

Evidence or corroborating Proof by the Memorialist
 set forth as can be productive of any circumstance
 supported from Truth to that part of his charge
 levelled against the late Lord Proprietary & two of
 his Governors; So as to impeach their Administration
 For the Fallacy of his charge does plainly appear
 against them, by authentic Evidences already sent
 by Mr. Taster; therefore I shall at present refer You
 to some Remarks thereon, as will not only clear them
 but also all other officers charged by the Memorialist,
 which I have inserted in my Letter to Mr. Taster
 dated the 14th of September last n. s. for the completion
 of Evidences to be sent over entirely to confute such
 charge.

I proceed next on the Memorialist's charge relating
 to the Jesuits in Maryland, and your answer thereto.

He says, The Jesuits are possessed with large Tracts
 of Land & have six or seven fine Houses. &c.

To which you Reply, "I find it true, that they have
 four or five Seats, & are seized of some large Tracts
 of Land; But cannot find out how this can be offered
 as an Instance to show they are favoured by it."

You then set forth That, "This Country was granted to
 Cecilus Lord Baltimore by King Charles the First, and
 by the Royal Charter it is expressly provided, that People
 professing in Jesus Christ might settle there."

That, Priests were either brought in with Adventurers
 or very soon after, they like others.... applied to the
 proper
