The terms are three dollars per annum; the first year payable six months from the date of subscription—to continue half-yearly in advance. The Editor confidently trusts that Subscribers will be particularly attentive to punctuality in their payments, as that can alone enable him to meet those necessary and unavoidable expenses naturally resulting from such an establishment.

## MINERAL WATERS.

WE are happy to present to the public the following respectable and satisfactory testimony from some of the most eminent physicians of Baltimore, which must sufficiently establish the utility and medical virtues of the Artificial Mineral Water, as prepared by us, and which places us beyond the reach of envy or calumny.

HANNA and HAWKINS.

No. 1.

Baltimore, July 19, 1869.

Messrs. Hanna and Hawkins,

HAVING had frequent occasion to prescribe the Artificial Mineral Water manufactured at your laboratory, I take great pleasure in testifying to your virtues. I can assert, with truth, that my expectations have not been disappointed in a single instance, and I have no doubt, but (when judiciously administered) they will become a valuable acquisition to our city. I cannot but anticipate sufficient liberality and discernment in the citizens of Baltimore to remunerate you for your labour and expense, and beg of you to accept of the assurance of my disposition to promote the interest of so useful an establishment.

Signed NATHL. POTIER.

No. 2.

Messrs. Hanna and Hawkins,

THE establishment of your Artificial Mineral Water warehouse, cannot fail to be highly beneficial to such citizens of Baltimore as labour under debility of the stomach or bowels, with the various concomitant complaints of such affections. Long since the celebrated Bergman ascertained, that every natural mineral water could be successfully imitated by every intelligent chymist, if accurate analysis had discovered its component parts.

I am, Gentlemen, your obedient servant.

Signed JOHN CAMPBELL WHITE, M. D.  
Baltimore 22d July, 1869.

No. 3.

Baltimore, July 21, 1869.

Messrs. Hanna and Hawkins,

I AM of opinion, that the artificial mineral waters prepared under your direction, will be found highly beneficial to the citizens of Baltimore, and very little inferior in medicinal virtues to the natural mineral waters of our country. They are prescribed, therefore, by me, in all cases where mineral waters have proved salutary.

Your obedient servant,

Signed ASHTON ALEXANDER.

No. 4.

Messrs. Hanna and Hawkins,

IT gives me very sincere pleasure to find an establishment such as yours, so likely to become permanent in Baltimore; as it affords to invalids, whose cases require the use of mineral waters, an opportunity of receiving all the advantages they produce, without the necessity of taking a long journey to obtain them at their source. From the manner in which they are prepared, I do not consider them inferior to those produced from the Springs, and shall think it my duty to recommend them to all those whose cases require such remedies.

With every wish for your success, I remain,

Gentlemen, your obedient servant,  
Signed A. HAMILTON,  
N. Gay-street.

No. 5.

Messrs. Hanna and Hawkins,

HAVING examined the artificial water as prepared by you, I am of opinion they are a very good imitation of the natural waters of those Springs, and can recommend them as not only salutary but highly beneficial in all those diseases where the natural waters have been found useful.

Signed JAMES SMITH.

July 26th, 1869.

No. 6.

Messrs. Hanna and Hawkins,

YOUR preparations of mineral waters I consider near imitations of their originals, they will therefore, no doubt, be often referred to by the Faculty, and add very much to the comfort and convenience of the public.

Signed JNO. OWEN.

## FOR SALE;

That valuable Tract of Land commonly called

### THE BODKIN NECK,

WHICH originally consisted of several tracts, was re-surveyed by me about 12 years since, and called GIBSON'S INCLOSURE, containing about fifteen hundred acres, bounding on the east from the Bodkin-Point about four miles down the Chesapeake Bay to a long narrow beach connecting it with the estate on the north side of Magothly river where I occasionally reside, and from the said beach bounding on the south and west by Dorri's Creek and Cornfield Creek, on the north, and north west by a fence of half a mile from the head of Cornfield Creek aforesaid to the head of the Bodkin Neck, and with that creek and the river Patapsco to the aforesaid Bodkin-Point; thus this Tract of Land is enclosed completely by water and half a mile of fencing, being about 12 or 13 miles from the city of Baltimore, and about 16 miles by land, on a public road under the care of a supervisor, at the expense of the county. There are four farms on the different creeks, the out-fencing of which, with the Chesapeake bay, enclose about one thousand acres of the most valuable wood land I know on either side of the bay, and make a complete deer park, in which there is a stock of upwards of fifty head in fine healthy condition. To a gentleman of large fortune this compact and most valuable body of land would be a great acquisition, as it affords more natural advantages than almost any estate to be met with; its nearness to that great and increasing market of the city of Baltimore, navigation from every part of it, and the waters abounding with a great variety of wild fowl, ducks of different kinds, geese and swans, a great variety of fine fish, crabs and oysters, all in their different seasons. The timber on this estate consists chiefly of white oak, water oak, pine and chestnut, of the latter the whole of the fencing is made, and the land all level, well watered, and a good proportion of it suitable for meadow.

Should this land not be sold in the entire tract, it will, in a short time, be laid off in convenient lots of from 150 to 400 acres each, so as to suit purchasers, and render each compact and conveniently situated on the water. Any reasonable accommodation will be given purchasers as to payment. Gentlemen may see the plats at my occasional residence on the north side of Magothly river, and if I am absent, there will be a person to shew the plats and the land, and can be comfortably accommodated. Letters addressed to John Gibson, Annapolis, will readily reach me whether there or at Annapolis.

John Gibson.

Magothly, November 25.

## PUBLIC SALE.

THE Bodkin Neck, above described, will be sold at public sale, to the highest bidder, on Thursday the 23rd inst. if fair, if not, the next fair day. It will be laid off in small lots of from one to two hundred acres each, all bounding on the water, and in such way as that any person wanting more than one lot of that size, may purchase two or three, and they will make a compact body of valuable land, very conveniently situated. The terms of sale, are, that the purchaser or purchasers shall give notes with good securities, approved of by me, four-fifths of the purchase money at nine months, eighteen months, twenty seven months and three years; the other fifth of the money to be paid the day after the sale, when the deeds and notes will be executed at Annapolis, and a clear and indisputable title will be given. The sale will be held at the house of George Wallace, on the premises, about 16 miles from Baltimore, and will commence precisely at 12 o'clock. A cold snack, &c. will be provided.

JOHN GIBSON.

December 9.

A PROCLAMATION.

WHEREAS it has been officially represented to me, that negro Perry, otherwise called Peregrine, the proper slave of Elizabeth Rochester, and negro John, otherwise called John Armstrong, a free negro, who have lately been sentenced by the judges of Queen-Anne's county court to suffer death for murder; and negro Stephen, the proper slave of Joseph Sudler, made their escape on Sunday morning, the twelfth instant, from Queen-Anne's County goal: And whereas it is the duty of the executive, in the execution of the laws, to endeavour to bring all malefactors to justice, I have therefore thought proper to issue this my Proclamation, and do by and with the advice and consent of the council, offer a reward of THREE HUNDRED DOLLARS to any person or persons who shall apprehend and bring to justice the said negroes Perry, John and Stephen, or one hundred dollars for either of them.

GIVEN under my hand, and the seal of the state of Maryland, this twenty-fourth day of November, in the year of our Lord one thousand eight hundred and nine, and of the Independence of the United States of America the thirty-fourth.

EDWARD LLOYD.

By his Excellency's command,  
NINIAN PINKNEY, Clerk of the Council.

The following is a description of the above mentioned criminals, transmitted to his Excellency the Governor, by the sheriff of Queen-Anne's county.

Negro Perry, otherwise called Peregrine, the proper slave of Elizabeth Rochester, is about twenty-three or four years old, very dark complexion for a mulatto, about five feet ten inches high, very well made, but a little round shouldered, has a scar over one of his eyes, (not certain which,) occasioned by the kick of a horse; a thin and very black beard, with long whiskers that extend to the end of his chin, also a very bushy head. He took with him the following clothing, a coarse muslin shirt, dull kersey trousers, and coat of a light drab colour, two waistcoats, one of black cloth and the other of yellow striped Marcellis, a light drab great coat, with a large double cape, about half worn, a fine pair of shoes, very long quartered and sharp toes, and furred hat. It is said that he has a number of other cloths of a good quality—he also has a silver watch, the case very much battered and and bruised, but has no chrysal in it, a black ribbon chain and brass key—it is also said that he has two other watches, one of them silver and the other gold or pinchbeck, which cannot be particularly described.

Negro John, otherwise called John Armstrong, free negro, is supposed to be upwards of thirty years of age, a very bright mulatto, thin visage, very high cheek bone, large black beard, small thin whiskers, and very large white eyes; has a very stern look, a large mouth, his lips not very thick; he is about five feet eight or nine inches high, has a scar on his breast, one of his arms very knobby from being blind. Had on the following cloaths, tow linen shirt and trousers, old short blue coat, light cloth waistcoat, old shoes, a toram hat better than half worn.

Negro Stephen, the proper slave of Joseph Sudler, is about thirty years old, five feet nine or ten inches high, of yellow complexion, very high forehead, flat nose, stout and well built, rather round shouldered, very full and bluff face, large black whiskers, rather a down look, and is apt to smile when spoken to. Had on a tow linen shirt, white kersey trousers, and round robbin jacket, a pair of coarse round toed shoes, double soled, almost new, and a wool hat about half worn.

ORDERED, That the foregoing Proclamation be published twice in each week, for the space of four weeks, in the American and Federal Gazette, a Baltimore, the Maryland Gazette and Maryland Republican at Annapolis, the National Intelligencer, the Eastern Star, Mr. Greaves's paper at Hagerstown, and in Mr. Hartig's paper at Frederick-town.

By order, NINIAN PINKNEY,  
Clerk of the Council.

Ann Arundel County, to wit.

I HEREBY CERTIFY, THAT JOHN SMITH brought before me the Subscriber, one of the justices of the peace for said county, as a stray, trespassing on his enclosures near Annapolis, A BAY MARE, about six or seven years old, near thirteen hands high, a star in her forehead, a snip on the nose, and a small saddle spot; her mane and tail crop't short; paces and canters. Given under my hand this 9th day of December, 1869.

Gideon White.

The owner of the above described mare is requested to come, prove property, and take her away.

THE PROPRIETORS  
OF THE

## Mineral Water Warehouse

Are now engaged in the introduction of all the Medical Gases, which have been administered with the greatest success in England, by Drs Beddows, Thomson, Stranger, Dobson, and Samuel Valey, professor of chemistry, and many others. That the public may form some idea of the efficacy of those Gases, they submit the following extract of a letter from Mr. Valey to his daughter, Mrs. Hawkins; as well as several extracts from the manuscript of his lectures, delivered in London.

Carington House, Jan. 19, 1869.

My dear Jane,

If you could make a connection with a medical person of character, who would deal honorably with you, I think you might introduce the Medical Air with advantage to yourself and the public. The greatest cures that have of late been effected with them, is truly astonishing, in almost every species of inflammation; even inflammation of the brain, in a case where every other application was defeated of. Deafness of more than 20 years standing; and in the most obstinate cases, when every medical application had failed; in putrid fevers and in mortifications. You will know many others, so that I need not mention them particularly, as well as the great cure you effected in Fifth Street (Soho) square, when fallvation had been tried without effect.

Extract from Lecture No. 10

Gentlemen,

I shall begin my narrative with the case of Mr. Newman—He was dangerously hurt in his leg by his stable boy; the wound increased rapidly—his leg up to his knee was full of ulcers—there was no want of chymical assistance, but all attempts towards his cure proved fruitless. He was advised to go to Bath, where he bathed and drank the waters, from whence in three months he returned rather worse, and so continued for three years. At last I was consulted, and had the happiness of curing him by the application of Medical Gas.

From page 36.

Mr. Wilson's mainly was also very remarkable, which was the Legumity of 23 years standing. He was full of four and ulcers, in some parts were holes which gave out pus—his back was particularly offensive. He heard of Dr. Thomson's recommending Leticious air, and for this reason he called for my assistance. I administered to him a species of Medical Gas, with as equal success as in all preceding cases, and it deserves particular notice, that the cure was effected radically, though the Gas was applied only to one leg and one thigh.

From page 39.

Another instance to prove that Facitious Airs may be employed with salutary effect, I have experienced in a lady labouring under an Othitis—She was given up as lost and incurable by the physicians. I administered to her the Hydrocarbons; she recovered, and is now perfectly well.

From page 40.

Oxygen is of a great use in asthmatic complaints. A Mr. Hall, one of the life guards at St. James's, had long laboured under this disease, given over by his physician, and intended to go to Nottingham, his native place, to die amongst his friends; he was told of oxygen gas, and applied to me—I had a small portion prepared for another purpose, which I willingly gave him. He came the next morning, felt much relieved, and had a better appetite for his food. I administered to him another portion, and so on successively for some time; he was cured, and has been well for several years past.

I also administered the oxygen gas with equal success to Sir H. Fletcher, Sir Richard Neave, Dr. Lynd, Lady Stanhope, &c. &c. who were all cured (by inhaling this gas) of this or other complaints.

Many other striking instances might be referred to, in fealded heads, mortifications, debility and pulmonary affections; but the foregoing are deemed sufficient to prove the utility of the gases, which can be taken with the greatest safety and ease, without any disagreeable sensations. Those who wish to be further satisfied, can see the manuscript from which these extracts were taken.

It is not the intention of the subscribers to administer these gases indiscriminately, and that they may not be accused of using them empirically, they will refer in all cases to Dr. Potter, and other eminent physicians, who are well acquainted with the theory of Drs. Hay, of Leeds, Dobson, of Liverpool, Beddows, Stranger and Thomson, of London, who have all administered them with the greatest success, in Europe.

The Gases will be prepared and administered by the subscribers at No. 11, South Calvert street, in private rooms appropriated for that purpose.

HANNA & HAWKINS.

Hours of attendance from ten till one o'clock, and from three till six, daily.

November, 14.

And whereas it is of the greatest importance to society that the perpetrator or perpetrators of such a crime should be brought to justice, I have therefore thought proper to issue this my proclamation, and do, by and with the advice and consent of the Council, offer a reward of TWO HUNDRED DOLLARS to whoever will discover the author or perpetrator of the said offence, provided, he, she, or they, or any of them, be convicted thereof.
