

Royal Consort our humble Congratulations your Lordship's kind Compliance with our former Requests leave us no Room to doubt your Inclination to oblige us on every occasion We therefore take the Liberty to transmit to your Lordship the Addresses We have prepared to Their Majesties and intreat the Favour of your Lordship to present them

Henricus Hooper Secy. Governour
Benjamin Tasker Secy. of the Council

His Excellency lays before this Board the following Letter

Sir

Philadelphia 2^d October 1762.

The six Nations having taken a Resolution to continue the War against their old Enemies the Cherokees, their Chiefs requested of me at the Treaty lately held with a large body of them and the Western Indians, that I should open a Store for the accommodation of their Warriors at Harris's Ferry, and that I would forward their Request to you, to have another opened at Creswaps on Potomack.

Conformable therefore to my Promise, I sent you an Extract of what passed between us on that Occasion, together with their Belts; and as they will expect an answer from you with all convenient Speed, I think if you would be pleased to send it under Cover to Sir William Johnson, he would take the first Opportunity of conveying it to the Six Nations.

You will observe by the Extract that the Warriors intended to go through the settled part of Cumberland County, and through the very Country, in which they had committed so many cruel Outrages, but that they altered their Design on my representing to them the Dangers of taking such a Route.

Governour Shaepe

Sir

I am with the greatest Respect

Your most Obedient & humble servant

James Hamilton

Extract from the Treaty held with the Indians at Lancaster in the Month of August 1762

The Governour's Answer to the Six Nations

Brethren

By the relation you gave me at Boston in 1758, when you was relating the Causes of the War, it appears that you were of Opinion, One of the principal reasons, which made you join the French against us, was owing in a great Measure to the ill treatment
