By the petition of many respectable Inhabitants of Frederick City, it appears that George Robertson a young stranger of respectable appearance is confined in the Jail of Frederick County, under a warrant of Frederick County Court to pay a fine of Fifty dollars, for selling liquor without a license.

The petition states, that the said George Robertson while in the employment of one of the Citizens of Frederick County being an entire stranger and ignorant of the Laws, sold liquor at the Horse races held at Frederick in the October preceding, for which he was fined by the Court that he has been in Jail for five months, is without money, and has no friends within several hundred miles. The Petitioner therefore pray a remission of his fine, in which one of the Associate Justices of the County Court joins. We therefore deeming this a fit case for Executive clemency do hereby remit the said fine.

By the petition of William Schuebelly accompanied by a transcript from the record it appears that at March Term 1820 of Washington County Court, he was fined in one case Ten pounds Current money, and in another case Fifty dollars for selling merchandise without license.

The petition states that the petitioner has for several years been a merchant in Hager's Town, and has regularly obtained license. That his omission to do so in this case, proceeded from neglect, and not from any desire to defraud the State, and his case being recommended to our favorable consideration by the Court and by many respectable Citizens of Hager's Town, we do therefore remit the said fine.
