...it Always Hafas...
...arkman tells of a curious place...
...in Chatahochee County, Ga...
...rain falls perpetually. The...
...a little knoll in a thin...
...place.

...Every piece of railroad," he said...
...divided into sections of from five to seven...
...miles, if it is single track, and from three...
...to four miles, if double. A foreman...
...with a gang of five or six men keeps...
...each section in order. All but one are...
...trackmen, who are kept busy making...
...repairs. That one is the track walker...
...who patrols the track all day long with...
...an eye out for weak points and obstructions...
...that might cause accidents. Of course...
...there is a second walker at night who...
...does the same work.

...The track walker's outfit includes a...
...hemmer, wrench, lantern, red flag, a few...
...torpedoes, bolts and spikes. No, he...
...doesn't walk at pedestrian speed. His...
...gait should be more than 120, or three...
...miles an hour. A man might hurry over...
...the entire ground inside of an hour, but...
...he couldn't look at every bolt and rail...
...connection, as his main requirement is...
...to find a loose rail or a broken track...
...facing the direction from which the...
...train is coming and examine only one...
...track at a time. He takes the track...
...walk on the way back. A track walker...
...gets over the ground, as far as he is able...
...just before the trains pass over his...
...section. But he keeps at work all day long...
...and if he has a double track divided into
