The Topics of the National Capital by

Our Regular Correspondent. WASHINGTON, Jan., 25, 1897 .-Senator Allen thinks there is more in the bid which has been made to the government for the Union Pacific Railroads than appears in the o'clock, p. m. official statement of Attorney General Harmon concerning the foreclosure proceeding against that road. That is why he offered the resolution, which was adopted by the Senate, directing the Attorney General to inform the Senate whether he had made any deal with what is commonly known as the re-organization Com mittee of the Union Pacific Railroad, respecting the foreclosure of the govrument lein thereof, together with the amount that the said committee is to bid in the event of the foreclosure. He is further directed to furnish the Senate the full text of the agreement, together with the names of the members of the Committee and his authority for entering on the foreclosure proceedings and for making such an agreement. There is a suspicion that the bid made to the government represents the present Union Pacific management. No pro-

fight between two Washington elec- these cold wintry nights. tric light companies, and the proceedings during the "morning hour" day at 2 and 7 o'clock, p. m.
