SATURDAY, MAY 4, 1961.

A Kansas man who died recently had three kinds of religion. He was evidently determined to get else-

The Pennsylvania young woman who walked four miles in the rain to wed may be willing to walk ten miles later on for a divorce.

The weather has almost reached a degree of salubriousness and warmth when the Ice Trust is able to dis cover a shortage in the ice crop.

Christian Science is having such boom in England as to lead to the belief that the Britons want to try to whip the Boers by the mental telepathy method.

Our government is now on wheels. This may serve as an object-lesson to Aguinaldo and show him the superiority of this sort over the one which was operated on legs.

In his speech at Roanoke President McKinley said that economy should be practiced. But his warning will be like the voice in the wilderness with a Congress ravenous for spoils and bent on log-rolling.

When Great Britain shall have

The Pan- American Exposition at Buffalo was opened Wednesday with appropriate though simple ceremonies. The event might have been more elaborate but for the fact that the enterprise is far from complete and that several weeks are likely to elapse before a state of perfection has been reached in all the depart-

The Cincinnati lady who calci. mined her husband, also the saloonist who got him drunk and the bar and fixtures of the saloon, has taken the right step in the temperance movement. Temperance should begin at home. Whitewash your own family before you begin on the rest of the neighborhood. More power to the lady's elbow.

A New York magistrate is not a smoker. In the case of a man who was arraigned before him for spitting on the floor of a smoking car he said: "I'll discharge you. ' If smoking cars are run cuspidors ought to be placed in them. A smoker has to spit." No thorough and accomplished smoker ever spits. He never chews his eigar or allows it to become saturated with saliva. There are men who smoke and spit, but they are still amateurs and unfit to rank with theroughbreds.

A Delaware judge sentenced prisoner convicted of burglary in his court at Dover to one hour in the pillory, twenty lashes with a while and two years in prison. Differen criminals dread different forms of punishment, and the judge in this case was evidently impelled by a sincere desire to touch this particular individual in some tender spot. If he did not, and the prisoner is again arraigned before him, he can still try capital punishment, which i usually considered efficacious with hardened offenders.

Discoursing upon the physical ef fects of mental worry, the Philadelphia Ledger says: "Let any one compare his physical sensations after a day spent in fretting and discontent with those he experiences after a day of hard work performed bravely and hopefully-and the difference will be manifest. In the one case there will be a sinking of the whole system, and an exhaustion which does not always induce sleep, perchance a headache and loss of appetite; while in the other case, the rest from work is grateful, there is a healthful fatigue, which is soon forgotten in sound and refreshing sleep. When we multiply such results by the number of days in a year, and the number of years in a life, we cannot wonder that the habit of worry should undermine the health, and produce in time all manner of bodily ailments while the calm and self-controlled mind should sensibly tend to build up a vigorous and healthful body. This reasoning seems sound and conclusive, and it remains a fact that people should not worry-if they can

With this issue, a supplement containing the laws passed at the recent extra session of the Legislature, is

Troubles in Kansas never come ingly. First it was the Carrie Nation wave, and now triplets seem to e epidemic in the Sunflower State.

Mrs. Carrie Nation could find exrcise of her strong right arm nearer home. Mr. Nation was lately robbed at a circus. This ought to show ady crusaders that it is not always safe to attack evils abroad and leave husbands unprotected at home.

Miss Florence Newman, who has been a great sufferer, from muscular rheumatism, says Chamberlain's Pain Balm is the only remedy that affords her relief. Miss Newman is a much respected resident of the village of Gray, N. Y., and makes this state ment for the benefit of others simi-larly afflicted. This liniment is for sale by B. E. Cockey & Co.

Nelaton's Remedy for Rheumatism Is Curing Thousands.

Within the past half year, when NELATON'S REMEDY for RHEUMA-TISM was brought to public attention in this section, the sales have doubled almost every month. The fact that in not one case in a thousand is it necessary to refund the moneywhich is always done wherever Nela-ton's Remedy fails to cure—gives people who suffer from Rhenmatism and kindred ills a confidence in this great medicine which has induced housands to try it, and find the relief it will surely give.

A STOREHOUSE FOR RENT.

BROKEN BRIC-A-BRACS. Mr. Major, the famous cement man of New York, explains some very interesting facts about Major's Cement. The multitudes who use this standard

The multitudes who use this standard article know that it is many hundred per cent, better than other cements for which similar claims are made, but a great many do not know why. The simple reason is that Mr. Major uses the best materials ever discovered and other manufacturers do not use them because they are too expensive and do not allow large profits. Mr. Major tells us that one of the elements of his cement costs \$3.75 a pound, and another costs \$2.65 a gallon, while a large share of the so called elements and liquid glue upon the market are nothing more than sixteen. the market are nothing more than sixtee cent glus, dissolved in water or citric acid, and, in some cases, altered slightly in color and odor by the addition of cheap and use;

ess materials.

Major's cement retails at fifteen cents and twenty-five cents a bottle, and when a dealer tries to sell a substitute you can dedealer tries to sell a substitute you can de-pend upon it that his only object is to make large profit.

The profit on Major's cement is as much as any dealer ought to make on any ce-ment. And this is doubly true in view of the fact that each dealer gets his share of the benefit of Mr. Major's advertising, which now amounts to over \$5000 a month, throughout the country. Established in

1876.
Insist on having Major's. Don't accept any off-hand advice from a druggist.
If you are at all handy (and you will be likely to find that you are a good deal more so than you imagine) you can repair your rubber boots and family shoes, and any other rubber and leather articles, with Major's Rubber Cement and Major's Leather Cement.
And you will be surprised at how many
