SATURDAY, MAY 17, 1902.

We are compelled by force of cir cumstances to ask those indebted to us to please call and settle not later than June 1. We have many de mands for money to meet our obliga t.ons and unless those indebted to us will let us have a part of the account, if not all, the result may prove dishope to receive a prompt reply.

It is reported that Dr. Hayes, the scientist, measured an iceberg in Melville Bay which was nearly a mile long and 315 feet above water. It was estimated to weigh 2,000,000,000 tons. And still we have an Ice Trust in this country.

Mrs. Hetty Green, a prominent banker of New York, has been granted a permit to carry a revolver for protection. It would be a good move for the women of this county to apply for a similar permit to hold such brutes as Burke's stripe at bay.

The Beef Trust will deny all the charges against it. L'efore its answer is finished women will probably b fainting and strong men weeping over the moving spectacle of its unselfish heroism in doing business at a loss simply of love for mankind and charity for the poor.

A man in Brooklyn poisoned himself because his supper was not ready in time. This is quite an improvement on the usual method of shooting his wife, and is recommended for general imitation by husbands s methodical that they hold somebody ought to die for belated meals.

"Tis said, there cannot be a much warmer reception given anyone than a base ball umpire when he gives rank decision, unless it was the article in last Saturday's Record, from the pen of a fair writer signing herself "Honor," who gives those interested in the commutation of Burke's sentence some very plain, interesting

In our local column will be found account of a most dastardly atapted assault on a white woman in nt county, last Friday morning. Coming as it does, in the footints of Burke-whose sentence was nmuted from hanging to life imsonment after being tried by 12 good and true men-it will cause the people of this county to query "What will be done with the perpetrator if caught?" Now dear readers. we are in a terrible plight. Have we not laid open the avenue of crime by the commutation of Burke besides casting a shadow on the fair name of our county? We think so.

While the opinions of people differ, and it is said "that wise men change their minds but fools never do." We are classed with the fools in the Burke case, for as it now stands what plea could we or Burke's friends, advance for the prevention of a lynching bee? If we were to say two wrongs never made a right, what would the leaders of a lynching party in Kent say after the Burke affair in this county? Their reply would be about this shape: "None of your Queen Anne's law for us, we make sure of this bird and save the county the expense of trial, gallows and other incidentals." Then in the event of a lynching bee, the wail set up by the same people who saved Burke's neck would cause the

walls of the courthouse to tremble. While we must admit that the case in our sister county is bad to say the least, it is not to be mentioned in the same breath with that of Burke. In the former case it was a woman, who was physically able to keep her would be assailant from accomplishing his parpose. But how different in the Burke case! Instead of a woman it was an innocent school child, who was as helpless as a new born babe in the f a brute of Burke's type-

An esteemed contemporary which seems to have read up on the subject says that beef is beef. This is true except in some restaurants and boardinghouses where beef is india

A movement has been started for the pardon of one of the kidnappers who about three years ago had the country worked up by their stealing Queenstown, Md. of a pretty girl for a ransom. The crime of kidnapping is so detestable a one that its punishment cannot be too severe and no amount of sentimentality ought to be allowed to interfere with its penalty being paid to the full extent of the law. A pardon in such a case is simply encouragement for child-stealing to go on.

blight so many homes.

A WHITE GIRL wanted to do general

We now Have a Flour Mill in Town. The flour mill of Mr. Walter M Lane was given a trial on Thursday and the machinery worked smoothly. Those present were much pleased with the plant as it is the first mill astrous to us. We will in a few days of its kind ever built in Queenstown send out bills to those in arrears and in the recollection of her oldest inhabitants and Mr. Lane deserves praise for his efforts in advancing the interests of our town and our people should see that he receives proper en couragement as it will, like all enterprises, add many dollars to the recipts of our business men. The mill will run regularly on and after Wednesday next and will be in charge of Mr. J. G. Dorsey, a practical mill-wright. Besides the flour mill there is a saw mill, blacksmith and wheelwright shop connected for the ac-commodation of the public. It would be well for Queenstown if she could get a few more enterprising men like Mr. Lane to locate in her borders instead of the many fogies who want to down all enterprises from which the proceeds do not empty into their

Nelaton's Remedy for Rheumatism Is Curing Thousands.

Within the past half year, when KELATON'S REMEDY for RHEUMA-TISM was brought to public attention in this section, the sales have doubled ilmost every month. The fact that in not one case in a thousand is it necessary to refund the money which is always done wherever Nelaton's Remedy fails to cure-gives people who suffer from Rheumatism and kindred ills a confidence in this great medicine which has induced thousands to try it, and find the re lief it will surely give.

Won't Follow Advice after Paying for it. In a recent article a prominent physician says, "It is next to imposible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the small-est extent; he has but one resort left, namely, the drug treatment." When nedicines are used for chronic con stipation, the most mild and gentle obtainable, such as Chamberlain's Stonmeh and Liver Tablet, should b employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy con-dition. For sale by B. E. Cockey &

The period of disaster on which he world has apparently entered is learfully rounded out by the destraction of the whole city of St. Pierre, and almost its entire population by an earthquake. This is one of the hororrors which can be neither foreseen nor prevented—one of those appallation prevented—one of those appallations are prevented and the prevented prevented and the prevented prevented and the prevented prevented and the prevented natural digestive juices and consequently is the only one which digests any good food and cures any form of stomach trouble. J. S. Denny and Wye Mills drug store.
