

WASHINGTON LETTER.

Some News Collected at the National Capital by Our Regular Correspondent. WASHINGTON, March 10, 1902.—On Wednesday and Thursday of last week, Senator Alexander S. Clay, of Georgia, presented in an able and comprehensive manner the democratic attitude toward the Ship Subsidy bill, but the length of his speech precludes the possibility of giving even an epitome in this letter. At my request, however, Senator Clay consented to make the following brief statement for your readers...

NEWS OF THE WEEK.

Local and Other News of Interest for Our Readers in a Brief Way. Next Monday will be St. Patrick's day. Now for the display of Easter bonnets. Dwelling, store and bakery for rent. S. E. Kirby. It is rumored that we will soon have another feed store in town. Clipped horses seem to be very popular at this season of the year. The man with the box will soon be getting in his work on the garden. A house and garden for rent the balance of this year. Apply to J. M. Aker.

OPENING OF SPRING.

We Have Been Fortunate the Past Winter and Should Thank Mr. M. B. E. Come, gentle Spring!! Ethereal mildness come!! And from the bosom of your brightening cloud drop "Fattiness." Soon will our tables be supplied with spring lamb, spring chickens, spring lettuce and many other delicacies the rolling year brings around for our enjoyment. The undulating fields that environ our village will soon be enlivened with Nature's favorite hues. Our fast running steamers will soon cheer us with their ever welcome signal of approach, bringing once more among us happy and familiar faces. Our citizens will now awaken from the long, long dream of winter, for it is well on the way to give us renewed energy, to enable us to form good resolutions and be up and doing.

PINEY NECK NOTES.

Some Interesting Items From Bryanstown and Winchester. Mr. Cummings is erecting a dwelling in our midst. Mr. Walter Roe is on the sick list with a severe cold. Capt. George Chesner was in Baltimore several days this week. Miss Jennie Murphy, of Roe, is the guest of relatives and friends in our section. Robins and blackbirds, the first of the summer birds, have been seen in large flocks this week. Several of our citizens and landowners along the watercourse secured some valuable lumber and logs last week. Since the opening of the river and oystermen have been able to work, our merchants report business fairly good but room for improvement. Our roads are rapidly recovering from the heavy rains and freezes, and the few remaining holes, our bicycle bells will be heard along our highways and byways.

WELCOME THE CANNERY.

An Observant Farmer begs his Brethren to Encourage Mr. Edward Kirby. Mr. Kirby, of Harford county, who is here looking for a location to start a cannery and whom I had the pleasure to meet a few days ago, and I believe aim a gentleman of business, who understands his business as a cannery and, as he comes to us well recommended, backed by good people I would advise my brother farmers and truckers to extend to him a hand of fellowship and warm welcome enough to give him all the acreage in tomatoes or anything else in the line of his business to give him the required encouragement to put a cannery here in this immediate neighborhood; for what we want is industries such as canneries and factories of all kinds.

PERSONAL MENTION.

Names of People Who are Visiting Here and our People Who are Visiting. Miss Evelyn Magnus, of Baltimore, is the guest of her sister, Mrs. B. E. Cockey. Mr. and Mrs. Frank H. Stauffer, of Baltimore, were the guests of Mr. and Mrs. Walter Lane several days this week. Mrs. Charles E. Roe, who was reported ill in a recent issue, is now much improved and able to attend to her household affairs. Messrs. B. E. Cockey and Charles T. Morris spent several days this week on Kent Island in search of wild ducks. They succeeded in bagging twenty. Miss Sarah Ireland, who has been at the Maryland General Hospital for several weeks, returned home last week. She had her left leg amputated above the knee. Sheriff Delahay, Messrs. J. Louis Rhodes and J. E. Boyles tried their luck on the ducks on Wye river, Thursday and, notwithstanding they got thoroughly drenched with rain, they enjoyed the sport of banging and bagging the wily fowl. Mr. E. L. Melvin left Thursday to take charge of the Stevensville station on the Queen Anne's Railroad. While the company's most running on regular schedule, the heavy freight and passenger traffic justified them in putting an agent at that point. Mrs. Walter Lane, who has been very ill the past few weeks with an ailment on the palm of her hand, is much improved. It was feared that amputation would be necessary but her family physician, Dr. Hopkins, assured them that the danger point is past and, that she will soon be able to attend to her household duties.

SAMPLES OF NELATON'S REMEDY FOR RHEUMATISM. WILL BE SENT TO YOU ON RECEIPT OF YOUR NAME AND ADDRESS. THOUSANDS OF PEOPLE TESTIFY TO BEING CURED OF RHEUMATISM AND OTHER ILLS DUE TO RHEUMATISM. Do You Want to Save Money? READ THIS Advertisement. The public is well aware of the fact that we cannot sell goods for fun, either will we quote you any prices that we do not intend to sell at. If you want to buy a good article at a reasonable figure, we will be pleased to tell you same, and guarantee the price is as low as the lowest—quality considered. We do not handle anything but first-class goods. Our line of Meats is full and complete and the price is the lowest. Our line of Groceries is the finest to be had, and everything belonging to this line will be found in my store and at the right price. A complete line of Garden Seeds, as also a choice lot of seed Potatoes which are a fine as can be had. A choice stock of Cigars and Tobaccos, for particular users. Call and see us when in need of anything in our line, your patronage will be appreciated. William T. Pratt. 1887. THE SUN. 1902. BALTIMORE, MD.

As to the simple subsidy provision of the bill, there is no necessity for such legislation. Our shipping trade is constantly increasing. We retain, by statute, all of the coastwise trade for our vessels and, as in the past that has been the most profitable, it has absorbed every increase in American shipping, but there are now ample vessels engaged in it and the attention of American ship owners is naturally turning to the foreign trade. Our ship yards have orders exceeding their normal capacity. Our vast mineral resources, our improved methods of production and the superior productivity of the American laborer and artisan combined, more than counterbalance any difference there may exist between American and foreign wages, and without this unnecessary and extravagant legislation the American shipping industry will, in the near future, lead the world in its field as do American industries in other important branches.

Present indications, as to the condition of what are certainly unpromising. While nothing definite can be arrived at, at present, it is generally conceded, by the best judges, that the outlook for even a fair crop is very poor. Several of our friends have been kind enough to send in personal letters. We wish others would do likewise, as our readers and we will appreciate their efforts. There is no cost attached; just write the names on a slip of paper or a postal card if out of town and send to this office.

The young man who knows how to lay off corn and potato rows, and to regulate the distance of the same so as to get the greatest crops, is worth a cow-pan full of kid-gloved fellows who know how to lead a fashionable horse to a new draw bridge over Kent narrows and were asked to give a written opinion in regard to the same next Tuesday. George M. Vansant, late sheriff, appeared before the board to settle in full. We have not yet received for collection in 1898. The following road supervisors for this district were appointed and the amount they receive: John H. Ireland, \$25; James B. Hess, \$35; Jas. S. Baxter, \$30; Samuel W. Dadds, \$25; C. E. Shaw, \$35; Theodore Slaughter, \$30.

The greatest danger from colds and the grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous malady. It will cure a cold or an attack of the grippe in less time than any other treatment. It is pleasant and safe to take. For sale by B. E. Cockey & Co.

Whether or not the groundhog is to be a prophet, there are other indications of a change of seasons that are not to be questioned. The balls and bats have already seen their shadows, and the jumping rope has begun its spring revolutions. The early daffodils has made its appearance in window pots, and reasonable dainties have already begun to tempt feminine fancies from the shop windows. Those who are finally forlorned are even now preparing a place for their sweet peas, and garden articles full of literary charm and practical helpfulness have begun to make their appearance in magazines. That early human bird who is quickest to spy the first robin has been heard from. Of course, there may yet be days when the daffodils and dimities will look out of place and when snow may fall upon the restricted movables, but the greatest of unborn blizzards cannot altogether obliterate these signs of spring or entirely dampen the seasonable ardor that they awaken.
