Some hopeful Republican has evolved a theory that his ticket will be elected this year because "the year with three eights in it is lucky to the Republicans." In view of the failure of political records to show a Republican victory in A. D. 888, or 888, 1888 or 2888 B. C., this view is evidently founded on the conviction that the year with three eights in it must be luckier than the year with three R's

Congressman Reed of Maine, in an effort to give the North American Review "an idea of Alaska," starts out with the assertion that "the Territory or style or their firm or copartnership, el comprises more then 550,000,000 ther by a reduction of the number constituaquere miles." As the entire land area of the globe is only 52,000,000 square law requires such transfer or notice to be miles, Mr. Reed's "idea" would seem made on the license record or this office, to be slightly erroneous.

Mr. Lamar has been confirmed by the Senate, and is now Associate Justice of the Supreme Court; this, too, after the most persistent demand of almost the entire Republican press of

Our Washington Letter.

From our regular correspondent Washington, Jan. 14, 1888

This has been a very busy week with the House Committees. At last they have begun the work of preparing subject for legislation. The House proper, however, has not been so profitably engaged. Mr. Lamar's retirement from the Interior Department is commented BALTIMORE, MD. upon as one of the most timely and 9,17m3 consequents acts of his distinguished and honorable public career.
