Notwithstanding his purchase of a \$45,000 Bible, Mr. Morgan has shown no indication of a purpose to merge the various religious denominations.

The President says the Maclay book shall not be used in the Naval Academy while he is president. Still, the book seems to support his view of the Schley affair.

The one thing certain about the coal strike is that the public is being unmercifully muleted. The raising of prices of coal is a grab, pure and simple, and nothing more.

Right on the eve of the inaugura tion of the Republic of Cuba, appears the following from the Diario de le

Today everything ind cates that they are going to subject us to an economic blockade, in order that the Cuban republic may be born too feeble to live. There is a great deal of truth in this suggestion. There are Republicans in Congress who smile behind their hands when the Cuban Repub lic is mentioned. That the Beef Trust should have rmitted such a far-reaching order to issue without making the slighes objection or resistance is as significant as it is sensational. A denial, in general or in part, of the government's allegations was expected as he least the trust could do in its tle for life. Instead of this it hally acquiesced in the entire ceeding, its acquiescence being aced by the court as a confession it under each specification of bill against it.

The trust being, by its own assent, gal, the people will watch carey for signs of relief. If these are not immediately forthig, another attack will have to made. Prices must fall and dealers must be made independent at once, or there will be reason to believe that the trust is continuing by means of secret or implied conspiracy.
