

Dear Sir,

Belfield May the 5th 1769.

The Bearer of this letter desired I would Recommend them to you as they are going to War against their Natural Enemies the Southern Indians that you would give them a Pass to go through Virginia, and Recommend them to the Peoples Hospitality. And as the War between the Northern and Southern Indians may Employ those redif Savages against each other if the Province would allow them some little provisions as they Pass and Cross their Frontiers I am of Opinion it would answer a good End

To conclude with my Compliments to you Yours

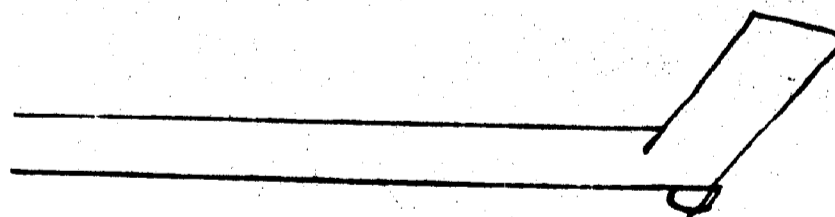

To
Col. Thomas Cresap, at the Old Town

Geo. Croghan

Old Town Frederick County May 15th 1769

Brother Jockeryhogan

At a Treaty held at Philadelphia in 1762. We desired we might be furnished with Provisions, Powder, Lead, Paint, Tobacco and a few Knives, as we Pass through the Frontiers of this Province, to and from War; and requested these Necessaries might be delivered to us by Col. Thomas Cresap, or his Son Daniel, at this place, which is in our Road as we go and come. This was promised to us by the great men at the said Treaty, and we doubted not their performance of that Promise; but now we are come here we find nothing but what said Cresap has given us on his own account vizt. some victuals, a few Knives and some Tobacco, therefore We desire our request may be complied with, which will prevent our taking any thing from the Poor Inhabitants
