BY HIS EXCELLENCY

EDWARD LLOYD, ESQUIRE,

COVERNOR OF MARYLAND.

[No. 35.

PRINTED AND PUBLISHED BY JOHN W. BUTLER, PRINTER OF THE Laws of the United States.

CONDITIONS

OF THE

MARYLAND REPUBLICAN.

LHE MARYLAND REPUBLICAN is published Twicz a week during the annual sessions of Assembly, and once a week during the remainder of the year. Its regular day of weekly publication is Saturday; and, during the Sossion of Assembly, Tuesday and Seturday.

The terms are three dollars per annum; the first year payable six months from the date of subscription-to continue half-yearly in advance. The Editor confidently trusts that Subscribers will be particularly attentive to PUNCTUALITY in their payments, as that can alone enable him to meet those necessary and unavoidable expences naturally resulting from such an establishment.

All communications (post-paid) from literary gentlemen, will be thankfully received; and, if admissible, shall receive immediate attention.

_

MINERAL WATERS.

W E are happy to present to the public the following respectable and satisfactory tellimony from some of the most eminent physicians of Bul timore, which must sufficiently establish the utility and medical virtues of the Artificial Mineral Waters, as prepared by us, and which places us beyond the reach of envy or calumny.

HANNA and HAWKINS.

BALTIMORE, Jul. 19, 1609.

Meffer. Hava and Hanking, HAVING had frequent occasion to prescribe the factitious waters manufactured at your laboratory, I take great pleasure in tellisying to their virtues. I can affert, with truth, that my expectations have not been disappointed in a single instance, and I have no doubt, but (when judiciously adminissered) they will become a valuable acquilition to our city. I cannot but anticipate sufficient liberality and disceniment in the citizens of Biltimore to remunerate you for your labour and ca penfe, and beg of you to accept of the affurance of my disposition to promote the interest of so useful an eil iblilhment.

Signed NATHL, POTTER-

Mefrs. Hornz and Hambies. THE eliablithment of your fastitions mineral water warehouse, cannot fail to be highly beneficial to fuch citizens of Baltimore as labour under debility of the flomach or bowek, with the various concomitant complaints of fuch affections. Long since the celebrated Bergman shewed, that every natural mineral water could be fucces-fully imitated by every intelligent chymist, if accurate analysis had discovered its component parts

Iam, Gentlemen, your chedition it. JOHN CAMPBELL WHITE, M. D. Baltimore 222 July, 1809.

BALTIMORE, July 21, 1809.

McJes. Hanta and Hawkins,

I AM of opinion, that the artificial mineral waters prepared under your direction, will be found highly beneficial to the citizens of Bultimore, and very little inferior in medicinal virtues to the natural mineral waters of our country. They are prescribed, therefore, by me, in all cases where mineral waters have proved falutary. Your obedient ferrant.

Signed ASHTON ALEXANDER.

- Meffes Hanna and Hawkins,

If gives me very fincere pleafure to find an establishment such as yours, so likely to become permanent in Baltimore; as it affords to invalide, whose cases require the use of mineral waters, an opportunity of receiving all the advantages they produce, without the necellity of taking a long journey to obtain them at their fource From the manner in which they are prepared, I do not consider them inserior to those produced from the Springs, and shall think it my duty to recommend them to all those whose cases require fuch remedies.

With every with for your fuccess, I temain, Gentlemen, your obed't ferv't, Signed

A. HAMILTON, N. Gay-street.

Maffee. Hanna and Hawkins HAVING examined the artificial water as prepared by you, I am of opinion they are a very good imitation of the natural waters of those Springs, and can recommend them as not only falutary but highly beneficial in all those diseases where the natural waters have been found useful JAMES SMITH. Signed

July 26th, 1809.

Eleger Harna and Hawkins,

YOUR preparations of mineral waters I confil der near imitations of their originals, they wil therefore, no doubt, be often referred to by the Faculty, and add very much to the comfort and convenience of the public. JNO..OWEN.

Signed August 2.

The above WATERS are fold, by appoint ment, by JOHN WELLS, Druggist, Churchfireet, Annapolis, in bottles, containing a quart

September 23, 1809.

FOR SALE,

Thut valuable Tract of Land commonly called

THE BODKIN NECK,

W HICH originally consisted of several tracts, was re-surveyed by me about 12 years since, and called GIBSON's IN-CLOSURE, containing about fifteen hundred acres, bounding on the east from the Bodkin-Point about four miles down the Chesapeake Bay to a long narrow beach connecting it with the estate on the north side of Magothy river where I occasionally reside, and from the said beach bounding on the south and west by Dorril's Creek and Cornfield Creek, on the north, and north west by a fence of half a mile from the head of Cornfield Creek aforesaid to the head of the Bodkin Creek, and with that creek and the river Patapsco to the aforesaid Bodkin-Point; thus this Tract of Land is enclosed completely by water and half a mile of fencing, being about 12 or 13 miles from the city of Baltimore, and about 16 miles by land, on a public road under the care of a supervisor, at the expense of the county. There are four farms on the different creeks, the out fencing of which, with the Chesapeake hay, enclose about one thousand acres of the most valuable wood land I know on either side of the bay, and make a complete deer park, in which there is a stock of upwards of fifty head in fine healthy condition. To a gentleman of large fortune this compact and most valuable body of land would be a great acquisition, as it affords more natural advantages than almost any estate to be met with; its nearness to that great and increasing market of the city of Baltimore, navigation from every part of it, and the waters abounding with a great variety of wild fowl, ducks of different kinds, geese and swans, a great variety of fine fish, crabs and oysters, all in their different seasons. The timber on this estate consists chiefly of white oak, water oak, pine and chesnut, of the latter the whole of the fencing is made, and the land all level, well watered, and a good proportion of it suitable for meadow.

Should this land not be sold in the entire tract, it will, in a short time, be laid off in convenient lots of from 150 to 400 acres each, so as to suit purchasers, and render each compact and conveniently situate on the water. Any reasonable accommodation will be given purchasers as to playment. Gentlemen may see the plats at my occasional residence on the north side of Magothy river, and if I am absent, there will be a person to shew the plats and the land, and can be comfortably accommodated. Letters addressed to John Gibson, Annapolis, will teadily reach me whether there or at Annapolis.

John Gibson.

Magothy, November 25.

PUBLIC SALE.

THE Bodkin Neck, above described, will be sold at public sale, to the highest bidder, on Thursday the 28th inst. if fair, if not, the next fair day. It will be laid off in small lots of from one to two hundred acres each, all bounding on the water, and in such way as that any person wanting more than one lot of that size, may purchase two or three, and they will make a compact hody of valuable land, very conveniently situated. The terms of sale, are, that the purchaser or purchasers shall give notes with good securities, approved of by me, four-fiths of the purchase money at nine months, eighteen months, twenty seven months and three years; the other fifth of the money to be paid the day after the sale, when the deeds and notes will be executed at Annapolis, and a clear and indisputable title will be given. The sale will be held at the house of George Wallace, on the premises, about 16 miles from Bultimore, and will commence precisely at 12 o'clock. A cold snack, &c. will be provided.

JOHN GIBSON. December 9.

PUBLIC SALE.

BY order of the Orphan's Court of Prince George's county, will be exposed to PUBLIC SALE on Friday, the 22d of December, if sair, if not the next fair day thereafter, at the late dwelling of Isaac Landsdale, deceased, the following property, to wit-a number of valuable Negroes, consisting of Men, Women and Children; Horses, Cattle, Sheep and Hoge, plantation utensils, house and kitchen furniture, and a variety of articles too tedious to enumerate.

The terms of Sale are twelve months credit for all sums over Twenty Dollars, the purchaser giving bond with approved security; and all sums under Twenty Dollars, the money to be paid on the day of sale.

CLEMENT BROOKE. Admr's. DENNIS BOYD, December 2.

A PROCLAMATION. WHEREAS it has been officially represented to me, that negro Perry, otherwise called Peregrine, the proper slave of

Elizabeth Rochester, and negro John, otherwise called John Armstrong, a free negro, who have lately been sentenced by the judges of Queen-Anne's county court to suffer death for murder; and negro Stephen, the proper slave of Joseph Sudler, made their escape on Sunday morning, the twelsth instant, from Queen-Anne's County gaol: And whereas it is the duty of the executive, in the execution of the laws, to endeavour to bring all malesactors to justice, I have therefore thought proper to issue this my Proclamation, and do by and with the advice and consent of the council, offer a reward of THREE HUNDRED DOLLARS to any person or persons who shall apprehend and bring to justice the said negroes Perry. John and Stephen, or one hundred dollars for either

Given under my hand, and the seal of the state of Maryland, this twentyfourth day of November, in the year of gur Lord one thousand eight hunand nine, and of the Independence of the United States of America the thirty-fourth.

EDWARD LLOYD. By his Excellency's command. NINIAN PINKHEY, Clerk of the Council.

of them.

The following is a description of the above mentioned criminals, transmitted to his Excellency the Governor, by the sheriff of Queen-Anne's county.

Negro Perry, otherwise called Percgrine, the proper slave of Elizabeth Rochester, is about twenty-three or four years old, very dark complexion for a mulatto, about five fect ten inches high, very well made; but a little round shouldered, has a scar over one of his eyes, (not certain which,) occasioned by the kick of a horse; a thin and very black beard, with long whiskers that extend to the end of his chin, also a very bushy head. He took with him the following clouthing, a coarse muslin shirt, sulled kersey trowsers, and coat of a light drab colour, two waistcoats, one of black cloth and the other of yellow striped Marseilles, a light drab great coat, with a large double cape, about half worn, a fine pair of shoes, very long quartered and sharp toes, and furred hat. It is said that he has a number of other cloaths of a good quality—he also has a effect watch, the case very much battered and and bruised, but has no chrystal in it, a black ribbon chain and brass key-it is also said that he has two other watches, one of them silver and the other gold or pinchbeck, which cannot be particularly descri-

Ivegro John, otherwise called John Armstrong, free negro, is supposed to be upwards of thirty years of age, a very bright mulatto, thin visage, very high check bone, large black beard, small thin whiskers, and very large white eyes; has a very stern look, a large mouth, his lips not very thick; he is about five feet eight or nine inches high, has a scar on his breast, one of his arms very knotty from being bled. Had on the following cloaths, tow linen shirt and trowsers, old short blue coat, light cloth waistcoat, old shoes, a

roram hat better than half worn. Negro Stephen, the proper slave of Joseph Sudler, is about thirty years old, five feet nine or ten inches high, of yellow complexion, very high forehead, flat nose, stout and well built, rather round shouldered, very full and bluff face, large black whiskers, rather a down look, and is apt to smile when spoken to. Had on a tow linen thirt, white kersey trowsers, and round robbin jacket, a pair of coarse round toed shoes, double souled, almost new, and a wool hat about half worn.

ORDERED, That the foregoing Proclimation be published twice in each week, for the space of four weeks, in the American and Federal Gazette, at Buisource the Maryland Genetic and Maryland Rapublican of Annaports, the Violismal Intelligences, the East ton Star, Mr. Grieves's poper at Hagar's-town, und is Mr. Bartgis's paper of Frederick-town

By order, NINIAN PINKNEY, Clirk of the Conneil

Ann Arundel County, to wit.

I HEREBY CERTIFY, THAT JOHN SMITH brought before me the Subscriber, one of the justices of the peace for said county, as a stray, trespassing on his enclosures near Annapolis, A BAY MARE, about six or seven years old, near thirteen hands high, a star in her forehead, a snip on the nose, and a small saddle spots her mane and tail crop't short; paces and canters. Given under my hand this 9th day of December, 1809. . .

- Gideon White. The owner of the above described mare is requested to come, prove property, and take her away.

JOHN SMITH. December 16,

THE PROPRIETORS

Mineral Water Warehouse

Are now engaged in the introduction of all the Medical Gaffes, which have been administered with the greatest success in England, by Drs. Beddows, Thornton, Stranger, Dobson and Samuel Varley, professor of chemittry, and many others

That the public may form some idea of the efficacy of those Gasses, they submit the following extract of a letter from Mr. Varley to his daughter, Mrs. Hawkins; as well as several extracts from the manufcript of his lectures, delivered in London.

* Chesertag House, Jan. 19, 1809.

My dear Jane, If you could make a connection with a modical person of character, who would deal honorably with you, I think you might introduce the Medical Airs with advantage to yourfelf and the public The greatest cures that have of late been effected with them, is truly affonithing, in almost every species of inflamation; even inflamation of the brain, in a case where every other application was despaired of Dealack of more than 20 years flanding; and in the most obfinate ulcers, when every medical application had failed; in putrid fevers and in mortifications. You well know many others, so that I need not mention them particularly, as well as the great cure you effetted in Frith-ftreet (Soho) fquare, when falivation had been tried without effect.

Extract from Lecture No. 10.

one thigh.

I thall begin my narrative with the eafe of Mr. Newman-He was dangerously hurt in his legby his stable boy; the would increased rapidlyhis leg up to his knee was full of ulcers—there was no want of chirargical affillance, but all attempts towards his cure proved finitless. He was Edvited to go to bath, where he bathed and drank the waters, from whence in three months he returned rather worle, and to continued for three gears. At last I was consulted, and had the hap-Jinels of curing him by the application of Me-Kita! Gus.

From page 500 Mr Wilfin's malady was also very remarkable, which was the Lepi My of 25 years flanding. He was full of fores and wicers, in some parts were holes which gave out put-his back was partieu tails offenfire. He heard of Dr. Thornton's recommending factionous airs, and for this reason he ealled for my attituice. I administered to him a species of Medical Gals, with as equal success as in all preceding cales, and it deferves particular notice, that the cure was effected eradically, though the Gass was applied only to one leg and

From page 53.

Another inflauce to prove that Factitious Airs may be employed with Liutary effect, I have expersenced in a lady labouring under an Ohthilis-She was given up as infl and incurable by the phy-Grians. I administered to her the Hydrocarmonate; the recovered, and is now perfactly well.

Latine 4, page 20 Oxygene is of a great ute in afthmatic complaints. A Mr Hill, one of the life guards at St. James's, had long lingered under this diferia, given over by his physicians, and intended to go to Nottingham, ha tetive place, to die amongs his friends; he was told of paygene gals, and applied to me-I had a 'fmall portion propared for air ther purpose, which I willing's gave him. He came the next morning, fe't much relieved, and had a better appetite for breakfast. I administered to him another pattion, and to on fuece Evely for some time; he was cured, and has been well for feveral years paff.

I also administered the oxygene gass with equalfurerft to Sir H. Fletcher, Sir Richard Neave, Dr. Lynd, hady Stanhope, we were all cured (by inhaling this gass) of this or other com-

Many other firiking inflances might be referred to, in scalded heads, mortifications, debility and pulmonic affections; but the firegoing are deemed sufficient to prove the utility of the galles, which can be taken with the greatest fafety and case, without any disagreeable lensations. Those who wish to be further fatisfied, can fee the manuseript stein which these extracts were taken.

It is not the intention of the subscribers to administer these gases indiscriminately and that they may not be accorded of using them empyrically, they will refer in all cases to Dr. Potter, and other eminent Physicians, who are well acquainted with the theory of Drs. Hay, of Leeds, Dobson, of Liverpool, Beddows, Stranger and Thornton, of London, who have all administered them with the greatest success, in Europe

Those Gasses will be prepared and administered by the subscribers at I'm 11, South Calvert Street, in private requas appropriated for that purpole.

HANNA & HAWKINS.

Hours of attendance from ten till one o'clock, and from three till six, daily. Nurember, 14.
