A prohibitionist said to hail from Queen Anne's county, in a communi cation to the Chestertown Enterprise among other things says:

"We number about 200 Prohibibitionists and can to a great degree dictate to the Democratic and Re publican parties of our county. We have not reached that point where we can elect our ticket, but we may become a "safety-valve" prohibiting unsound timber to be nominated by either of the old parties for county offices. As we are yet too much in the minority to put a ticket in the field and elect it, we may utilize our strength by supporting that party who will nominate fit men, temper ance men, moral men, and able mer to fill our places."

This might do for Kent county as we think the prohibition vote would help elect either of the old parties this fall in that county. But the writer of the above article must have been delirious if he intended it for Queen Anne's; for if he knows anything about our county politics, CATTLE, he knows that the majority of our ocrats "moists are "sore head" demstarted a little party of ened they It is a sure shot that the Democratic party does not need the prohibition vote to elect their ticket in Queen Anne's, and the democrats waive all their claim to the republicans to number the prohibitionists among their flock. As for the prohibitionists being a "safety valve," we would not like to travel on an engine with a safety valve as weak as the probibition party is in Queen Anne's.

He says "we may utilize our ance men, moral men and able men to fill our places." This reminds us of a chicken on a fence, which ever side has the most feed (money) it goes. In other words the prohibition party has seen better days, and the party who will give them a chance FRESH AND SALT MEATS. will get them, as they are tired of working for glory.

Denton, the home of Judge Russum, place is calls the Chestertown Transcript to task for publishing an article which SAM'L W. DADDS. in part reads thus:

"Then too, the placin Honor Judge Russum on a no whis. Queenstown, Md. key platform is liking depriving a Granulated Sugar 5c, fish of its natural and necessary ele-

The Union in reply to the above gets off the following in trying to Always in the Lead keep Russum in line with the plat-

"The charge which is intended to be made by the *Transcript* is that Judge Russum is addicted to the use of whiskey and cannot do without it and is as base a falsebood as ever was published. Judge Russum has re-sided in this county for thirty years and every one knows that he never Setting Carriage and has been an habitual user of spirituous or fermented liquors."

The above would be very good to tell the people of North Carolina Three-Horse trees, - - 90c. landings. about Judge Russum, but we venture to say, if Bro. Ramdell had been on our wharf not long since when Judge Oyster Tong Heads, \$2.50, up Russum was on his way home from Baltimore, that he (Ramdell) would thought there was more truth than poetry in the Transcript's editorial. Judge Russum is what you might term a prohibitionist, that is, he prohibits whiskey and beer from spoiling that comes his way. If the Union had left the word never out of the sentence "that he (never) has been an habitual user of spirituous or fermented liquors," we think is would have been nearer the truth.

The best business lever is advertising; newspaper advertising is the longest lever and the quickest to W. S. DELAHAY, move trade. Dull times are the times to put forth the greatest effort and the most money. People don't usually ask for what they have already. Advertising is merely asking for trade. When the store is in Queen Anne's County to sell Powell's full every day cut down your space. Give references and district. Don't expect that you will get a big trade in dull times, but keep count and you will find that the advertising was profitable. Profitable right
