december 3 College of Medicine.

At a full and respectable meting of the Medical Faculty of this city, at Dr. Davidge's, it

Unanimously resolved, That in consequence of the ate interruption of the lectures on anyomy an 'surgery, and the very generous and hand-Some present of a lot of ground in the precincts, from a gentleman who philanthropy and amiableness are only equalled by his love of science, a number of physicians be appointed to wait on the inhabitan s of the city to procure such a sum of money as may be necessary for the erection of buildings suitable for the accommodation of prof. Fors in the different branches of medicine.

Many circumstances concur to invite to the above measure Baltin re is rising by its commerce to a rank among the first cities of the union; is the only eligible and in every respect a suitable spot south uf Peiladelphia on which am dical c liege can be established; is flour tiing in riches, opening a field to manufactures; and is, we hope, alsuring to itself by its generous and enlightened views the reputation of being a nursery for the arts—the sciences—the libera' professions

At this mem nt a il o organize a medical molege is before the great allemoty of the state, and the oberality of our estizens will not, m our opinion, wait to rece ve a : example, so indicative of a politiced condition of fociety, Bom the flate, in an itablishment from which fuch immediate advantages will result to our municipal community. It would rather sugg it the example.
