THE COUNTY STATEMENT.

In the columns of the JOURNAL to-day will be found the financial statement of the County Commissioners, from May 1st 1889 to May 1st 1890, the amount of money received by them from all sources, the amount disbursed, for what and to whom. Every tax-payer should carefully scan this statement. It is complete and minute in detail as required by law.

GERMAN DAY. Our German fellow citizens of Baltimore celebrated "German Day" Monday, 6th inst.

The day was most unpropitious, but it did not dampen their ardor, though the rain descended pretty much all day. Through the day the exercises took place indoors, where unbounded German sentiment pervaded and all was happiness, as only Germans know how to produce it. Towards night the rain let up, though it looked threatening. Preparations for the great torchlight parade went on, however. The head of the line left Broadway about 8 o'clock, and it is estimated that fully 10,000 persons participated in it. In the line was represented every branch of business in which Germans engage. The streets were in a most horrible condition. which greatly interfered with a proper celebration. Notwithstanding there was the most unbounded enthusiasm, and with the many bands of music in the line and the general reviewed the parade from the City Hall, and he was honored by the whole line as it marched by. Had the weather been better and the streets drier, it would have been a demonstration rarely exceeded. As it was all the streets were greatly crowded and locomotion was dif-

DUPONT POWDER MILLS EXPLODE. The Dupont Powder Mills, on the Brandy wine River, about 4 miles from Wilmington, Delaware, exploded with terrific force on Tuesday, 7th inst., killing 12 men and wounding about thirty. The bodies of several of the men employed in the works were blown to atoms, so that but small portions of the re mains were found. Others were horribly mutilated. Six different mills were destroyed. They were situated from 4 to 7 miles from Wilmington along the Brandywine. The accident sealing a can of powder with a soldering iron that was too hot. One mill after another exploded until six mills were in ruins. The shock was distinctly felt in Wilmington, where windows were broken. The houses of many employees near the mills were utterly destroy ed and many of the inmates injured by falling timbers and walls. It is stated that the force | Belt people will be petitioning the Legislature of the explosion was also felt in certain parts of Philadelphia and the surrounding country for many miles. The Grand Masonic Fair, for which prepara tions have been going on among the ladies and Masons of Baltimore for the past year or more, was formally opened at the Fifth Regiment Armory on Tuesday night, 7th inst. Maryland Commandery, Knights Templar, escorted Grand Master Shryock, his officers, the Grand Commandery, the Grand High Priest, and a large number of high dignitaries of the fraternity, from the Masonic Temple to the Fair, where Mr. John M. Carter, Chairman of the Executive Committee, in a neat address introduced the Grand Master, who formally opened the Fair by the delivery of a short address. The Armory is a perfect bower of beauty, far surpassing anything of the kind ever seen in Baltimore; it must be seen to be appreciated, and is well worth a visit even if one does not wish to purchase anything. We trust all our citizens who can will pay the Fair a visit. They are sure to pass a pleasant hour or two. There | bills or write B. & O. Agents. are concerts every night.

They are also to make a cash deposit in Court of \$10,000 to pay for legal expenses up to present date, and also a bond for \$600,000 that the Canal will be repaired and ready for business by the 1st of May, 1891. The Court adheres to its former decree appointing Jos. D. Baker, Robert Bridges and Richard D. Johnson to sell the Canal, which is to be operative only after it has been demonstrated that the Canal cannot be operated as a paying investment. Mr. H. H. Keedy, of Hagerstown, believes the bondholders of 1844 will put up the necessary funds and repair the Canal, and pay the bondholders of 1878, the amount of which (\$200,000) has now accumulated to \$600,000. FIFTH DISTRICT CANVAS.

The Democrats of Anne Arundel county opened the canvas in the Fifth Congressional District on Tuesday night, 7th inst., in Annapolis, by holding a rousing meeting in the Opera House, it being too inclement to hold the meeting on the outside where it was at first intended to hold it. The meeting was addressed by ex-Governor Robert M. McLean, Congressman Hooker and Mr. Compton, The Democracy of Anne Arundel is a unit, and will give a more than usual majority on the day of election.

AR! HA! WATER WANTED!

Some of the beauties of annexation of Balti more county's "Belt" are constantly cropping out. The public recollects well the glowing colors with which our esteemed neighbor the Sun painted that magnificent water which was immediately to be scattered all over the Belt How fires were to be extinguished with it, etc. etc. But about all the water the citizens of nearly all the Belt receives now is that which | tory. falls from the clouds, and that is left to lie in puddles in the public roads and never taken off until it percolates through the earth or is evaporated by the sun when it happens to shine.— The citizens of Waverly this week sent a committee which called upon Mayor Davidson to see if water could not be gotten for that rapidly growing section. The Mayor was courteous and pleasant to them as he is to everybody, but he could afford them no relief. So he advised them to go to the Water Board, and, singly, make application for water privileges. Then the Water Board directs their astute Chief Enon or address Agents B. & O. R. R. gineer, Robert K. Martin, to look into the matter. He soon informs these suffering citizens that if a certain number of persons want water and the profits which the Water Department receives for the water service will pay not less than 2 per cent. upon the cost of laying pipes,

&c., he will then recommend to the Water Board that the pipes be laid. If there are not the requisite number of water consumers to pay such costs, Col. Martin with his blandest of amiles will inform them that the Water Board would gladly make the improvement but it will not pay. This pay matter was not represented to the people of the Belt when they were cajoled to vote themselves in the city and participate in all the then promised splendid advantages. It was outrageous, shameful, jugglery, and the city orators knew it. They thus pulled the wool over the eyes of the confiding Beltites, and now they suffer in consequence. There is no doubt the people of Waverly ought to have water, whother it pays or not. To drink water from the springs and wells that they now have there, is drinking into the system typhoid and other fevers and diseases, and this can scarcely be avoided, as the filth and

offal of so large a population is sure to percolate into their springs and wells. To be sure the Belt has the gaily caparisoned "horse marines," and whilst no person desires to question their prowess, they receive the lion's share of the money which comes from the Belt taxes. Marshal Frey has a provokingly pleasant way of getting his share. The law allows him to say how much he wants to conduct his department, and all he has to do is to so inform the Ways and Means Committee of the City Council, and the money is forthcoming of indebtedness! After annexation about thirty additional policemen were scattered over the Bell, (about as large as the old city boundaries Frey gets his \$30,000 sure. So the Mayor and | CORN-Southern White...... City Council in order not to take this \$30,000 direct from the city treasury as coming from OATS-Southern..... the old city boundary's taxes, coolly takes it out of the money which comes from the Belt MILL FEED-Per Ton. taxes at 60 cents per \$100. This is robbing poor Peter to pay Paul, and as a consequence other departments of the Belt suffer one way BUTTER..... and another, streets, public schools, &c. The dition was bettered somewhat. But there is still a sad lack of comfort as to the horrible condition of the streets, lamps, garbage, &c .--And these will get but little better until the Belt people allow an increased rate of taxation to answer to the large amount of benefits which they expect to receive from having voted to attach themselves to the city. For the Belt is said to have been caused by a workman | people can rely upon it that the city will spend but little more in the Belt than the 60-cent rate will furnish. As the Belt people went into the city to secure one dollar of expense out of a 60-cent rate, they will find in the end that they will be doomed to disappointment. They will receive a 60-cent rate of expense and that will be all. We shall not be surprised to hear that the

John W. Simpson, a young member of the Baltimore bar, is in trouble as to his trust account, having received from Mrs. Rachel Goodman monies which he failed to account for. Last April the Sapreme Bench ordered him to show cause why his name should not be stricken from the roll of Attorneys. Mr. Simpson left the city, and has not since returned. The Suprene Bench will now publish a notice and then order his name stricken from
