The Most Valuable Spots on Larth. Probably the most valuable spots on the face of the earth (as the burial-sites Westminster Abbey bought with gold) are the four corners the two where it meets Broadway. I cannot guess how large a price any one of these might bring in the market now; but a million dollars and half a million more were recently paid for five lots on Broadway opposite Bowling Green. This was the value of the land alone, as the old buildings it bore were at once to be torn down; vet, says Philip Hone, a lot in just this place sold in 1829 for only \$19,500. As late as 1840 lots on Cortlandt street could be had for \$1,000, or even for \$700. But a year or two ago the corner of Liberty street and Nassau, measuring seventy-nine feet along the one, 112 along the other, and about 100 feet in depth.

Woman's Nerves. Mrs. Platt Talks About Hysteria When a nerve or a set of nerves supplying cay. What is to be done? The answer is, do not allow the weakness to progress; stop the deteriorating process at once!

Do you experience fits of depression, alternating with restlessness? Are your spirits easily affected, so that one moment you laugh and the next fall into convulsive weeping?
Again, do you feel something like a ball rising in your throat and threatening to choke you, all the senses perverted, morbidly sensitive to

light and sound, pain in ovary, and pain especially between the shoulders, sometimes loss of voice and nervous dyspensia? It so, you are hysterical, your uterine nerves are at fault. You must do something to restore their tone.

Nothing is better for the purpose than Lydia E. Pinkham's Vegetable Com-

pound; it will work a cure. If you do not understand your symptoms, write to Mrs. Pinkham, Lynn, Mass., and she will give you honest, expert advice, free of charge.

Mus. Lavi F. Platt, Womleysburg, Pa., had terrible experience with the illness we have just described. Here is her own description of

"I thought I could not be so benefited by any-"I thought I could not be so beneauted by anything and licep it to myself. I had hysteria (caused by womb trouble) in its worst form. I was awfully nervous, low-spirited and melancholy, and everything imaginable.

"The moment I was alone I would cry from hour to hour; I did not care whether I lived or died. I told my husband I believed Lydia E. Pinkhum's Vegetable Compound would do me good. I took it and am now well and

strong, and getting stouter. I have more had for a year and a half. Please accept my thanks. I hope all who read this and who suffer from nervousness of this

PHOSPHATE AND SUPERPHOSPHATE OF LIME. The true phosphate of lime as found on remainder of hoops and tightened in bones is mixed, while the bones are fresh, with some animal matter whose doors for getting the ensilage out. I decomposition makes the phosphate sawed out holes about eighteen inches more soluble than it would otherwise square, sawing them on a slant so that it could use the same pieces for doors; and by the heat from cooking recut three doors, one directly above moves the gelatine and leaves the another, at intervale of about four feet. phosphate only very slightly soluble. Yet wherever the hone is in contact with decomposing vegetable matter. the carbonic acid gas thus furnished.

makes a little of the bone soluble, so that plant roots can take something it. Most of the bone used for making fertilizer has been before used for other purposes, and is dried or Butter making has an advantage of possibly burned. This charred bone milk selling in that the skim milk is is ground very fine, and is largely used in sugar refineries to remove imparities. But the burning puts the Lone into still more insoluble condition. Therefore, it is treated with sulphuric acid, which unites with most

free for the use of pants. There is no reason, as you will see, for the common practice of farmers to make hosphate go arther by mixing it with land plaster. The large bulk of superpho phate is that, and adding more only makes the fertilizer revert nore quickly to insoluble conditions. There is always this liability to loss in using superphosphate, especially if used in dry seasons and on land that contains little vegetable matter. On mucky soils the generation of carbonic acid gas keeps the superphosphate in condition to be used as plant food.

CLEANLINESS IN DAILY WORK. ttle things, and it can be said that dairying is made up the same way-in fact, any business is made up of little properly attended to, failure results.

—Cart Challis, in Good Housekeeping.

BETTER FOR HOUSE PLANTS. It is better for house plants if the toil be loosened about the roots once a week. This allows the air to reach the roots, and assists the evaporation of the excessive moisture when they have had too much wetting. Alway have the water at least as warm as the temperature of the room when using it upon plants. - New York Sun.

Often the window glass requires is be cleaned, but it is so cold and the air so full of frost that it doce not seem advisable to wash the glass vith water. Try a flannel cloth; noisten it with parallin oil and rub the glass with it. Have at hand a fresh flannel cloth and rub over the glass with it. This method will give better results and water. - Pittsburg Chronicle Telegraph.

SULT FOR COOKING PURPOSES. To render suct, take firm, vellow kidney variety, cut it fine and put it in a kettle with one teacupful of water; it should then be cooked slow ly, being careful that it does not get too hot, as that makes it strong and hard. Strain it just before all the water is cooked out, then mix it with one-third lard to present its getting too hard. For biscuit, pie crust, cookies and the like, this is preferred to pure butter, and it is superior to have any objectionable "tallow taste" unless it is allowed to get too bot while

THE BEST USES OF OATHEAL. Oats vield most of their nutrient oatmeal gruel and oatmeal water ren resent a fair proportion of their nour-ishing strength. Oatmeal gruel, especially excellent for invalide, is pre pared by adding an ounce of washed oatmeal and a pinch of sait to three pints of water, then boiling down to two pints, straining, allowing it to cool and pouring off the clea A few raisins added toward the close of the boiling impart an improved fla vor. Sagar, lemon juice, nutmeg and spice are sometimes added to improve the flavor. With beef tea oatment the flavor. genel is of value in the sick room, and he two are combined in this manner: Mix two tablespoonfuls of oatmea with two of cold water, add to a pint of strong beef ten, boiling; boil six micutes, stirring all the time, then strain through a fine sieve and serve

Oatmeal water is prepared by boil ing oatmeal in considerable water and straining it. Added to the milk given bottle-fed babies, it prevents coagula tion of the caseine of the milk in large firm cards, and is also mildly laxative. A little salt should be ad ded to the water while boiling .- De-

BECIPES. Cranberry Pio-Three tablespoon

fuls of flour, three tablespoonfuls of lard and a little salt make crust for one pie. For filling: Three cups cranberries stewed with one and onehalf cups of sugar; bake in a quick oven. Cream Pudding-One large cup of sugar, one of flour, six eggs and a pint of cream. Beat together the yolks

and sugar; whip the cream and put into a sieve; stir in the flour and cream alternately; stir in the whites of the eggs, lightly, the last thing. Season with powdered orange peel and bake as sponge cake. Serve with and bake as sponge cake. Serve with Formy Sauce-Cream half a cup o butter; add one cup of powdered sugar, one teaspoonful of vanilla, and two tablespoonfuls of any kind of fruit syrup. Just before serving stir in one-quarter of a cup of boiling water ; stir well, then heat in the white of one egg previously besten to a froth, and continue the beating till the sauce is feamy.

Savory Mince of Beef-Cut one pound of cold roast beef into thin slices, and fry with two tablespoonfuls of butter and a small minced onion until brown; stir in two tablespoon-fuls of flour and add a pint of white broth or water, half a cup of the thickest part from a can of tomatoes, half a dozen mushrooms, one tea-spoonful of salt, one-fourth of a tea-

spoonful of pepper. Heat all thoroughly and serve. Baked Onions-Use the large Span ish onions. Wash them clean, but do not peel, and put into a saucepar, with slightly salted water; boil an hour, replacing the water with more. boiling hot, as it evaporates. Turn off the water and lay the onions in a cloth to dry them well; roll each one in a piece of buttered tissue paper, twisting it at the top to keep it ou, and bake in a slow oven about an hour; peel them and place in a deep dish and brown slightly, basting well with butter; season with a half teaspoonful of salt and a half saltspoon of

First English Book.

nepper.

The first book written in the English language-that is, after the Saxon had assumed a form we new call English - was "The Travels of Sir John Mandeville." This book is remark-able from the fact that it shows a clear and correct idea of the shape of the earth, and that it is possible to travel round it and return to the starting point from the opposite direction—thus anticipating the discovery of Columbus by nearly a century and a half.

Frank James in a New Role Frank James as a guard on expretrains carying large amounts of money or valuables is one of the novelties the express people are now arranging. Negotiations have been in progress or several weeks, but the probabilities are that they will be closed up within a few days. The effect of James' name, in view of his former prowess in robbing trains himself, is what the express companies are aiming that he could stop a determined robber any more than one of their own messengers, but they think the ordinary train robber would hesitate to tackle him. James is willing to accept the position, and guarantee that no train in his charge will be robbed except over his dead body, with one single provislen, and that is that the express people put up a bond of \$20,000, this am to go to his widow in case of his death. The express people are inclined to yield to this, though there is some opposition. James has been firm in standing out for it, and will not go out on the road unless the bond is fixed up to his satis-

tions were first begun he was asked if he could shoot with both hands. "Well," he replied, "It used to be that I could, and I guess I have not forgot-

faction. Since he became a respectable

REMARKABLE RECOVERY

Of a Young Lady of Gasport, New York

From the Courier, Buffalo, N. Y. Miss Lulu Stevens, daughter of George Stevens, the well-known blacksmith, of Gasport, Niagara, County, New York, has sur-prised her neighbors considerably, by not dying five months ago, when the physicians said she could not live.

said she could not live.

This was quite a remarkable case. The young woman, who is very well known, on account of her musical ability, had been a very healthy girl, until about one year ago, when she began to fail, and grew so pale and apparently bloodless and so weak that after a few months she was given up to dic. Last winter a physician who was a visitor at Gasport met Miss Stevens, and seeing her maclated condition, and hearing from the local doctors that the disease was anaemia, prevalied on the girl's mother to make her try Dr. Williams Pink Pilis. Directly she commenced the treatment she began to mond, and now since February, when she commenced the treatment she began to mond, and now since February, when she decided to take them, she has become well and strong and the please of

mond, and now since February, when she decided to take them, she has become well and strong and the picture of good health. The mother of the girl, Mrs. Stevens, saya: "Every one in Gasport knows that Pink Pilis cured Lulu, and I feel very thankful that we heard of them in time to save my child's life."

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shuttered nerves. They are also a specific for troubles peculiar to femilies, such as suppressions, irrectualities and all forms of weakness. They build up the blood, and restore the glow of nealth to pale and sallow cheeks. In men they affect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. Pink Pills are sold in boxes (never in loose bulk) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Will:ams' Medicine Company, Schenectady, N. Y. Company, Schenectady, N. Y.,

I have sped much land and sea, and min-gled with much people, but never yet could find a spot unsunned by human kindness.

No-To-Bac for Fifty Cents. No-To-Bac for Fifty Cents.

Bubbles or Medals.

"Best sarsaparillas." When you think of it how contradictory that term is. For there can be only one best in anything-one best sarsaparilla, as there is one highest mountain, one longest river, one deepest ocean. And that best sarsaparilla i :-There's the rub! You can measure mountain height and ocean depth, but how test saraaparilla? You could if you were chemists. But then do you need to test it? The World's Fair Committee tested it, —and thoroughly. They went behind the label on the tested it,—and thoroughly. They went be made the fator of the bottle. What did this sarsaparilla test result in? Every make of sarsaparilla shut out of the Fair, except Ayer's. So it was that Ayer's was the only sarsaparilla admitted to the World's Fair. The committee found it the best. They had no room for anything that was not the best. And as the best, Ayer's Sarsa-parilla received the medal and awards due its merits. Remember parilla received the medal and awards due its merits. the word "best" is a bubble any breath can blow; but there are pins to prick such bubbles. Those others are blowing more "best rarsaparilla" bubbles since the World's Fair pricked the old ones. True, but Ayer's Sarsaparilla has the medal. The pin that scratches the medal proves it gold. The pin that pricks the bubble proves it wind. We point to medals, not bubbles, when we say: The best sarsaparilla is Ayer's.

Successful 1,340,000 constant wearers.

growers of fruits, berries, and all kinds of vegetables, know that the largest yields and best quality are produced by the liberal use of fertilizers

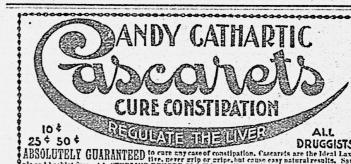

containing at least 10% of

Actual Potash Without the liberal use of Potash on sandy soils, it is impossible to grow fruits, berries and vegetables of a quality that will command the best prices.

All about Potash—the results of its use by actual ex-periment on the best farms in the United States—is told in a little, book which we publish and will gladly mail free to any farmer in America who will write for it. GERMAN KALI WORKS,
