It is stated by old Weish miners to be the finest slate in the world. The supply is believed to be inexhaustible. The deeper they go down the better is the slate.

Mount Winans Items.-We had one of the lost sorrowful and painful accidents here on Tuesday that this village has seen for years, and perhaps never. On the above named day two right little boys, Nelson Gardner and Warren Hathway Rogers, (two brothers,) left their home in Mt. Winans for an afternoon frolic. They were both taken home dead a half hour afterwards. Nelson was nearly 10 years old and Warren 8 years.-About 3 o'clock they asked their grandmother (the parents being absent in Baltimore) if they might go out and have a little frolic. She gave her consent, and in a moment they were off down the road to Waxter's ice pond. They walked about the phore and Nelson was seen to wade out into the shore and Nelson was seen to wade out into the water, and while doing this his hat blew off into deep water and he tried to recover it. When he got water far above his head. Warren seeing his brother in peril waded out and tried to save him but both soon got beyond their depth. Joshua Wilson and Wm. Seigel saw them floundering in the water, but thought they were only at play, as they were seen many times before. Herman Wildenforst and several other boys heard their cries from the hole at the outlet of the pond where they were in bathing. Young Wildenforst ran up the bank to see what the trouble was, and jumped in to the rescue. Nelson had already sank out of sight and Herman did not see him. The young rescuer caught hold of Warren's legs and tried to drag him in towards the shore, but the drowning bo was so heavy that Herman had to let go his hold i order to save himself. The news of the double drowning reached the centre of the village and a crowd of men and boys hurried to the scene. Sev eral persons dived after the bodies. Warren, the youngest, was the first one recovered. He was found by James Hayes. A moment later Charles Michaels found Nelson about four feet from where his brother had been lying. The bodies were re-moved to their late home. Word was sent to the children's parents. The boys were the sons of Mrs. Rogers, a widow, who afterwards married George F. Yeager, a compositor on one of the Baltimore dailies. The mother is almost frantic with grief, and fears are entertained that she will lose mind, as she is constantly going out on the road and calling to her boys and asking people to hunt them. The funeral took place on Thursday after-

The Peachbottom State.—Thousands of tons of

GARDENVILLE, June 7th. 1890. It has been the general remark among the oldest inhabitants of this community that it has been a long time since the 4th of July was so universally celebrated among our people as the one just pass. Occurring at our very busiest season of the year, with the first fruits of the market gardener about blooming into profitable maturity, and with the remnant of harvest still hanging upon us, it requires some unusual reviving of our patriotism to induce us to lay aside, even for a few hours, the pressing necessities of push, drive and gather, which is required of us. By the policy of a government which fills the lap of the rich by special privileges, while the masses are overburned with poverty or overworked to keep poverty from our doors; when our long-established rights and privi-leges are threatened by federal election laws; when the gavel in the hands of a tyrant can enact laws

for our government, our people arouse themselves to the fact of something wrong in the body politic and leave their harvest fields and their fruits ungathered to worship at the shrine of liberty and celebrate our independence. The mystic hand as dis-played in our fireworks was interpreted as "Hands off! despoil not our liberties, or a vengeance first of ballots will befall you, which will even astonish renowned Democratic Gardenville." Pardon the seeming digression, Mr. Editor, I started to give you an account of our celebration, and preface t with what caused the multitudes to come. The Gardenville Cornet Band at a recent business meeting at the suggestion of our astute leader proposed to give a 4th of July concert and aureola display free for all and no entrance fee, at 8.30 o'clock P. M. Fully 300 people were estimated to be on the M. Fully 300 people were estimated to be on the ground, generously offered by 'Squire Carter for the display. The ground is situated in front of the beautiful grove occupied by the handsome residences of Mr. John F. Gontrum, the parsonage of the M. K. Church South, Prof. J. A. Neumayer and Mr. H. C. Carter. The Band began playing national airs about 8 o'clock, and from that time until 11 o'clock the air was filled with music and fiying products and many other beautiful freworks. rockets and many other beautiful fireworks. It was said to be something like Barnum's Circus—impossible for one pair of eyes or ears to take it all in. Every one seemed to appreciate the efforts of the Band. Of the many pieces played, the one most applauded was a "Q. S.," entirely composed by Prof. Neumayer and dedicated to John F. Gontrum, and called "My Learned Brother Quickstep." Its performance was highly creditable to the composer as well as to the Band. Recently one of your correspondents from here commenting on the musical talent of this community highly complimented the "Sweet Singers of

Andrew Chapel." Yesterday being Children's Day, I had the opportunity to verify his statement and found it put very mildly. The choir, under the direction of Prof. Charles Markland, with Miss Minnie Miller as organist and Prof. Neumayer as cornetist, are really worth a ride from Towson to listen to. The church was crowded with attentive and interested listeners. The program consisted o singing and declamation, and was highly credit-able, reflecting great credit upon the Sunday school and its management. The church was beautifully trimmed with evergreens and flowers, and cages of singing birds, viewing with the choir in the production of melody. The season is unusually early with us. Ripe tomatoes and corn were in abundance by the 4th. saw a very handsome half-peck tomatoes raised by a neighbor on the 30th of June, and we were eating green corn on the 28th. Where is your Brother Our wheat crop has been harvested and housed, and Mr. John Walbrenner with his steam thresher

has already knocked out several jobs. The yield has been good. Mr. II. Seymour's crop yielded something over 35 bushels to the acre. The grass crop is unusually heavy. Vegetation generally has old fair for large vields, but the recent continued dry weather begins to show its blighting effects, and unless we have rain soon garden crops wil generally be short. Early planted potatoes are generally too far gone for recovery, but our gardeners have long since learned not to depend entirely upon any one crop, but have a variety o others to fall back on. Local politics is in a sort of embryo-state. Indications seem to point to a united party putting forth some of our best material and courteously demanding that the claims of this Democratic stronghold be recognized, and not a this man-or-that-or nothing policy, but an earnest effort be made for the sake of our party's interest in this District to nave our availables placed on the ticket in more places than one, if possible. With this recognition of fairness the feeling of danger existing which hreatened our time-honored institution by Repub

ican usurpation, we may expect to see an old-

time Democratic majority when the time comes.

BENTON. The Summer Days at Lutherville.-Luther ville has never had a more jolly and happy set of summer boarders within her limits than those at present congregated at the Landon House, under ne management of Mr. John S.
