It is to be hoped that General Otis is not coming back from the Philippines with a presidential bee in his Laster bonnet also.

These are the days when one is olliged to believe his calendar entirely on its general reputation for veracity concerning the seasons.

It is claimed that there is a large in the U. S. treasury, but re is no sign of the abolition of he pestiferons stamp tax.

The coffee war is viewed with the me degree of popular complacency the sugar war. They both reduce grocery bills of the consumers.

To an ice trust, the raising of prices is simply a matter of business. To the poor little children and the sick of the slums and the crowded centers in summer it is a matter of life and death. So much depends on the point of view.

It is said that Mark Hanna has demanded \$6,200,000 from the trusts for McKinley's campaign fund. As the trust magnates are the only perple benefited by the administration. they will probably settle up without murmur. But are the people of this country for sale like a lot of

With bull-headed perverseness and persistency Johnny Bull's generals insist upon walking into Boer traps in South Africa. Perhaps the time will come when they will give their opponents full credit for the shrewdness they possess, and with the result that fewer British lives will be sucri-

The Chestertown Transcript, besides otherwise being improved in typography, has adopted the 6 columns, 8 pages mode instead of 8 columns, 4 pages which gives the editors better room for making up ad vertisements and a convenient form for their many readers. It is an established fact among the newspapers o' the peninsula that the editors of the Transcript are second to none in ability as writers and, with the improved form, we cannot see why the subscription list should not exceed any on the Shore. We extend congratulations to the editors and may they live long to enjoy the fruit of

found a notice of a special election, submitting the question, "whether or not spirituous or fermented liquors shall be sold in this (Fifth) district." This is not the first time that this question has been before our people for a vote and at previous elections has always gone "wet" and now the question arises: "Will history repeat itself?" We are for licenses-not because we are not able to keep our jug in a dark room and get a drink on the sly but because we have not fit to any town but on the contrary, a that people will have their "cornjuice"-no matter what expense they have to go to get it and it seems in than in towns where liquor is sold. which will afford excellent examples whiskey and, after it arrives, hide themselves away in a barn or other for building and see who can drink the most and in a few hours the entire Eyerybody some of the bar-prices of everything enter entire events in this store's history. crowd is drunk. On the other hand we will take a whiskey town: Persons who drink will go in and get a drink and then go and attend to their business for they know they can get it whenever they want it and, as a rule, do not make beasts of them selves like in local option towns.

It is not only the drunkenness we have to contend with in local option towns but the loss of revenue. Under the law upon we are to vote we are informed that the licenses are \$150 which would amount to nearly enough will or frame a bill that will stand to keep our roads in this district in repair. With local option it costs the county several hundred dollars every term of court for witnesses before the grand jury and what does it amount to? That very few are indicted. Summing the matter up as whole it would save our county at least \$1500 a year in revenue and witness attendance which would nee essarily reduce our tax rate.
