Mr Chandler

Sr This is to give you to understand that last night the Forreign Indians did robb mr of Linnen, Blanketts, and wearing cloth and other things to the value of Thirty pounds sterling, they have not left me any clothing but what I had on and almost all the chiefest of our Linnen and they have taken away Eleven Pascattoway Indians being Men and women and Children, every room in the house they have ransacked & expect every hour to be cutt off, or at least they will take away remainder of what they have now left except some speedy course be taken wch I have small hope to expect; not the less respects from

Your Serv.t
Wm: Hussey.

May it please
Your Hon.r

I am informed that there came yesterday a Ply of the Sunniquo Indians to Mr Henry Hawkins house and took away an Indian man of his a Pascataqua where he was at work in the Shopp and carried him away with them, they were supposed to be about fourty in number; this was a Ply of them which is supposed to be the same but more in number at Mr Hugeys, for Mr Hussey said there came about fourty to the house besides a great many which was all round the Plantation — what injury they have done him you will be certified by the Inclosed note from under his hand, I understand he was not at home when it was done neither was there ever a man about the house save One, who seeing an Indian taking away a Blankitt offered to hould it, whereupon the Indian lifted up his Cuttlass at him and forced him to let go: his hold — they were also at a poor mans house not farr from hence whose name is Robert Loftus, there they killed his Dogg and three hoggs and came about the house knocking on it with Sticks and Trunchions, the man with his wife and Children being in the house made noyse and thereupon the Indians went away, only the man is afraid they have killed his Son for looking over his pasture (which is but small) he can't find her, they were likewise at a Plantation of Capt. Kendalls hard by there where they have Robbed them, but of what or how much I can't be certaine. Save two hoggs they killed, the Inhabitants hereabouts are in greate fears many of them are drawing off from their Plantations, who are much troubled at this sudden (but not unexpected News) They doe say that if your Hon.r doe not take some speedy course to secure them they are afraid it may tend to the loss of both their lives and Estates, if your Hon.r think fitt to send your ord.rs for the Inhabitants to draw together it will be very requisite. the rest all at present in haste) from Portobacco the 9th of Sept.r 1681:

Your Hon.rs most humble and obedient Serv.t
Wm Chandler
