Saturday, June 15, 1889. THE PENNSYLVANIA RAILROAD'S FACILITIES TO ATLANTIC CITY.

The Pennsylvania Railroad Company's facilities for reaching Atlantic City were never so complete as they are on the opening of the spring the road-bed of both the West Jersey and Camden and Atlantic has been greatly improved. The West Jersey road has been bettered in various ways and reballasted; the track of the Camden and Atlantic has been renewed on many portions of the line and tracktanks have been added for the use of fast trains. The equipment, both in locomotives and cars, is superior in every respect, and will be ample for the comfortable conveyance of the

largest midsummer crowd. The terminal facilities at both ends of the line possess the advantage of superior location. The Market-Street Station in Philadelphia. from which the fast trains of both the West Jersey and Camden and Atlantic Railroads start, is the central seashore station of the city. accessible from all sections by direct lines of street-cars, and within fifteen minutes of Broad-Street Station by the Market Street cable cars. In addition to the central station on Market Street there is also a ferry from Vine Street and a boat running from Vine and Shackamaxon Streets direct to the Camden side of the

Market Street ferry. At Atlantic City passengers are landed in the heart of the city, at a point from which every part of the city and suburbs are easily reached by the new electric railway. The special excursion travel is delivered at the large and handsome new excursion house. the Sea View Hotel, which is just completed. This is the most commodious and best appointed house of the class on the coast, and offers every facility that the day excursionist could demand.

With all their facilities improved and strengthened, with ample equipment and fast trains, the Pennsylvania Railroad Company's branches to Atlantic City will grow stronger in the favor of the traveling public.

THE 11th CENSUS. Robert B. Porter, Superintendent of the 11th

Oct. 13.—17

Census, asked the publication of the following, directed to the medical profession: The various medical associations and the medical profession will be glad to learn that Dr. John S. Billings, Surgeon U. S. Army, has consented to take charge of the Report on the Mortality and Vital Statistics of the United States as returned by the Eleventh Census. As the United States has no system of registration of vital statistics, such as is relied upon by other civilized nations for the purpose of ascertaining the actual movement of population, our census affords the only opportunity of obtaining near an approximate of the birth and death rates of much the larger part of the country, which is entirely unprovided with any satisfactory system of State and municipal registration. In view of this, the Census Office, during the month of May this year, will issue to the medical profession throughout the country "Physician's Registers" for the purpose of obtaining more accurate returns of deaths than it is possible for the enumerators to make. It is earnestly hoped that physicians in every part of the country will co-operate with the Census Office in this important work. The record should be kept from June 1, 1889, to May 31, 1890. Nearly 26,000 of these registration books were filled up and returned to the office in 1880, and nearly all of them used for statistical purposes. It is hoped that double this number will be obtained for the Eleventh Census. Physicians not receiving Registers can obtain them by sending their names and addresses to the Census Office, and, with the Register, an official envelope which requires no stamp will be provided for their return to Washington. If all medical and surgical practitioners throughout the country will lend their aid, the mortality and vital statistics of the Eleventh Census will be more comprehen-

Every physician should take a personal pride

in having this report as full and accurate as it

is possible to make it. It is hereby promised

A movement is on foot in Baltimore looking to high license as a means to lessen the number of liquor saloons, and thus git rid of the many low groggeries where much wretchedness originates and rascality is concocted and where murders ofter occur. Such citizens as Enoch Pratt, W. W. Spence, Meyer Stein Francis T. King, Henry N. Bankard, George W Corner, Wm. F. Burns, Fraucis A. Crook, Wm. Reed, E. Calvin Williams, C. H Markland, George Whitelock, George W. McCaffrey, Samuel A. Wilson, Thomas W. Hall, Richard Morton, Edward H. Fowler, Alcaus Hooper, John Gilman, Walter B. Brooks, D. L. Bartlett, Hiram Woods, R. Q. Taylor, George H. Sar geant L. N. Hopkins, J. T. M. Barnes, German H. Hunt, Hollins McKim, David M. Newbold and Henry W. Rogers have been in consultation and an effort will be made to see a high license bill cannot be passed by the next Legislature for the city at least. The sentiment was that not more than 1,000 places ought to be licensed, and that each one should pay not less than \$1,000 license. It is believed that nine-tenths of the people of Baltimore are in favor of high license. There are now in Baltimore 4,000 places where liquor is sold.

To KILL GRASSHOPPERS IN THE EGG.—The farmers of Minnesota are threatened with another grasshopper pestilence. The scourge has appeared in Otter county, and the State authorities have set about wiping it out, as was done last year. The first thing done will be to nlow the land wherever the eggs are found. is estimated that there are about 5,000 acres on the Perham prairies which will require this treatment. The eggs are found only in pasture lands and timothy fields, and it is hoped that by plowing they can be killed off. Last year nothing was done until the insects were hatched, when a reward of \$1 a bushel was paid for catching them and in this way over 17,000 bushels were caught. The Cletherall Prairie, which is about thirty miles from Perham, and was afflicted last year, will also be plowed and treated the same way as the fields
