Our imports of tin and terne plate for the month of September amounted to 42,876,726 pounds, and for the nine months ending with September to 476,527,216 pounds. The duty on this tin plate, at 2.2 cents per pound, amounted to \$10,483,598.76. This is the price the people are paying under the McKinley act to "encourage" the production of about one million pounds of alleged American tinmade mostly of imported sheets dipped by imported workmin-per month; equivalent to a little over one dollar a pound in duties for every pound of home production! And, yet, there are some Republican papers advising the Senate not to repeal this swindle at the approaching winter session !- Delaware State Journal.

NO HURRY TO PAY DAVENPORT.

The following letter shows one of the many ways in which the republicans while in power have spent the money-wrung from the people in unjust and unnecessary taxation for campaign purposes. It will be noticed that Davemport did not present any bill during Mr. Cleveland's first administration; that he waited until the republicans again came into power before presenting his bill for four years service.

It will also be noticed that he l already presented his last election bill for payment amounting to \$60,000, and Congressman Fitch says the money was spent for election purposes and that Davenport did to work for the amount of his biil.

This items of expense should be carefully watched by our Congressmen and their votes should go on record against robbing the people in any such manner, by refusing to appropriate this money and wiping out this federal force bill.

Hon. Charles Foster, Secretary of the Treasury.

SIR: I have received to day the letter of the Hon. Oliver L. Spaulding, Acting Secretary of the Treasury, in reply to a written inquiry of mine, forming me that a special advance 3 \$40,000 was made by warrant, dated Nov. 4 1892, to Mr. John W. Jacobus, The United State Marshal for the Mithern District of New York, for ees and expenses of marshals," and

orplaining that, in view of the Treas my Department, the fact that the advance exceeds in amount the bond of the discursing officer is not important, and that "such advances are made by order of the President."

I am now further informed that Mr. John I. Davenport, the Chief

collected these sums of money are gravely questioned, and a committee of the House is about to make a report upon his manuer of proceeding and the validity of his claims against the

Jovernment. While I may assume, perhaps, that you do not share the belief above mentioned in regard to Mr. Daven: port and his accounts, I respectfully submit that the fact that such a belief is held by a great majority of the people of every class in the city where Mr. Davenport lives and where his work is known should be sufficient to prevent any hasty payment of Mr. Davenport's accounts by you, and that when the same are presented those of us who claim that Mr. Davenport is attempting to collect a political debt at the expense of the taxpayers of the United States ought, in common fairness, to be given an opportunity to examine these accounts before he re-
