

Light the King's Federalist and the Eastern Herald.

and a new commission given to said County, including them.

United Mr. A. Jones and Nicholas C. Jones were appointed Justices of the Peace for the year 1854 and a new commission given to said County, including them.

By the return of Johnson and his associates, it appears that they were guilty of an act of fraud and a conspiracy to defraud the Government of the sum of \$100,000. The White House State last some time in the month of January last they purchased a stock of 5000 copies of the Constitution in the said County and at the time of said purchase transferred to the petitioners the license which they had just taken out for the same purpose. The petitioners then supposed would be a sufficient permit for them to sell the same and did accordingly under such supposition sell in the said County the same in a public sale. It now appears to be that the said license was not validly taken out and that the petitioners are liable for the same. The Secretary and Treasurer of the said institutions of the said County have been recommended by the court of the said County to be paid for the same.
