

WASHINGTON LETTER.

Some News Collected at the National Capital by Our Regular Correspondent.

WASHINGTON, July 21st, 1902.— A striking evidence of the close affiliation of those persons who are the beneficiaries of the tariff and their determination to conceal from the public information to which it is entitled, is furnished by the lack of success which has attended the efforts of Judge Griggs to secure a copy of the "Special Discount Sheet" issued by American exporters.

When business is dull, advertise. Let the people know you are awaiting their patronage at the old stand. A house and garden for rent the balance of this year. Apply to J. M. Aker.

The Queen Anne's Railroad will sell special low-rate tickets to Baltimore, Thursday, July 31, 1902, on morning train. Tickets good to return same or following day. The fare from Queenstown for the round trip is only a dollar.

Peaches are now going into market in considerable quantities. These early varieties are rarely in good condition and bring poor prices as a rule. There will be some good fruit ready for shipment in the next two weeks and much better quotations may be expected.

It seems from what information we can gather, our informant in reference to William Abbott getting his finger bitten off by a negro was mistaken. Mr. Abbott was supporting himself against a door when a negro slammed the door, cutting off his little finger.

Mr. Harry Willoughby, of Hildgely, has sold his threshing outfit to Capt. Chas. W. Butler, of Guy's. Mr. Willoughby has, for several seasons done good work for the farmers of Piney Neck, and this season threshed out 10,407 bushels of wheat in six and three-quarter days.

A large stock of millinery goods and notions now on hand at ready and large prices. Sailor hats from 25 cents up. A large variety of taffeta silk neck ribbons. Call and see them. Once a customer always a customer. Mary D. Seemey. Watch for adv. next week.

There is every prospect for a large crop of tomatoes this season. The wet weather has had a tendency to give the young plants a good stand and they are looking fine now. The increased price paid for tomatoes by canners will bring considerable ready cash to the farmers.

Some kind of a varmin has been making ravages on young turkeys in the Annapolis Neck. Several nights ago the entire flock of Mrs. Heston Dulin was killed. Mrs. Nathan H. Moore lost 35 and Mrs. Comegys lost 38. The turkeys were of fine size and a heavy loss to the respective housewives.

Just about this time of the year city folks suddenly recall their "dear" relatives in the country and employ every artifice to induce them to accept an assumed standing invitation, to escape the sweltering city. Some of these same people would tremble at the thought of their rustic cousins visiting them.

The annual tournament and base ball game for the benefit of St. Peter's Catholic Church, will be held at Myrtle Point farm, near Queenstown, Wednesday, August 20, 1902. If you want a day's outing and plenty of sport, don't fail to attend. A happy Russell colt will be chased off. See ad. in another column.

NEWS OF THE WEEK.

Local and Other News of Interest for Our Readers in a Brief Way.

Early tomatoes are becoming plentiful and cheap in market.

A house and garden for rent the balance of this year. Apply to J. M. Aker.

When business is dull, advertise. Let the people know you are awaiting their patronage at the old stand.

The Queen Anne's Railroad will sell special low-rate tickets to Baltimore, Thursday, July 31, 1902, on morning train.

PERSONAL MENTION.

Names of People Who are Visiting Here and our People Who are Visiting.

Mrs. Michael McNamee is visiting relatives in Baltimore.

Mr. Washington Collins is visiting relatives in Baltimore.

Mrs. Thomas B. Kinnaman is the guest of her parents in Baltimore.

Mr. Alex. Godwin visited friends in Baltimore several days last week.

Mrs. William S. Delahay, of Centerville, visited friends in town on Thursday.

Miss Edith Hopkins returned home yesterday after spending a week at Cape May.

Miss Annie Harrop, of Baltimore county, is visiting Mr. James Price and family.

Miss Blanche Magness, of Baltimore, is the guest of her sister, Mrs. E. E. Cockey.

Miss Mary Harrington, of Lewes, Del., is spending a few days with her parents in town.

Mr. J. Louis Rhodes will leave this morning for a visit of several days at Cape May.

Miss Grace Ross, of Wye Mills, who has been visiting Miss Janie Boyles, has returned home.

Mr. Richard E. Bryan and family, of Baltimore, are at their summer residence near town.

Mr. and Mrs. William Boyles, Sr., and Mr. and Mrs. S. R. Shawen spent Sunday at Rehoboth Beach.

Miss Agnes B. Boyle, of Willoughby, visited friends in Baltimore and Wilmington, Del., this week.

Miss Wallis, of Kent county, was the guest of her sister, Mrs. Howard E. Ferry several days this week.

Miss Annie Morgan, of Starr, is the guest of her cousin, Miss Edith Morgan at her home, "Blackford."

Mr. and Mrs. Samuel Showers, of Baltimore, were the guests of Mr. John M. Aber and family last week.

Mr. and Mrs. Thomas A. Emsert, Jr., of Kent Island, were the guests of relatives and friends in town this week.

Miss May Thompson, of Baltimore, was the guest of her cousins, Misses Lottie and Lizzie Pinder several days this week.

Mrs. William Pankrus, of Baltimore, returned home, Wednesday after spending several days with Mrs. Frank Anthony.

Mrs. John O'Hara and daughter, Miss Flossie, of Baltimore, returned home yesterday after spending several days with Miss Mary Metzdorf.

Mr. M. L. Thomas has accepted a position with the Queen Anne's Railroad. He has been assigned to the position of freight clerk on the train and at the pier.

Mr. Jas. Horrell, of Queenstown, and Miss Ara Etta Potts, of Centerville, were married at the bride's residence, Wednesday evening, by Rev. James Mitchell.

Mr. G. J. B. Mitchell, of Philadelphia, is spending his vacation with relatives and friends in this section. He has a lucrative position and travels the year round but no place is as dear to him as Queenstown, the town of his birth.

Messrs. Ed. H. Gale and William Stewart, of Hillsboro, who have been at work painting, freecoring and otherwise beautifying the appearance of St. Peter's Catholic Church, returned home, Thursday. Mr. Gale's work proves that he is an artist in the business and the entire congregation is well pleased with his work.

The Piano Typewriter. After six years of continuous, patient and industrious labor, Paul J. Clemanth, of Buffalo, has invented what he calls the piano typewriter, and it is said to be one of the inventions of the age.

A YEAR OF DISASTERS.

Great Numbers of Rain and Terrible Windstorms Have Wrought Destruction.

Another mining disaster, this time in the West, calls to mind the extraordinary number of disasters and catastrophes which have occurred during the year.

They have not been confined to volcanic eruptions and mining explosions, great as those have been; but all of the elements seem to have entered into a conspiracy against the human race.

Great deluges of rain and terrific windstorms have wrought destruction in many parts of the country as well as abroad; and railroad accidents and marine disasters have been more numerous than usual.

There has not been such excesses of temperature as would help to account for some of these disasters. The weather, on the whole, has been remarkably mild for the season.

The only explanation seems to be that they just happened together and upon the theory of averages this is reasonable. Many persons hold that if there is a scarcity of anything at one time there will be a glut at another.

There is no such clear explanation of great mining disasters, occurring in different parts of the country and destroying hundreds of lives; nor of numerous railroad accidents taking place hundreds and thousands of miles apart.

It is possible that the winds blow benignly or there are arid seasons and hurricanes; men manage their business affairs prudently or they are tempted by prosperity to plunge into reckless enterprises or speculation.

There is not so clear an explanation of great mining disasters, occurring in different parts of the country and destroying hundreds of lives; nor of numerous railroad accidents taking place hundreds and thousands of miles apart.

It is possible that the winds blow benignly or there are arid seasons and hurricanes; men manage their business affairs prudently or they are tempted by prosperity to plunge into reckless enterprises or speculation.

MR. FOUNTAIN IN LUCK.

He Arrested in Baltimore for Forgiving Checks and Will Soon Return to his Home.

John Fountain, who gave his age as 40 years and his occupation as carpenter, was committed for court in default of \$500 bail on 2 charges of attempting to obtain money under false pretenses by Justice Loden at the Baltimore Western Police Station Wednesday.

The specific charges against Fountain were: Attempting to obtain half a ton of coal, valued at \$3.65, and \$5.35 in currency by means of a bogus check from the Consumers' Coal Company; attempting to obtain \$3 in currency from Richard Weimer, 633 Portland street, and obtaining a lot of underwear and a watch valued at \$16.50 and \$12.15 in currency from M. Levi & Bros., by a bogus check on July 19. Fountain was arrested by Detective Mayer and Patrolman William McKew, of the Southern district.

The check which Fountain is alleged to have attempted to pass on Weimer was signed "Thomas C. Bassor" and made payable to bearer. After examining the check, Weimer stated that he would call up C. H. Bassor, 28 Light street, and ascertain if the paper was genuine. Fountain is said to have objected and left, after stating that he would return with cash to make several purchases.

The check, Fountain is alleged to have passed on Levi & Bros., gentlemen's furnishes, at 426 Light street, was signed by a man named Stabler. Justice Loden decided to postpone the hearing until Thursday morning.

At the hearing, Thursday morning Fountain was committed by Justice Loden for court. Fountain blamed drink for his manipulations.

It will be seen by our readers that this is no person other than John Carroll Fountain who was, only a few months ago, pardoned from the Maryland Penitentiary where he was sent for the same kind of business. He is a very sleek, oily-tongued bird at the business and our opinion is, as it was before the pardon, to let him serve out his sentence.

Interesting Phenomena. There has been a number of unusual incidents this year connected with the animal and vegetable life of the water in Queenstown and vicinity. The supply of crabs, both blue and white, has been unusually scarce during the present time, although, within the last few days there have been some signs of an increase in the supply.

Something very unusual is that so far there have been no sea nettles in the water here all although they generally put in their appearance about the first of July and by this time the water is usually full of them. Their absence is ascribed to the unusual coolness of the water up to a short time ago. The third unusual occurrence is the fact that sea grass has made its re-appearance in the creeks and rivers after an absence of about 14 years. Up to about 1888 most of the shallow water in this section was covered to a depth of about six feet with long grass or weeds. This disappeared and very little has grown until this year.

Service between Cape May and Lewes. The Steamer Queen Caroline of the Queen Anne's Railroad Company, will leave Cape May, every Monday, at 6.30 a. m., connecting at Lewes, Del., with express train for Baltimore. This additional service went into effect Monday night, July 14, by this resort will have the opportunity by this arrangement to remain at Cape May over Sunday night, leaving there early Monday morning, enjoying a delightful sail across the Delaware Bay, a short trip across the Peninsula on a fast express and, bracing sail up the Chesapeake, reaching Baltimore shortly before noon.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every family. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time. For sale by B. E. Cockey & Co.

Poisoning the System. It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing fever, delirium, and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promoting easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. J. S. Denny and Wye Mills drug store.

White Man Turned Yellow. Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His manly was yellow jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he was cured. "After taking 2 bottles I was wholly cured." A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c at B. E. Cockey & Co.'s drug store.

The Best Prescription for Malaria. Chills and Fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 50c.

House Struck by Lightning.

A terrific hail and rain storm visited this section early yesterday morning accompanied by heavy thunder and lightning.

A bolt of lightning struck the chimney of the double-house occupied by Messrs. Frederick B. Startt and William Morris. The bolt entered on the side occupied by Mr. Startt, tearing away a large portion of the weatherboarding and continuing across to Mr. Morris' apartment, where it played havoc with his household effects.

It entered a room (seven in number) in the house and left in each, marks of its work. It struck a fine sofa at the head and completely wrecked its upholstery, leaving the wood work injured. The damage to the house which will amount to about one hundred dollars, is fully covered by insurance. It is as surprising as fortunate that none of the inmates of the houses were injured.

Commissioners Ask for Writ of Mandamus. The county commissioners of this county have petitioned the Circuit Court of Talbot county for a writ of mandamus against the board of commissioners of Talbot county compelling them to levy upon the assessable property of Talbot county a sum sufficient to raise \$2,606.53 for the use of the commissioners of this county, to be expended in the repairing and maintenance of the drawbridge over Kent Island narrows. The suit is the result of legislation a number of years ago, which provided for the opening for navigation of the Kent Island narrows and maintaining a bridge at the expense of the two counties. But for some reason the commissioners of Talbot stopped paying for the bridge some ten years ago.

Baltimore Struck by Cyclone. Electrical and wind storms have been unusually numerous and destructive in this section of the country this summer. Baltimore city was the center of a storm Sunday afternoon which resulted in the death of 10 persons, the injury of others, unroofed 200 houses, seriously damaged shipping in the harbor, almost entirely severed telegraphic and telephonic communication with the outside world, destroyed many magnificent trees, seriously interfered with street car service in places, damaged the city's electric light facilities, caused the death of several horses and other animals by tearing down live wires and generally wrought more destruction than any storm which has visited this city in years.

Drove Into a Deep Hole. Thomas H. Dodd, of Carrichal, had a narrow escape from a watery grave last Saturday evening. He was down to his landing on Wye river, superintending the loading of some wheat aboard a sail-boat and thought he would drive out in the river to cool off his horse. He had only gone a short distance when his horse suddenly struck a hole which carried him over his head and, in his endeavor to free himself, he upset the carriage, throwing Mr. Dodd out in the river. Only for prompt assistance he would have drowned as he was tangled up in the carriage and his clothing prevented him from swimming. He was carried to his home and a physician summoned.

Vagrant Arrested. Bessie Foreman, colored, eighteen years of age, was arrested by Officers Courtney and Whiteley last Saturday night for vagrancy and lodged in jail. She was arraigned before Justice Woodford on Monday night. In the evidence it was brought out that she had gone to Centerville from Spanish Neck in May and that, although she had been offered several positions since then, she refused to work. Justice Woodford, after giving Bessie a brief address on the dignity of labor and criminality of idleness, informed her that he would be obliged to give her six months in the House of Correction, just for a lesson. Bessie will probably remember the lesson.

To Drive Electric Cars. A plan has been made by capitalists of Baltimore and elsewhere to generate electric energy by water power on the Susquehanna river and transmit it to Baltimore for distribution. The plan of the company is to develop the water rights, powers and privileges at three separate power houses located along the river, about 15 miles from Baltimore, with a succession of rapids, making a total fall of 120 feet. Each power plant is to have a fall of 40 feet. This power will be sufficient to keep millions of machinery wheels busy and drive all the electric cars in and about Baltimore.

It Dazzles the World. No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, hay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by B. E. Cockey & Co., who guarantee satisfaction or refund money. Large bottles 50c and \$1. Trial bottles free.

A Poor Millionaire. Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They aid digestion, strengthen the stomach, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. For sale by B. E. Cockey & Co.

To Cure a Cold in One Day. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's manufacture is on each box. 25c.

Take the Cough and Whoops of the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, no Pay. Price 25 cents.

All fresh meats are reduced from one to two cents per lb.
