

Read the conviction of Negro Dick and the following Letter from Charles Grahame Esq^r relative to the said
Negro Dick's setting fire to and Burning the Tobacco House and Tobacco therein contained Belonging to a cer-
tain John Smith of Calvert County Master of the aforesaid Negro ~

Sir On Sunday last I received your favour of the 26th Ultimore Want of an Opportunity to forward an
Answer has till now prevented my Writing. When the Negro Woman belonging to John Smith was
Convicted, the Court made what Enquiry they could into her Character, She appeared but little sensible
of her Situation at her Trial and after it was over. And the Court directed the representation to his Ex-
cellency, which accompanied the Record of her Conviction, her Youth and Confession of the Fact appearing to
be the only Circumstances in her Favour. It appears that Mr. Smith being absent from the Plantation, the Negro
drove some Cider out of a Cask in an Out House and left it running, this being discovered before Mr. Smith
returned home, her Mistress threatened to tell her Master and have her whipped. The Wench during her
Master's absence applied several times to her Mistress begging forgiveness for this fault and praying
she would conceal it from her Husband, but she refused. On this refusal and despairing of better Suc-
cess on repeating her Application, the Negro went into the Kitchen took a live Coal from the Fire, carried it
between two Chunks to the Tobacco House, which was but a small distance and of a low Pitch and appli-
ed it to some Corn Fodder which was under the Eves of the House, and the Wind blowing hard, blew
up the coal which immediately kindled the Fodder and the Tobacco together with the House, the Boul-
ding House and some other Bathhouses were entirely consumed. The Conflagration was so sudden
and but few People on the Plantation that but Little of the Household furniture was saved. On Mon-
day last Mr. Smith came to my House and begged I would apply to the Governor for his Excellency Par-
don for the Wench, telling me if the Negro is Executed she never can forgive herself for obstinately Per-
sisting in her threats of having her punished for the Fault she had committed, that she knows not whether
she may not have been intoxicated with the Liquor she drew and that she has heretofore behaved herself as
well as Negroes in common do, Mr. Smith too is willing that His Excellency shew her Mercy. This is
the best and fullest Information I can give in this matter and to enable his Excellency to determine on the
Pardon I must not Omit to mention that there have been two other Tobacco Houses full of Tobacco Burnt
in this County this Winter, One of them belonging to Mr. Eleanor Harrison, there is great Reason to sus-
pect this was set on fire by her Negro Man Jack now in Prince Georges County Goal, he lately escaped out
of the Prison of this County to which he had been committed for a Theft, and Mr. John Kent the Brother of
the other suspect has to have been set on fire by some Person with design to prejudice him, as it was burnt
at a time when none of the family had had fire in it for a great while preceding the accident.

Calvert County 3d May 1706.

To Doctor Upton Pick
Clerk of the Council.

The Consideration of the above Matter is further postponed until the next Meeting.

I am very respectfully

Your most obedient Servt
Charles Grahame
