The Republican convention has been in session all this week and to the hour of our going to press they have made no nomination for President that we have any information of.

Then there has arisen a renewed strife between the two elements of discord in the Navy, the line and staff, and each side has petitioned the Secretary until he has allowed e situation at this distance looks as himself to express openly, at times sentiments which showed an ill-con-

Every body in Washington is talking politics. The placing of the Democratic ticket and platform, and the impending Republican Convention with its uncertainty and doubt, have invested the situation with hot interest. A flour "trust" means mischief to the bakers, and, of course, the consumers. The National Millers' Assob propose to scoop in the entire

sumers. The National Millers' Asso- UNDERTAKING ciation has appointed a committee to take the preliminary steps toward forming a "trust," and a howl will soon go ur against the mill men. It is only natural for the millers to follow prevailing fashions. But when monopoly commences to monkey with a prime necessity of life the people are liable to rise in wrath.
