THE PENNSYLVANIA RAILROAD

Practically owns all the lines on the eastern shore of Maryland and Delaware and that the only trade between Baltimore and that point is by schooner, tugboats or Wilmington which naturally belongs to Baltimore. This, in a great measure, is true, and it is necessary for the Legislature to examine carefully such charters before granting them.

neighborhood. We are always pleased to get news of our country. In writing, however, bear in mind that in a newspaper letter it is not good form to tease your friends and it is very bad form to try and work in spiteful flings at some neighbor you don't like.

A FARMER'S EXPERIMENT

Joseph Scarborough, a prominent farmer of the upper part of Cecil county, gave an account of his experiment with nitrate of soda, before a recent meeting of the Cecil Farmers' Club. He stated he had bought a ton and tried it in various ways. Had pulverized it and sowed some on a half-acre of wheat early in May, going diagonally across the field. In another place he had sown it in a circle in the center of the field. Within two days the effects were plainly marked, the wheat showing a rich dark green and in short time outgrew the other which had not been treated to soda. He had also tried sowing on three year old timothy sod the latter part of May but could not see that it effected it in the least.

THE PRESIDENT'S LATEST ANNOUNCEMENT

is made up from some figures on Cuban imports. A caller who was just leaving the White House permitted me to copy some figures, of which he had made a note and which are as follows. During the last fiscal year Cuba bought from the United States cotton goods to the amount of \$467,000 and from other countries cotton goods to the amount of \$5,600,000. She imported a total of \$3,300,000 worth of live stock and live stock products of which but \$2,000,000 worth was sold here by the United States. She imported \$686,000 worth of woolen goods of which but \$22,000 worth came from the United States. Out of a total importation of nearly \$3,500,000 worth of rice, less than \$9,000 came from the United States. These are but a few of the figures given but they are sufficient to illustrate what the high protection wing of the republican party would sacrifice in order to confer the favor of Oxnard and his confederates.

The penalty is only \$20 to \$100 with imprisonment, and confiscation of boat, guns, etc. We have been requested to publish this notice as a warning to violators.
