

would, as of this night in a thicket of Woods —  
near that place but the noise of some body coming  
by frightened him and thereupon he immediately  
sprang away and he has never since been seen.  
Believes the horse Carke was upon was Benj.  
Bells who is overseer at Mr. Taylors Quarter, and

Advised that Silvester Welch give the said  
Carke a meeting this night and giving his  
Enemy an account thereof to morrow morning.

The Enemy asks the boarde if they think it  
fitting the Guarde should be discharged from  
the Magazine and prison —

To which the boarde do say it would be very  
unreasonable at this time upon so many  
Informations of Richard Carke's practices &  
threats and therefore advise his Enemy that  
the said Guarde be continued as thought  
absolutely necessary for the security of the Country.

Then was read the report about St. Marys  
County Court house, <sup>order thereon</sup> as follows viz —
