answer. That as the decree, contained no exceptions, there should not be eny made in application.

2d. Whether neutral vessels in ballast. should also be made liable to confication, upon the plea of capture, or stress of weather, if they had entered a British port. Answer. That it must lay over for further consideration.

3d. Whether one half of the confissated property should, in all cases, be approprieted towards indemnifying sufferers by British spoilations. The answer was in the affirmative.

HOUSE OF REPRESENTATIVES.

Washington, Wavember 17. Proceedings this day.

Ata quarter past 11 o'clock this day, Mr. Lyon observed, that he had received some information since the house last adjourned, which he thought should be communicated to the house in a private manner, he therefore moved that the doors should be closed. The galleries were then cleared, and the doors continued closed until nearly 2 o'clock. [It is said that the injunction of secrecy was taken off before the doors were opened: nothing relating to the subject, however, was nientioned in the house afterwards; but it is said that Mr. Lyon made a motion TO CONFISCATE BRITISH DEBTS, prevent the transfer of Stock, &c. Ac.]

After the doors were opened, the committee. to whom was referred so much of the President's message, as relates to aggressions within our ports and waters, to violations of our jurisdiction, and measures necessary for the protection of our ports and barbors, made a report in part. This report is very long, and states the circumstances attending the attack on the Chesapenke, &c. It was made the order of the day for Monday

mext, and ordered to be printed. Mr. Montgomery, offered the following resolution, which was agreed to ; Resolved, That the committee on Post-offices, and Post-Roads, be instructed to inquire into the expediency of discontinuing the Post-Route, from Annapolis to Rock Hall, in Maryland, and of catablishing a post-route from Balti-

more to Rock-Hall. On motiono! Mr. Newton, the order of the day on the report of the committee of cleetions, on the petition of Joshua Barney, was postpoped until to-morrow.

THURSDAI, NOVEMBER 19, 1897.

The omission of publishing the military notices we have received, for meetings on Monday, is accounted for by a reference to the Brigade orders which appear this day.

The Lingth of the report of the republican committee, with the necessary insertion of other articles, have prevented the appearance of either of the communications we noticed yesterday.

The burning of Bunn and his associate in effigy, appears to have afforded much speculative matter for the federal editors throughout the Union. A peaceable assemblage of citizens, collected to jether to manifest their detestation of the co duct of chargesers who have unmeritedly escaped the rigour of the law; whose views extended beyond "the duli pursuits of civil life;" whose restiess ambition would involve us in all the miseries incident to civil commotions; and wh se ethrentery impeded them to insuit us with their presence; is emphatically stiled "a mob," and their proceding se-"a rio"." In order that the affair in y be seen in its proper light, we have gien in the preceding columns, the report of the committee appointed by the republican citizens assembled at the Pantheon nn Saturday evening last.

A letter from Washington, dated Tuesday last says, the House of Representatives was occupied with closed doors, but the secret soon transpired: Mr Lyon, it seems, had been informed test the British minister had been selling S.
