No Relief—No Pay. TO THE PUBLIC.

There is perhaps no medical observation better established, none more generally confirmed by the experience of the best physicians, of all ages and countries, and none of more importance to the practitioner, than the fact, that many of the most difficult and incurable complaints originate in neglected eals. In a climate as variable as ours, where the changes of weather are frequently sudden and unexpected, it requires more care and attention to guard againflights subtle and dangerous enemy of life, than most people imagine, or are able and willing the bestow. Hence the number of patients afflicted with coughs, catarrhs, asthmas, consumptions, and other affections, and hence the farrago of rational and absurd remedies, exied up by the learned and illiterate. The many cases of the kind which fell under my observation, the preposterous compositions of inflaming drugs, which are in regue, the disappointments I experienced in practice from remedies highly recommended, and my own predisposition to pulmonic complaints, were strong inducements for me to consider, whether a compound consisting of mild vegetable substances, could not be invented, more free from the well founded objections of practitioners, and better ealculated to avert the threatening destruction of the lungs.

I have the satisfaction now to offer to the publie such a remedy, under the name of the Vaca-TABLE PULMONIC DETERGENT, weil adapted to various constitutions and liabits, and to declare with the fullest confidence that I found this compositon in a great variety of cases for superior to others intended to answer the same purpose. Aware of the impossibility of universal remedies, destitute of the despicable and versaile talents of a Charlatan, I am too proud of the character of an honest man, ever to desire to profit by the ignorance of the fick and afflicted, whiist I confine the use of my medicine to the effects of a suppressed perspiration in their incipent state only, I flatter myself with the hope, that this candid appeal to the understanding of an enlightened publie will ensure to my discovery a better Lite and longer life, than the greater part of their brusteil panaceas deserve. I am perfectly satisfied, that such practitioners, who have frequently to combat the effects of a suppressed respiration, and do not neglect the use of the lancet and other evacuations, whenever they are indicated, will and impartial trial, in the list of their transsameite semedies; that families will substitute it for the besting Eliair, paregoric and asthmatic, for their cough drops, pectoral Balsarus and Syrups; and that the manifest benefit derived by such, who use it according to my directions, will prove a far better test of stevalue and usefulnesi, than ever so many cortificates I could pelm upon a discerning public.

CEORGE ROGERS

No Relief—No Pay.

This motto may be deemed offentations by some, and amounting to a positiveness that the medicine will invaribly effect a cure in any state of discare, like a miracle; the proportion is far from believing that this medicine will render matikind immortal, but he is fully sensible if taken seasonaby, and according to the directions, it will either prevent or cure, and if unfeafonably, it will most sensibly alleviate detress and prolong life, this is an inducement for him to make the above overture should the contrary appear in any instance, as in some it possibly may, the money for the medicine will be cheerfully refunded by the person who may vend the same.

Iv. B. The above named medicine is secured to the subscriber by letters patent from the President of the United States, and prepared at his dispensary in Northampton, county of Hampshire, and flate of Massachusetts.
