

of giving false testimony, will be liable to such punishments as their offences deserve; which there is no doubt will be highly satisfactory, as well as advantageous to the public service.

The Courts of France and Spain have again been tampering with his Sardinian Majesty, in order to draw him off from his old alliance, and have even thrown more advantageous offers in his way, than any hitherto thought of; but we have had such convincing proofs of the unshaken fidelity of that monarch, that it is not doubted but all such attempts will meet with the contempt they deserve. The empress queen's final instructions to Count Camnitz were, not to hearken to any proposals which had the least tendency to the dismembering of the Low Countries; intimating at the same time, that she was ready to settle the affairs of Italy, on the most reasonable footing.

B. O. S. T. O. N, June 16.

We have Advice by an Express from the Westward, that 3 Men were kill'd and 7 taken Captive by the Enemy Indians, on Thursday last, between Hinddell's Fort and Fort Dummer.

By a Letter from Deerfield we are informed, that on the 27th of May past, in the Night, an Indian was discovered by the Centinel upon Duty in the Fort, within a few Yards of the Pickets, making his Observations; but he was soon interrupted by the Centinel, who fired his Gun at him, loaded with a Bullet and Swan Shot, upon which the Fellow groan'd much, and made off. In the Morning a Number of the Garrison went out, and track'd the Indian by his Blood to the Side of the River, where they found the Tracks of 3 or 4 more Indians, and much more Blood. 'Tis believed he died of his Wounds, and was sunk in a very deep Hole near the Side of the River, by the other Indians, and our People intend to search the Hole for him.

N. E. W. Y. O. R. K, June 20.

From Kinderhook we have advice, that on Friday the 10th Instant, an Indian being out a Hunting near Schotack, discovered two Parties of Indians, one of 60 Men, bending their Course towards New-England; the other of 40 Men, coming towards Kinderhook.—The next Day as a Party of 14 of our Men was going from one of the small Ports at Kinderhook, to join a Party at another Fort, they were surprized and fired upon by the Enemy, and five killed on the Spot.—At the same Time a small Party of seven of our Men being near a Mile distant, looking for their Cattle, three of which were Brothers named Huich, and hearing the Guns, prevailed on the other four to run to their Assistance; accordingly they made the best of their Way thither, and coming on the Back of them, saw a Frenchman and Indian binding one of the Englishmen; upon which one of the Huich's levelling his Piece, shot the Frenchman dead on Spot, and the others seconding his Fire, the Enemy immediately fled, leaving two more of their Indians behind them. Our other Party, which had by this Time endeavoured to make off, hearing the Guns of the Huich's Party, immediately returned to the Charge.—The Enemy had scalped all the five killed, and taken two Prisoners; which last they were oblig'd to leave, as also two of the Scalps: Our People likewise took 40 Packs of the Enemy's, and track'd them a good Way by the Blood, by which they apprehend several others have got their Death Wounds: The French Man kill'd, proves to be the Captain, his Commission being found upon him; and our People have brought his and the two Indian Scalps with them, as a Token of their Victory. The Packs prove there must have been at least 40 of the Enemy, when there were not more than 16 of our Men in all alive.
