

Provide every thing for the Warriors; for his Father used to maintain all the Indians ⁱⁿ this
that raped and repaid that way. he likewise tell me if the governor would let him know what
he must do, and if he should be allowed to do this, he would provide for the Warriors. We now
desire that he may be the Person appointed to receive Repages, and that you would acquaint
the Governor of Maryland with this, that the Warriors may pay and repay that way
without any Molestation.

A. Bell of 7. Pow.

Six

Ordered that the following Letter be sent to Sir William Johnson

Annapolis 25th of November 1762.

Governor Hamilton having lately sent me an Extract of a speech that was
made to him by the Six Nations at the Lancaster Treaty last summer, by which I observe
they desire One Daniel Garsap of this Province may be ordered to keep a Stockhouse on Otomack
near the Road their Warriors pass on their Expeditions against the Southern Indians,
I take the liberty to send you a Copy of the Extract and to desire your Opinion of their
Intention in making such applications for if they ask no more than that Daniel
Garsap may be permitted to trade with and sell their Parties as they shall pay or repay
such Articles as they may want, he is at Liberty to do so without any special License
from me, there being no Law to restrain such Trade but if what they want is that the
abovementioned Person may be empowered to Supply their Parties quantis or at the Payment
of the Province with such goods as they may apply for, I cannot take upon myself to give
him orders to that Effect and am much afraid that the Assembly should recommend the
Matter to them would not subject their Constituents to such an Expence; however to
prevent any Disputes between such Parties of Indians and the Inhabitants in Case they
should want Provisions as they pass through this Province, I have recommended it to
M^r Thomas Garsap the Father of the Person abovementioned, who lives about fifteen miles
on this side Fort Cumberland to furnish with necessary Provisions such Indian Travellers
as may apply to him, and I have Promised to lay his Accounts before the Assembly for
Payment hoping they will not object to making him Satisfaction though at the same time
I wish those Indians when they go to the Southward could be prevailed on to take their Road
which in my opinion is equally convenient to them; by the Way of Fort Cumberland, where I
understand One of the Kings Officers still resides in the Character of Capt Major, and is I
Presume authorized and enabled to receive and entertain such Friendly Indians as may
at times take Occasion to call at that Place as I shall decline returning any Answer to the
Indians Request till you shall be pleased to communicate to me whether I may then take
the liberty to Address my Answer to you or by what other means I may convey it to them

I am Sir with great respect &c
