Our imports of tin and terne plate for the month of September amounted to 42,876,726 pounds, and for the nine months ending with September to 476,527,216 pounds. The duty on this tin plate, at 2.2 cents per pound, amounted to \$10,483,598.76. This is the price the people are paying under the McKinley act to "encourage" the production of about one million pounds of alleged American tinmade mostly of imported sheets dipped by imported workmen-per month; equivalent to a little over one dollar a pound in duties for every pound of home production! And, yet, there are some Republican papers advising the Senate not to repeal this swindle at the approaching winter session !- Delaware State Journal.

### NO HURRY TO PAY DAVENPORT.

The following letter shows one of the many ways in which the republicans while in power have spent the money-wrung from the people in unjust and unnecessary taxation for campaign purposes. It will be noticed that Davenport did not present any bill Juring Mr. Cleveland's first administration; that he waited until the republicans again came into power before presenting his bill for four years service.

It will also be noticed that he has already presented his last election bill for payment amounting to \$60,000, and Congressman Fitch says the money was spent for election purposes and that Davenport did to work for the amount of his biil.

This items of expense should be carefully watched by our Congressmen and their votes should go on record against robbing the people in any such manner, by refusing to appropriate this money and wiping out this

# Down Goes the Prices.

Stock-taking is again at hand. There is no time in the year when enterprising and careful merchants are more anxious to turn their merchandise into money than at stock-taking time. The idea at this period is to have the stock at low-ebb, and the bank account at high tide.
