Gazette: "I paid a visit to Niagara Falls not long ago and heard a curious fact which may not be generally known. It is that Mr. G'adstone, the ex-Premier, owns a patch of land on the Canadian side commanding a splendid view of the Falls. He was asked to sell when the Prospect Park improvements were being planned, but declined with thanks."

"The last Michigan Legislature," says the Detroit Tribure, "enacted a law authorizing the payment of a bounty of one cent per head for slaughtered sparrows. The law, as far as Wayne County—and nearly every county in the State, for plat matter—was concerned, has been inoperative. In the first place, when the law went into effect, it found the counties without any specific appropriations." The says he was not Herry, but stoped and sept all night at the foot of a tree.

Woods. He saw his little basket near him, noted his c'othea were burnel and dusty. He listened and the ripple of a brook came near to him. He wait to it and bathed his head and the wound in the set gy shore, the soft turf of her on the set gy shore, the soft turf matter—was energined in the first place, when the law went into effect, it found the counted without any specific appropriations which could be drawn from in payment of bounties, and in the second place, as regards the city of Detroit, there was a conflict of opinion as to whether the bounties should be pallouit of county of ity funds, and whether the County of the estimates by the council the matter has been brought to the attention of a number of the Alderanen, and it's proposed to offer a resolution in the council for the insertion of an item of \$2.01 in the board of estimates, transmitting the same to the board of estimates, with the recommendation that it be favorably counted and the county of the board of estimates, with the recommendation that it be favorably counted and the county of the centiles and the county of the centiles and the county of the estimates, with the recommendation that it be favorably counted and the county of the estimates, with the recommendation that it be favorably counted and the county of the centiles and the county of the centiles and the county of the estimates, with the recommendation that it be favorably counted and the county of the centiles and the county of the centiles and the county of the county of the county of the centiles and the county of the county o

And to think I use to scold him fer bis ever

Since httle Wesley went, the place seems all so strange and still—
W'y Imis his yell o' "Gran'pap!" as I'd miss the whipperwill!
And to think I use to wold him fer his every be seen to see the seem of the air," the little EAKERY IN CHICAGO.

In the afternoon his basket was empty.

but he gathered the dead riperaspherries and the shining blackberries under their lastin' noise,

When I on'y rickollect him as the best o' little boys!

I wisht a hunderd times a day 'at he 'd come trompin' in,

And all the noise he ever made was twic't as loui ag'in!—

It 'u'd seem like some soft music played on some fine Instrument,

'Longside o' this loud lonesomeness, sence little Wesley went!

Of course the clock don't tick no louder than it use to do—

Yit now they 'atlines it 'pears like it 'a'd bu'st litelf in two!

but he gathered the dear the presented and the shining black berries under their sheltering vines. They passed some cows that day, mild, solemn creature, who looked at them curiously but did not stir, though one little calf ran in terror, making the baby laugh merrily. They came to a deserted log hut that night where the men in a deserted sugar camp bad lived, and here he made the child a bed of fir boughs. They were hungry and thirsty. The brooks were dry in the depths of the forest, the only water the spring away back by the ferns. The grass was dead and sere, the flowers wilted and withespil. The air was close and hot They came to a descried log hit that the case is a second of mixing the baby lung means and like some soft make parallel where the main is a descried sole when the main is a descried sole where the main is a description of the every intensity that the case of the sole where the main is a description of the extensive the description of the terms of the sole where the main is a description of the extensive the description to grave and the part of the sole where the main and the part of the sole where the

Bread and Fancy Cakes.

"Ch'eago gobbles up daily some 400,00 loaves of tread, using in the making about 2000 barrels of flour," said the manager of one of the biggest bakeries in town. That is a big figure, yet it a lows but half a loaf to every inhabitant. Of these 403,000 loaves, some 100,000 are made by professional bakers, and of this number about 27,000, that is, about one-fourth the total supply fur.

NO. 23.

'Twas but a workman on his way

From tiresome toil to tea, Yet in a cheery tone he sang: "Nothing goes hard with me." I noted well the rough-hewn look,

The awkward, untaught air; The spade and shovel on his back, The tangled, unshorn bair.

And these the thoughts that came uncalled,

Unto my musing mind:— Where, in the higher walks of life, ent find!-Content in such a great degree,

As this poor workman proves.

Dwells constantly within the walks Wherein he daily moves! How many of the toilsome task, That each new day must bring,

Could learn from that poor laborer To be content and sing! And find how light the work would fall-No batter what it be-While cherishing the workman's words-

"There's naught goes wrong with me."

-Okolona Lancet.
