In Baltimore one of the most rapidly growing enterprises of the last few years, and one of the most appreciated as well has been the Instalment Business. Its great advantage and benefits csp cially to the medium and poore classes, cannot be overestimated. Formarly people in ordinary circmstances were compelled to do without a great many necessary comforts of life; that is, their houses were scantily furnished, and only because they could not at anytime raise sufficient cash money to properly rurnish them. What little furniture they had, was of the poorest and cheapest class and never made a respectable ap learance, or gave any satisfaction. Now on the Installment Plan any honest per son, no matter what his or her honest per son, no natter what his or her circumstances are, no natter how poor or how rich, can get anything in the way of Furnitare, Carpets, Stoves, Crockery, Re-frigerators, Beby Carriages, Parlot Organs, frigerators, Beby Carriages, Parlot Organs, etc., in fact any or everything necessary to furnish the Home complete from cellar to attic,—they can get all these by sinaple paying a small amount cash down and the balance on small monthly payments, which are made to suit their circumstances and are always made so low that the money will hardly be missed. This plan has become so popular in all the larger cities. boads in the name of the Commissioners of Centreville, in sums not less than one hundred dollars nor more than one thousand dollars, to be signed by the Commissioners of Centreville, not exceeding in the some advice to our people, that would be well for thom to put in practice, in speaking of a case before the court on contract, he said: "When dealing with an agent for the sale or purture."
