SATURDAY, MAY 15, 1897.

Well, our grand jury has again concluded its work, and it would have been as well for all concerned if they had never met. They have, like their two former predecessors, refused to grant liquor licenses to any person in the Fifth District—the only anti-local option district in this county. It has been customary in former years that the majority rule, but it seems that in Queen Anne's the minority is supreme. The question whether the Fifth district should be "dry" or "wet" has several times been submitted to the vote of the people and always carried for "wet"; but still a majority of the grand jury—composed of twenty-four men—who are sworn to do justice and lay aside all prejudice says we must be "dry" and so it is. It seems that a few of the gentlemen of the jury who regard their oath were in favor of granting licenses for the Fifth District, while others think an oath is no more than it was during the war.

In the case of Mr. O. T. Davidson, charged with selling liquor without licenses goes to show what our former Honorable(?) grand jury has accomplished. The firm of Davidson & Co., has been in the whiskey business for thirty years and never was a single complaint made against them, but still with all the rest, they were turned down, as unsuitable to handle liquors. Having no redress at the grand jury, the only alternate for them to pursue was to sell and test the law. Which he did.

The cases against Mr. Davidson would not have been so numerous had it not been for a lot of "bushy bodies" who had no business of their own to attend to and therefore had to "saxstrap" and get other people in trouble. We think if our grand jury would investigate some of these cases, they would be spending the time and money of the county very judiciously.

Red and purple will be popular colors this season for young people. When the city girl comes to the country wearing a red shirt waist and a big hat trimmed in purple and white, with some other colors thrown in for contrast, it would be just as well for her to calculate the effect of the show on the farmer's cow. Cows are usually harmless animals, but they can be made nervous.

Wicomico farmers are wise in their determination to make a fair test of sugar beet culture. Other counties should do the same thing. There seems to be no good reason why they should not be able to raise these beets, and if they can do so, their farming will be carried on at a greater profit than has been the case for many years past.

From the way in which the high-roads are traveled by tramps, it seems only fair that the amount of industry and vitality now going to waste in the wandering fraternity should be utilized in keeping the roads in good condition. Perhaps, if they were obliged to work upon the roads they would use them less, and this would be almost as desirable.

Mrs. S. T. Rorer, of cooking school fame, tells in the *Ladies' Home Journal* how a family of two and one servant can live on \$10 a week. What is bothering a vast number of people just now all over the country, is how to get the \$10.

[COMMUNICATED.]

Louisville, Ky., May 7, 1897.  
Editor NEWS:—As we leave this beautiful city on the Ohio, it is with a sincere feeling of regret, as well as gratefulness, for the people whose unlimited, praiseworthy and renowned hospitality we have enjoyed. That our entertainment in this city was excellent and in every way complete goes without saying and that the representatives and their ladies have enjoyed themselves to the fullest extent is very evident from the numerous expressions of praise for the people of "Old Kentucky."

The city, with all its historic connections and beautiful streets and scenery, is an ideal convention city, having ample and comfortable hotel accommodations. This, together with

the hospitality of the people makes a very acceptable combination for the visitor.

The Supreme Session of the Independent Order of Heptasophis was composed of about two hundred and forty delegates from all parts of the country. A more intelligent body of men never met in any city in the Union and the results of their gathering here will bring about a new and notable era in the history of the Order, but, as the business transactions are of a private nature it is impossible to give any further information here, in regard to these matters.

During our visit here the ladies who accompanied the representatives were elegantly entertained by a committee of Louisville ladies, who took them to the parks and other places while the Conclave was in session.

The representatives were tendered a grand military ball in an armory on Wednesday evening, and on Thursday afternoon a steamboat excursion fourteen miles up the Ohio was enjoyed.

Altogether the visit of the I. O. H. was made a most pleasant one and will be recalled with pleasure by the delegates and their ladies.

It is simply impossible to enumerate all the graceful courtesies extended us, for all of which we express our profound gratitude and appreciation.

Respectfully yours,  
Wm. C. McCosson.

A prominent western newspaper recommends flax seed tea as an excellent remedy for whooping cough. It may be good but it is not to be compared with Chamberlain's Cough Remedy. This preparation will allay the violent fits of coughing and make them less frequent and less severe. It also liquefies the tough mucus, making it easier to expectorate. Complete recovery is much quicker, too, when this remedy is given. There is no danger in giving it to small children, as it is a pleasant syrup and contains nothing injurious. For sale at 25 and 50 cents per bottle by B. E. Cockey & Co.
