

NOTICE is hereby given to the Curious,

That at the House where Mr. Walter Dulany lately lived, in Annapolis, is exhibited from Day to Day (the Weather being fair) to continue for a few Days,

A COURSE of Experiments on the newly discovered ELECTRICAL FIRE; containing not only those that have been made and published in Europe; but a Number of new ones lately made in Philadelphia; by which several of the principal Properties of this wonderful Fire are demonstrated; viz.

That it is a real Element, intimately united with all other Matter, from whence it is collected by the Tube, or Sphere, and not created by the Friction.

That 'tis it will fire inflammable Bodies, itself has no sensible Heat.

That it doth not, like common Matter, take up any perceptible Time in passing thro' great Portions of Space.

That Bodies replete with this Fire strongly attract such as have less of it, and repel such as have an equal Quantity.

That it will live in Water, a River not being sufficient to quench the smallest Spark of it.

That contrary to other Matter, it is more strongly attracted by slender sharp Points, than by solid blunt Bodies, &c. &c.

Among other curious Particulars, will be shewn, a Representation of the Sensitive Plant.

A Representation of the seven Planets, shewing a probable Cause of their keeping at a Distance.

An artificial Spider, animated by Electrical Fire, acting like a live one, and endeavouring to catch a Fly.

A Leaf of the most weighty of Metals, suspended in the Air, as is said of Mahomet's Tomb.

A Perpetual Shower of Sand, which rises again as fast as it falls.

Various Representations of LIGHTNING, the Cause and Effects of which will be explained by a more probable Hypothesis than has hitherto appeared; and some useful Instructions given how to avoid the Danger of it.

The Force of the Electrical Spark, making a fair hole thro' a Quire of Paper.

Small Animals killed by it instantaneously.

Spirits kindled by Fire darting from a Lady's Eyes (without a Metaphor).

Spirits of Wine also kindled by a Spark after it has passed thro' ten Foot of Water. Also by Fire issuing out of a cold Egg.

An extinguished Candle lighted again by a Flame issuing out of cold Iron.

An Electrical Mine Sprung.

The amazing Force and Swiftness of the Electrical Fire in passing thro' a Number of Bubbles at the same Instant.

A Piece of Money drawn out of a Persons Mouth in spite of his Teeth, yet without touching it, or offering him the least Violence.

The Salute repul'd by the Ladies Fire.

Eight musical Bells rung by an electrified Phial. Also by an electrified Picture.

A Battery of eleven Guns discharged by Fire issuing out of a Mans Finger.

In order that different Companies may not interfere with, and incommodate each other, Tickets will be given out for each Exhibition, expressing the Time, &c.

The Price of a Ticket, to admit a Gentleman and a Lady, Seven Shillings and six pence; a single Person Five Shillings. Tickets may be had at the Dwelling House of Mr. John Lomas, in Annapolis.

Any Gentlemen proposing a new Experiment may have it try'd at a vacant Time; and the Reasons, as far as hitherto known, of every Operation, will be given at Leisure to curious Enquirers, by
Their Obedient Servant,

THE OPERATOR.

Imported in the ship *Litchfield*, to Patuxent, a Box marked **I I A** with a Cross between the two Letters: The Person at whose House the said Box was left, is desired to give Notice thereof to the Subscriber in Chesler Town in Kent County, or to Dr. Alexander Hamilton at Annapolis.
