

WASHINGTON LETTER.

Sons News Collected at the National Capital by Our Regular Correspondent.

WASHINGTON, March 3, 1902.—

By its staunch adherence to the constitution and its logical exposition of the law, as voiced by Senator Bailey, of Texas, the democratic minority in the Senate secured a signal victory last week and forced President Frye, pro tem, to recede from the autocratic position which he had assumed. Following the personal encounter between Senators Tillman and McLaughlin which had occurred Saturday week and to which only the unjustifiable action of Senator Frye leads me to refer, the president pro tem caused to be erased from the rolls of the Senate the names of the two Senators from South Carolina. For the reason named, when the Philippine bill was passed on Monday afternoon neither senator was given an opportunity to vote. Senator Bailey, however, so ably presented the unconstitutionality of the action of the chair that their names were restored on the following day and the republicans caused an immediate adjournment of Tuesday's and Wednesday's sessions because they feared to act in the matter until the committee on privileges and elections had reported. Thursday the Senate met in joint session with the House to participate in the memorial services held for President McKinley and on Friday the above committee reported, censuring both senators for having violated the dignity of the Senate and removing from them the stigma of contempt which had been placed upon them by the whole Senate in executive session.

There is a further report due from the above named committee. It has been instructed to investigate the charges of Senator Tillman that McLaughlin was bribed with the promise of the federal patronage of the state, to vote for the ratification of the treaty of Paris. As is well-known, the junior Senator from South Carolina had made a speech in the Senate denouncing the treaty and later, after a call at the White House, he voted for its ratification. He has since been adopted by the republican caucus and has dictated the federal appointments in his state. The democratic senators declare that the republicans do not pursue the investigation of Tillman's charges and say that no further report will be brought in.

On Friday the Senate passed the permanent census bill. It was passed by the House on the same day and the President has given an opportunity of demonstrating how sincere he is in his protestations of regard for civil service reform, as the bill is the severest blow to the reform and the means of the commission which has been struck to progress in years. By its provision it gives precedence in the line of appointment to about 1500 employees of the census office who were appointed by the "spoils system" over a nearly equal number who have passed civil service examinations and are eligible to appointment as soon as vacancies occur.

Local weather prophets declare there will be considerable bad weather this month. The reason given is that the month contains five Saturdays, five Sundays and five Mondays, which is regarded as a sure sign of bad weather.

The recent heavy rains have done much damage to the roads and bridges in this county, and is conservatively estimated that it will cost \$100,000 to repair them in the same condition that they were at the beginning of the winter.

Mr. Ed. Kirby, of Harford county, is on his second endeavor to secure enough acreage of tomatoes to start a cannery at this place. Our farmers are requested to consider the matter well, so as to be able to give a decisive answer when he calls on them.

Drift logs and wood in great quantities are now strewn along the bay and river shores between the Susquehanna river. There is a great benefit to the people as wood is scarce and high. The logs are nearly all marked and will likely be collected by the owners.

The few bright days last week caused the base ball fever to attack the young men of Sudlersville. They have rented their grounds for the coming season and have a nice sum to meet the expenses of the team. They expect to make the other clubs of the county hustle for the championship.

The month of February will go down in merchants' memoranda books as the dulllest month on record. Business has been in a comatose state, in fact, there has been hardly any, and the merchant, or other business man, as for that matter, who met his outgoing expenses, was, indeed, fortunate.

This is the way in which a Delaware editor poeticaly lays a bouquet at the feet of his best girl: "There is gladness in her gladness when she's glad—there is sadness in her sadness when she's sad—but the gladness of her gladness nor the sadness of her sadness is nothing to her madness when she's mad."

When you wake up with a bad taste in your mouth you may know that you need a dose of Chamberlain's Stomach & Liver Tablets. They will cleanse your stomach, improve your appetite and make you feel like a new man. They are easy to take, being sugar coated and pleasant in effect. For sale by B. E. Cockey & Co.

A large number of people took advantage of the low-rate excursion of the Queen Anne's Railroad, Thursday, to witness the dramatic version of Gen. Lew Wallace's "Ben Hur," at the Academy of Music, Baltimore. The Queen Anne's Railroad Company will run another low rate excursion to Baltimore, next Thursday 13, to give the patrons, who were unable to go Thursday, their last opportunity to witness the play in Baltimore.

It is the opinion among the peach growers of the peninsula at present that the crop for the present season will be large, barring unfavorable weather conditions. A number of growers have been interviewed, and they unite in saying that prospects were never more favorable for a big yield. The orchards are in healthy condition, and the trees are well filled with buds. The snow and sleet, it is not believed, did any damage to the orchards, consequently but few trees were broken down, and as the buds have been kept from the cold weather, no damage was done to them.

QUEEN ANNE'S BRANCH.

Delegation from Talbot and Dorchester urge the Officials to Inspect their Counties.

A delegation of representative citizens of Talbot and Dorchester counties had a conference with President Bosley, of the Queen Anne's Railroad Company, and several of the directors, in Baltimore, Thursday, relative to constructing a branch road through the southern part of Talbot county to a point along the Choptank river opposite Cambridge. The speakers for the delegation emphasized the growth of the country in that section. They said the population had doubled in the past 20 years and manufacturing and oyster-packing industry had greatly increased.

The Cambridge and Chesapeake Railroad Company has a charter to build a road from Cambridge to the bay in the vicinity of Hollands Island, and its construction is largely dependent upon the building of the branch by the Queen Anne's company. Mr. Bosley indicated that he favors building the branch if satisfactory arrangements can be made. A bill is before the Legislature for a charter.

The plan is to start from a point on the main line of the Queen Anne's railroad, near Wye Mills, going to Easton, Trappe and then to the Choptank river, opposite Cambridge, a distance of about 35 miles. This branch, it was said, would bring much trade to Baltimore that now goes to Philadelphia.

Mr. Bosley said after the meeting that it is contemplated to construct a branch from a point on the main line, just east of Denton, to Salisbury and Snow Hill, and across the State line into Virginia, running down to Chincoteague Island and possibly to Cape Charles. A bill is before the Virginia Legislature for a charter to build the part of the proposed line in that State.

Hicks' for March. A glance at the storm chart for March shows that an unusual blending of atmospheric conditions exist at the opening of this month. As stated in February forecasts, the elements of our globe are strongly under the influence of the vernal equinox; the Venus disturbance is in full force; the Mercury period is central on the 14th; all moving with the regular Vulcan storm period central on the 1st, the moon being at the extreme south declination and last quarter on the 2nd, and in apogee on the 1st. General atmospheric disturbances, with dangerous storms as indicated from the 2nd to the 5th. Heavy rain, wind and thunder storms will visit the southern and central states from the 2nd, 3rd, 4th and 5th, and sleet and snow storms, amounting to blizzards, will touch the country northward at some time on the 6th and 10th, gale and blizzards in the northwest, with wild equatorial storms. Proaching storm condition on the 12th, reaching through the Vulcan period central on the 13th.

The reactionary days central on the 19th and 20th, will be largely into a state of unsettled and stormy weather bridging the whole time between the Vulcan periods central on the 14th and 24th. From Sunday the 23rd to Wednesday the 27th is a period of probable violence and danger. Tidal waves and tropical storms will reach maximum in the south about the 23rd to the 25th. March closes in the midst of reactionary storm developments. The month will be stormy with cold, blizzards and much precipitation.

Six Prisoners Escaped from Easton Jail. Easton had a jail delivery last Friday night, caused by a German who was confined therein making a key to fit the lock, liberating five prisoners and himself. While attempting to capture and restore the prisoners to jail again, Mr. Thompson, one of the deputy sheriffs, was shot dead while demanding admission to a negro jail in which one of the criminals was hidden. No positive arrests were made, but no positive proofs were adduced at the coroner's inquest as to the guilty one. Three brothers of one of the escaped prisoners are held on suspicion. We think the man who furnished the key should be held as an accessory.

La Grippe Quickly Cured. "In the winter of 1898 and 1899 I was taken down with a severe attack of what is called la grippe," says F. L. Hewett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by B. E. Cockey & Co.

Insurance Rates Advanced. The local agents of all the fire insurance companies doing business in Kent county, have received notice of a material advance in the rates for insurance on certain classes of property in this territory. In the letter of instructions to agents the reason for the advance in the rates is given in the following resolutions passed by the Underwriters' Association of the Middle Department, viz: "That after considering the condition of the territory of our association as affected by the large and numerous fires which have occurred during the past three years, rendering certain classes of business unprofitable, the association is of the opinion that not only the good of the companies, but the safety of the public demands that rates shall be immediately and largely advanced, lest companies be forced to withdraw their indemnity." The rates on all stocks of goods and store furniture and fixtures pertaining to same in brick buildings and on all frame-rented buildings and their contents, throughout the Eastern Shore are advanced 25 per cent from March 1st, 1902.
