May it please
 Your Excellency In obedience to your Excellency commands of the 29: of July have made
 what progress I am possibly in the discovery of the Intend: Rebellion, and how
 Inclined for your Excellency some Dispositions tending to that effect, the Prisoners com-
 mitted into custody of Major: Boardman are William Boyden and Nicholas
 B: D: but it is much suspected that Lieutnant George Godfrey is Ring leader
 of this Division, I cannot bring Boyden to own: it but upon his Examination
 I conceive the truth will be known, he doth say he will rather suffer than accus:
 another, it was thought Mr Morris was concerned therein but conceiveth hath
 been much abused in that very particular having duty & animus him and
 all others that did any way approach him, and do: find him very diligent
 to search out the first Inventor of this Design: I have sent your Excellency
 the list of the names of the persons that were intended to meet at the Croop
 at the head of Portobacco Creek: According to the best Information I have
 to offer your Excellency upon further discovery shall give notice as opportunity
 doth present, with the representation of my due obedience. Subscrib:
