have valuable friends in England, indeed from
your deserved merit. All my desire is, Your half Yearly
payment with acceptance on Your Correspondence in
London, as it shall become due according to the date
of my Commission, which I expect You will favour me in
by the first advice.

All affairs wait with the Lord Proprietarys Guardians
in expectation, as may have arisen by the authority
of their Commission and Instructions to Mr. Cyle as
Governor.

As the articles of the late Lord with the Pen ns,
here are regarded void by the Demise of his Lordship,
he being only Tenant for life, so as not to bind his
Son, & is hoped, the new Lord will obtain from his Ad-
versaries better terms; In order there to Your advice
and Service, as it has been, is and will be of great im-
portance, as such it will be always a sensible satisfaction
and Pleasure to be instructed from You in all things
relative to the Proprietarys affairs; Your correspondence
therein will be with particular Esteem Regarded by him
who is

Your faithful Friend & humble
Servant.
