On motion by Mr. M. Mahon, the following resolution was read:

Whereas, from the reports of the committee of grievances, made at the last and present session of assembly it appears to this house, that through the official negligence or misconduct of past registers in chancery, continued, and in a great degree unnoticed for upwards of thirty years, so many papers connected with and filed in causes pending in the court of chancery, which ought to have been recorded, and for the recording of which such registers have long since charged, and in most instances received their fees, have yet remained unrecorded up to this moment, that their condition constitutes a source of alarm to every citizen of the state, which is the more formidable, inasmuch as its extent cannot well be ascertained; And whereas, all efforts heretofore made to stimulate these defaulting officers to atonement for their official negligence by making up their records, efforts frequently renewed from the year 1817, down to the present time have proved ineffectual, and the state deeming all further attempts to persuade into a performance of duty unnecessary, because useless, has been driven to the necessity of directing suits to be instituted against them; And whereas, every moment of delay in recording these papers, which in many instances constitute the muniments and the sole muniments of title to property within this state, and which are now in a state of indescribable confusion, does but swell the grievance, and it therefore seems proper that this state should, from a regard to the security of the property of her citizens, adopt some speedy measures to repair past losses, and to guard against the existence of future; therefore, Resolved, That the governor and council be and they are hereby authorised and requested, to contract, on the best possible terms, with some proper and competent person, for the recording of all such papers attached to or filed in causes pending in the chancery court, as remain unrecorded, and which are required to be recorded by the fifth section of the act of 1817, chap. 119, and that they be empowered to draw upon the treasurer of the western shore for all such sums of money as may be necessary to carry into effect any contract which they may make under this resolution.
