

Copy his Lordships Instructions to Mr Nicholas
1665

When you 12th Instruction formerly sent
your Brother Sir Isaac Low he was particularly directed
before he made out any lease or leases of any part of the
Surrey manors therein named to be referred to the
particular of Mr George Talbot to consult Mr Sturmon
Altho' my Will now is that no Lease or Leases be made
thereof without my further Orders having some thoughts
to grant out the Substantia of some parts thereof to the
Supte that are carrying on the Town Works thereabouts
You are therefore as soon as possible to send me a good
an account as you can of the value of those Lands by the
Use which I have considered that I may know the
better on what Terms to dispose of them than in the mean
time I would not have the expectation of the people in
the least but that the said Lands will be shortly par-
cell'd out by Lease to such persons as are willing to pay
reasonable Considerations for the same

After reading the foresaid Instructions his Ex^{ty}
acquainted the Board that Mr Nicholas Low desired
their Advice and opinion how he should act with Refe-
rence to those Instructions there having been several
Leases made out tho' not yet delivered and several Sur-
veys returned pursuant to the form of those Instructions

The Board taking the same into their Consi-
deration are of opinion notwithstanding the prohibition
in his Lordships latter instruction that it is expedient
according to his Lordships own sense of it in the Case
